TRESTLE CONSOLE TABLE

Console Tables

Combining the organic, unrefined beauty of limestone with the old-world charm of wrought iron. The Limestone Trestle table takes inspiration from 19th century trestle tables, at a time when iron first found its way into furniture design. Today, wrought iron is rarely made, and requires the skill of experienced blacksmiths. Contrasting with the wrought iron trestles, a tabletop cut from German limestone sits boldly atop. The stone is hammered by hand across the entire surface to create a lychee finish, so called due to its resemblance with the pitted skin of the lychee fruit. The stone's beautifully rugged, natural look is the perfect foil to the elegant wrought iron legs.

TABLE SPECIFICATION

Product Code:	T-TRS-TC-0001-Z
Product Height:	76cm / 29.9"
Product Width:	152cm / 59.8"
Product Depth:	40cm / 15.7"
Weight:	66.5kg / 146.3lbs
Frame Construction:	Stone
