For over 16 years, we at Manutti have shared an insatiable drive to create and inspire. In fact, we are as passionate about the process as we are about the final piece. From the first sketches, the choice of materials and the creation, to the moment our outdoor furniture finds a home where it belongs.

This love for creation goes hand in hand with our attention to detail. An outdoor space is changed by our sensory experience of it. The way the fabric of a chair touches our skin or the warmth of the top of our new dining table. Handmade pieces carry those tactile experiences in them from the start. That is why, at Manutti, we value craftsmanship in all we make.

Our new collections strike a balance between inspiration and innovation. They are infused with passion and personality. From the clean-lined wood elements of our Solid Collection, the intricately handwoven ropes of our Kobo couch to the sophisticated metalwork of our Duo chair: our 2018 designs are the result of true craftsmanship, drive and high quality standards.

YOUR OUTDOOR SPACE, YOUR CHOICE

**Surround yourself with things you love.
Pieces that reflect your lifestyle and personality.
Or simply items that stand out to you.
Manutti prides itself in its wide range of
outdoor furniture for you to choose from.**

Whichever collection you prefer, each and every Manutti piece is the result of smart design, craftsmanship and a profound sense of quality. For you to be able to select your personal favourite from a vast array of durable and high-end design collections, we work with a select group of suppliers and chiefly produce in our own factories.

MANUTTI STYLE, A 3-STEP PROCESS TOWARDS CREATIVE DESIGN

Manutti knows that your style cannot be defined into one category. It's a mix of colours, shapes and materials that develop through time. That is why our designers, trendwatchers and stylists follow a simple 3-step process towards creative design. From **inspiring moodboards** based on trend colours **to the creative input of our designers** and a helpful selection of **colour combinations**.

Whichever style you prefer, each and every combination is applicable to your favourite piece. Well-considered and conscious matches ensure that your outdoor setting is tailored to your needs.

Step into our world.

THROUGH OUR DESIGNERS' CREATIVITY

These materials and colours form an integral part of the creative process of our talented team of designers, inspiring them to develop innovating and surprising pieces in true Manutti style.

DESIGNER PORTRAIT **LIONEL DOYEN**

*More than simply
aesthetic appeal*

Lionel Doyen (1978) is specialised in service, product and industrial design and product development. Since launching his own studio in September 2013, he aims to establish a more personal, more experimental approach to product design and development. In partnership with companies like Manutti, he hopes to promote a more comprehensive strategy, taking into consideration the customer's relationship with the product and its use, the innovative aspects and implementation, more than simply its aesthetic appeal. He created the Kumo, San & Solid collection.

DESIGNER PORTRAIT **GERD COUCKHUYT**

*Visual and emotional
inspiration in everyday life*

Gerd Couckhuys (1970) is a Belgian designer who finds inspiration in visual and emotional stimuli in everyday life. In 2012, he created the Mood lounge and coffee tables for Manutti, as well as the Loop chair and various side tables. Two years later, Manutti received the 'Red Dot Award for Product Design' in the 'Gardens - Lounge Furniture' category for the Elements collection he designed in 2013. In 2014, he created the playful sofa concept Moon Island.

DESIGNER PORTRAIT

KOEN VAN EXTERGEM

Pure, sober and detailed style

Koen Van Extergem (1989) is a young Belgian designer with a pure, sober and detailed style, which he further refined during his studies in product development and furniture design. Van Extergem joined the Manutti design studio in 2013 and, together with Stephane De Winter, developed a new generation of lounge furniture in the shape of the Air collection. For 2018, he designed the Duo chair.

DESIGNER PORTRAIT

BRAM BOLLEN

Master of simplicity with an eye for detail

Bram Bollen (1979) started as a freelance designer in the outdoor furniture industry after obtaining a Master's Degree at the Media & Design Academy in Genk in 2004. Throughout the years, he has developed creative solutions for both professional and private customers. For Manutti, he designed the linear and timeless Liner collection in 2009-2010. Bollen finds inspiration in architecture and interior design. He is a master of simplicity and has a keen eye for detail, giving his designs a contemporary and refreshing feel.

DESIGNER PORTRAIT

MADS ODGÅRD

Keep it simple and the earth livable

The Danish designer Mads Odgård (1960) is a leading figure in a new generation of international designers. He is a minimalist and a 'less is more' man. With an educational background from The Royal Danish Academy of Fine Arts, Denmark's Design School and Art Center Europe, Switzerland, Odgård is one of Denmark's most sought-after designers. Since 1988, The Mads Odgård Design Studio has focused on product design with the mission to improve that which already exists and most importantly, gives the user spontaneous delight. According to Odgård, "design should be human and logical in form". Mads Odgård has won many prestigious awards including the German Design Council Award and Red Dot Germany.

