

Sirius

Sirius is a high-quality, Crimson Sweet-striped personal size seedless watermelon with a medium thick rind and intermediate resistance to Fusarium wilt race 1. In comparison to other personal size seedless types, Sirius produces medium-large, globe-shaped fruits with red flesh and small to medium pip size.

FEATURES

- Intermediate resistance to Fusarium wilt race 1
- Medium to large fruit size with mostly 8 and 6 count fruit
- Uniform fruit size for consistent performance
- Medium rind thickness

BENEFITS

- Provides a desirable range of fruit sizes
- Improved post-harvest handling due to medium rind thickness
- Good plant vigor with maturity approximately 2-3 days earlier than similar varieties in the same segment

TECHNICAL DATA

Approx. days to maturity	74
