FROZEN

Continuing Timothy Oulton's fascination for ancient rocks and crystals, the Frozen lighting range is made using natural calcite crystals. Calcite's mystical properties have long been said to stimulate mental energy and help you to let go of the past and step forward into the future. More opaque and milky in colour compared to our quartz lighting collections, the crystals emit a very soft, gentle glow when illuminated, with earthy colourings occasionally visible within the crystal. Designed using very simple shapes with almost no visible frame, Frozen captures the enchanting beauty, romance and magic of one of Earth's oldest natural materials.