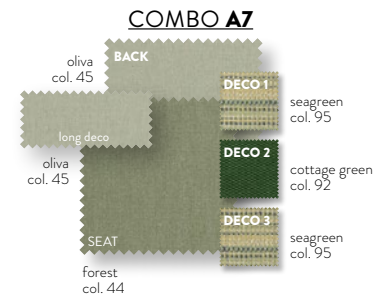

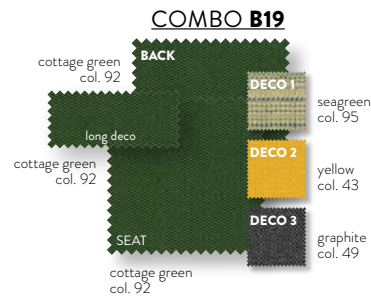

DESERT

STONE

TO THE RIGHT COLOUR COMBINATION FOR EVERY SETTING

Our selection of 62 fabrics with 20 suggested colour combinations results in a wealth of possibilities for a breathtaking outdoor design. Are you contemplating if a pinch of Havana would match your favourite piece? We've laid it all out for you in 6 colour schemes, resolving any design enigma in the blink of an eye.

MATERIALS

POWDER COATED ALUMINIUM (PCA)

POWDER COATED ALUMINIUM

- Fluidised powder coating applied to the aluminium structure by electrostatic spray. To ensure the solidity and resistance of the powder coating, the whole thing is stoved at a temperature of between 160°C (320°F) and 210°C (410°F) (T° according to type of powder)
- Easy to clean and maintain (for specific maintenance see p. 346)
- For outdoor and indoor use

GEPOEDERLAKT ALUMINIUM

- Deklaag van gefluidiseerd poeder, aangebracht door elektrostatisch spuiten op de aluminium structuur; om een stevige en duurzame deklaag te verwezenlijken, is het geheel gebakken in de oven op een temperatuur tussen 160°C (320°F) en 210°C (410°F) (naargelang het poedertype)
- Gemakkelijke reiniging en onderhoud (voor een specifiek onderhoud zie p. 346)
- Voor gebruik buiten en binnen

ALUMINIUM THERMOLAQUE

- Poudre powder coating fluidisée appliquée par spray électrostatique sur la structure en aluminium. pour obtenir le solide et la résistance du revêtement powder coating, l'ensemble est cuit au four à une température entre 160°C (320°F) et 210°C (410°F) (T° selon type poudre)
- Nettoyage et entretien facile, pour un entretien spécifique (voir p. 346)
- Pour une utilisation en extérieur et intérieur

PULVERBESCHICHTETES ALUMINIUM

- Beschichtung mit verflüssigtem Pulver, das im elektrostatischen Sprayverfahren auf das Aluminiumgestell aufgetragen wird. Zur Erreichung einer festen und widerstandsfähigen Pulverbeschichtung erfolgt anschließend eine Härtung im Ofen bei einer Temperatur zwischen 160°C (320°F) und 210°C (410°F) (Dauer in Abhängigkeit vom Pulvertyp)
- Einfache Reinigung und Pflege (spezielle Pflege siehe S. 346)
- Für die Verwendung im Außen- und Innenbereich

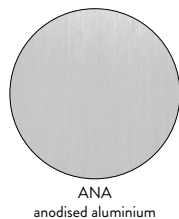

ALUMINIO CON REVESTIMIENTO EN POLVO

- Revestimiento en polvo licuado aplicado mediante pulverizador electrostático sobre la estructura de aluminio. Para adquirir la solidez y resistencia del revestimiento en polvo, el conjunto se mete en horno a una temperatura de entre 160°C (320°F) y 210°C (410°F) (en función del tipo de polvo)
- Fácil limpieza y mantenimiento, para un mantenimiento específico (consulte p. 346)
- Utilizable al aire libre y en interiores

ALLUMINIO TERMOLACCATO

- Polvere powder coating fluidificata applicata mediante spray elettrostatico sulla struttura in alluminio. Per ottenere la solidità e la resistenza del rivestimento powder coating, il tutto viene cotto al forno a una temperatura compresa tra i 160°C (320°F) e i 210°C (410°F) (in base al tipo di polvere)
- Facile pulizia e manutenzione, per una manutenzione specifica vedere p. 346
- Per un utilizzo in ambienti esterni ed interni

ANODISED ALUMINIUM (ANA)

ANODISED ALUMINIUM

- Electrochemical surface treatment on aluminium
- Protects the aluminium from mechanical wear and tear, chemical attack and corrosion
- Micron content: 27 MICRON oxide layer with open pores and a well-determined layer thickness formed
- Recommended near the sea, a swimming pool, in very industrial areas, or near a railway
- For outdoor and indoor use
- Does not require any specific maintenance, easy to clean

