GYRO

T-GYO-LC-0008-U

The Gyro lighting collection is inspired by nineteenth century experimental physicist Leon Foucault's gyroscope: a device used for measuring orientation. Extracting key elements from the historical instrument such as its multiple axes, the gyroscope has been reinterpreted into a framework of aged metal spheres fixed around a nucleus of candle lights. These sculptural forms have been redesigned into functional lighting fixtures including floor lamps, sconces, table lamps, and chandeliers, and are featured in two authentic finishes; Antique Rust and Natural raw metal.

DIMENSIONS :

L: 40.6" / 103 cm

W: 40.6" / 103 cm

H: 42.9" / 109 cm

PRODUCT SHOWN IN :

Large Pendant - Antique Rust

AVAILABLE IN :

FRAME : Antique Rust | Natural
