

IN BETWEEN BARSTOOL

Merging man and machine by combining classic wood craftsmanship with compression moulding, Kallio imbues the In Between Bar Stool with some Nordic soul. Seen in a simple, timeless design that's kissing cousins to his In Between Chair and In Between Table, both made in conjunction with &tradition.

For Kallio, "The bar stool uses woodturning and special veneer techniques in a way that makes the structure sturdy yet surprisingly light. So it blends into a space without taking up too much space. I wanted the bar stool to fit comfortably into any setting - just like the person sitting in it.

DIMENSIONS (cm's)

SK7 - 58 W x 54 D x 102 H

AVAILABLE FINISHES