GEANODISEERD ALUMINIUM

- Electrochemische oppervlaktebehandeling op aluminium
- Beschermt het aluminium tegen mechanische slijtage, chemische aantasting en corrosie
- Microngehalte : 27 MICRON oxidelaag met open poriën en een welbepaalde laagdikte gevormd
- Aanbevolen in de buurt van de zee, zwembaden, in de buurt van zware industrie, spoorwegen
- Voor gebruik buiten en binnen
- Gemakkelijke reiniging en onderhoud

ALUMINIUM ANODISÉ

- Traitement de surface électrochimique sur aluminium
- protège l'aluminium contre l'usure mécanique, l'érosion chimique et la corrosion
- Microns : couche d'oxydation de 27 MICRONS avec pores ouverts et une épaisseur de couche formée suivant des spécifications déterminées
- Préconisé a proximité de la mer, piscine, dans des zones fortement industrielle, voie ferrée
- Pour une utilisation extérieure et intérieure
- ne demande aucun entretien spécifique, nettoyage facile

ELOXIERTES ALUMINIUM

- Elektrochemische Oberflächenbehandlung von Aluminium
- Schützt Aluminium vor mechanischem Verschleiß, dem Angriff durch Chemikalien und Korrosion
- Mikroanteil: 27 MICRON offeneporige Oxidschicht und mit genau definierter Schichtdicke
- Empfohlen in der Umgebung des Meeres, eines Schwimmbades, in Gebieten mit hoher Industriekonzentration und in Eisenbahnnähe
- Für Außen- und Innenverwendung
- Ohne spezielle Wartungsanforderungen, problemlose Reinigung

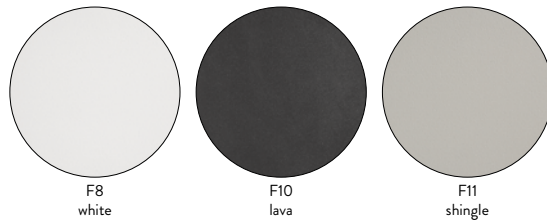

ALUMINIO ANODIZADO

- Tratamiento electroquímico de la superficie de aluminio
- Protege el aluminio del desgaste mecánico, de daños por productos químicos y de la corrosión
- Valor en micrones: capa de óxido de 27 micrones con poros abiertos y un determinado grosor de capa formado
- Se recomienda si se va a utilizar cerca del mar, de una piscina, de la vía férrea o en zonas industriales
- Para uso en exteriores y interiores
- No precisa mantenimiento específico, de fácil limpieza

ALLUMINIO ANODIZZATO

- Trattamento elettrochimico superficiale dell'alluminio
- Protegge l'alluminio dall'usura meccanica, dal deterioramento chimico e dalla corrosione
- Spessore in micron: pellicola di ossido di 27 MICRON con pori aperti e spessore dello strato definito
- Si consiglia di adottarlo nelle aree vicino al mare, a piscine, nelle aree altamente industriali e vicino alle ferrovie
- Per uso in ambienti esterni ed interni
- Non richiede alcuna manutenzione specifica, facile pulizia

STAINLESS STEEL (PCSTS)

ELECTROPOLISHED STAINLESS STEEL

- Stainless steel 316L and 304L that has been treated. This special treatment draws chrome and nickel and other materials present in steel to the surface, hence giving a brilliant appearance and providing an additional protective coating
- Technique used in the naval industry
- Recommended near the sea, a swimming pool, in very industrial areas, or near a railway
- For outdoor and indoor use

BEHANDELD ROESTVRIJ STAAL

- Behandeld roestvrij staal 316L en 304L. Deze specifieke behandeling zorgt voor een grotere concentratie aan chroom en nikkel en andere legeringselementen bij het oppervlak van het staal zodat het een extra glanzende bescherm laag krijgt
- Techniek gebruikt in de scheepvaartindustrie
- Aanbevolen in de buurt van de zee, zwembaden, in de buurt van zware industrie, spoorwegen
- Voor gebruik buiten en binnen

ACIER INOXYDABLE TRAITÉ

- Acier inoxydable 316L et 304L, ayant subi un traitement. Ce traitement spécifique attire le chrome et le nickel et autres matières présentes dans l'acier à la surface donnant ainsi une apparence brillante et apportant une couche protectrice supplémentaire
- Technique utilisée dans l'industrie navale
- Préconisé à proximité de la mer, piscine, dans des zones fortement industrielle, voie ferrée
- Pour une utilisation en extérieur et intérieur

