

A twin-cylinder aspirator producing high vacuum / high flow for medical suction. Portable and durable design with an easy-to-read vacuum gauge.

Aspirator TC-2000V

- Piston type
- Max working air flow *:
110-120V 60Hz: ~34 l/min
220-240V 50Hz: ~30 l/min
- Max vacuum pressure: ~675 mmHg
- 4.7 kg / 10.4 lbs

*Measured with collection container and microbial filter attached.
