POTTERY COLLECTION

POLARIS PLANTER
BRONZE BLUE

Campania sources glazed and unglazed terra cotta pottery from the best artisan factories in Asia. We ensure the finest quality material is used in our pottery. We carry a wide selection of finishes and styles. Our collection includes both traditional and contemporary styles and over 70 glaze color choices.

Campania's glazed and terra cotta pottery is high fired at 990 (terra cotta) to 1000 (glazed) degrees centigrade to maximize frost resistance and durability. Glazed and terra cotta Campania products are made by hand with a dense clay specially suited for outdoor use. Hand made glazed and terra cotta containers are less absorbent than machine made, and therefore less vulnerable to winter damage.

POTTERY GENERAL CARE

Always place any Campania product on a solid level surface and not directly on grass, soil, or an uneven surface.

Proper winter care is recommended for all Campania terra cotta and glazed planters for protection in environments with potential freeze-thaw cycles. If a planter is to be left planted over the winter, ensure proper drainage by 1.) Placing a layer of coarse gravel or other appropriate drainage material in the bottom of the container, and 2.) Making sure the drainage holes are not blocked. If the planter remains in contact with the ground surface over the winter, the freeze-thaw cycles may cause the planter to crack or spall.

Care and Maintenance

Always place any Campania product on a solid level foundation and not directly on grass, soil, or an uneven surface.

While our pottery is considered frost resistant, proper winter care is recommended for all Campania planters for protection in environments with potential freeze-thaw cycles. If a planter is to be left planted over the winter, ensure proper drainage making sure the drain-age holes are not blocked. Place a layer of coarse gravel in the bottom of the container to facilitate drainage. If the planter remains in contact with the ground surface over the winter, the freeze-thaw cycles may cause the planter to crack or crumble.

Packaging

Due to our dedication to the environment, our planters are packaged with 95% recyclable material, including cardboard and 100% reusable natural wood Excelsior.
