DESCRIPTION

Jardinico offers parasols with an aesthetic added value. Each model surprises with its sturdiness, thanks to the unique, sleek and elegant design. Designed with attention to every detail, extremely easy to use. The collection consists of various models, each with their own features and luxurious appearance.

MATERIALS

Frame : Powdercoated aluminium

Fabric : Solution dyed Sunbrella® PLUS Marine fabric specifically developed for outdoor use.

Sunbrella® PLUS Marine

All fabrics for the Caractère outdoor umbrella canopies are made of solution dyed acrylic yarns from the Sunbrella® PLUS Marine collection.

Performance

The yarns are made of solution dyed acrylic. This means the colour of the fabric runs all the way through the yarn. The colour is added to the liquid solution that the yarn is extruded from. Only solution dyed fabrics keep their colour and are resistant to fading with exposure to UV rays when exposed to the sun.

Stain resistant & waterproof

All fabrics have a surface finish that makes the fabric water and stain repellent. A coating on the reverse side makes the fabric waterproof, mildew resistant and keeps its drying time to a minimum.
