

BRANCH BISTRO TABLE

Inspired from tree branches, the Branch small outdoor tables look fluid and organic. Behind the airy, slimline appearance lies a sophisticated design and well thought-out materials. The aluminium die-cast frame is powdercoated with a double layer for a superior scratch and uv-resistance. Aluminium is an excellent outdoor material, easy to clean, weather-resistant and 100% recyclable.

The Branch contract table is available as a round bistro table or as a square model. Both are ideal as small balcony tables.
