

## ILLUM

The table with its slim legs is kept pure and simple. For the tabletop, you can choose from teak or ceramic in different colours, among which the new colours piombo and linen. An extra plus of the table is that it is available in two widths: the standard 98 cm and a smaller version of 71 cm. This last one is the ideal solution for smaller patios and balconies. Moreover, because people sit close to each other, it fits perfectly into the current trend of tabling in a nonchalant atmosphere.
