

Parabola Planter Series

2249-17208 shown in Etched Black

Cold Painted Terra Cotta Collection

Campania's terra cotta planters are hand made from natural clay using traditional artisanal techniques and high-fired at temperatures between 990-1000 degrees centigrade to ensure frost resistance and durability.

As the name implies, cold painted indicates that the color is applied to the surface of the piece after its fired. As such, the color is not integral to the piece as in a fully glazed planter. To maintain the integrity of the surface color of the planter, we recommend that Cold Painted pieces be used indoors only.

Please note that actual colors may vary slightly from those depicted here.

Parabola Planter Series

Materials: natural clay

Care & Maintenance/Planting Instructions: Cold painted planters are recommended for indoor use only. If your planter is supplied with a saucer and drain hole, it is important that the drain holes remain clear to ensure proper drainage.

Cleaning Instructions: Campania's Terra Cotta planters can be cleaned with mild soapy water. Spray down the surface of the planter where it is dirty and use a lint-free cloth, soft bristle brush or sponge to wipe the surface. Note that it may take several cycles of wiping and drying before the planter is completely clean. Do not pressure wash, use alcohol-based cleaners, apply corrosive cleaners or clean with anything abrasive.
