GLOBE

flower pot

by AYTM

A very popular design has been renewed and revamped. The Globe is now available as a flower pot that goes well inside as outside. The new combination of shiny brass rings and colorful matte Globes are unique and playful. The colours are good on their own but they are even better together as the colour tones match each other perfectly. The different sizes opt for many different plants that can either stand up from the pot or hang down for a more dramatic effect.