BEHANDELTER EDELSTAHL

- Behandelter Edelstahl 316L und 304L. Bei dieser speziellen Behandlung werden Chrom, Nickel und andere Legierungselemente an der Oberfläche konzentriert, wodurch die Oberfläche einen besonderen Glanz erhält und eine zusätzliche Schutzschicht gebildet wird
- Diese Technik kommt aus dem Schiffsbau
- Empfohlen in der Umgebung des Meeres, eines Schwimmbades, in Gebieten mit hoher Industriekonzentration und in Eisenbahnnähe
- Für die Verwendung im Außen- und Innenbereich

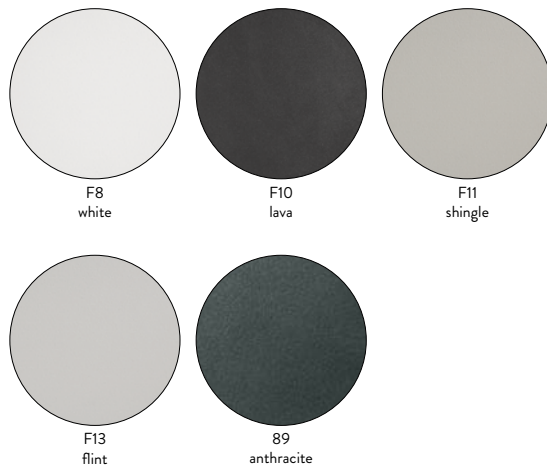

ACERO ELECTROPULIDO

- Acero inoxidable 316L y 304L, sometido a un tratamiento. Este tratamiento específico atrae al cromo, el níquel y otros materiales presentes en el acero hacia la superficie, lo que hace que ésta tenga una apariencia brillante y proporciona una capa adicional de protección
- Técnica utilizada en la industria naval
- Se recomienda si se va a utilizar cerca del mar, de una piscina, de la vía férrea o en zonas industriales
- Utilizable al aire libre y en interiores

ACCIAIO INOSSIDABILE TRATTATO

- Acciaio inossidabile 316L e 304L sottoposto a trattamento. Questo trattamento specifico attira il cromo, il nickel e altri elementi presenti nell'acciaio verso la superficie, creando così un aspetto brillante e generando un'ulteriore strato protettivo
- Tecnica utilizzata nel settore navale
- Si consiglia di adottarlo nelle aree vicino al mare, a piscine, nelle aree altamente industriali e vicino alle ferrovie
- Per un utilizzo in ambienti esterni ed interni

WROUGHT IRON (PWI)

WROUGHT IRON

- Sanded solid forged iron, with anti-oxidation treatment (phosphatation) and stoved at 180°C (356°F) min.
- 100% UV-resistant, does not discolour in the light and sun
- Swimming pool and sea water resistant and repellent
- Does not require any specific maintenance, easy to clean
- For outdoor and indoor use
- Each item of furniture is assembled by hand
- 100% recyclable

SMEEDIJZER

- Massief gezandstraald smeedijzer, behandeld tegen oxidatie (fosfatering) en in de oven gebakken op minstens 180°C (356°F).
- 100% uv-bestendig, verkleurt niet onder invloed van licht en de zon
- Waterafstotend en bestand tegen water van zwembaden en zeewater
- Vergt geen enkel specifiek onderhoud, gemakkelijk schoon te maken
- Voor gebruik buiten en binnen
- Elk meubelstuk wordt met de hand geassembleerd
- 100% recycleerbaar

FER FORGÉ

- Fer forgé massif sablé, traité anti-oxydation (phosphatation) et cuit au four à 180°C (356°F) min.
- 100% résistante aux UV, ne se décolore pas sous l'action de la lumière et du soleil
- Résistant et hydrophobe à l'eau de piscine et de mer
- Ne demande aucun entretien spécifique, nettoyage facile
- Pour une utilisation en extérieur et intérieur
- Chaque mobilier est assemblé manuellement
- 100% recyclable

SCHMIEDEEISEN

- Sandgestrahtes massives Schmiedeeisen, rostschutzbehandelt (Phosphatierung) und im Ofen bei min. 180°C (356°F) gebrannt
- 100 % UV-beständig, bleicht an Licht und Sonne nicht aus
- Wasserabstoßend und schwimmbad- und meerwasserbeständig
- Erfordert keine spezielle Pflege, einfach zu reinigen
- Für die Verwendung im Außen- und Innenbereich
- Jedes Möbelstück wird von Hand zusammengebaut
- 100 % recyclingfähig

HIERRO FORJADO

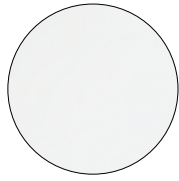

- Hierro forjado macizo arenado, con tratamiento antioxidación (fosfatación) y cocido al horno a 180°C (356°F) min.
- 100% resistente a los rayos UV, no se decolora por efecto de la luz y del sol
- Resistente e hidrófugo al agua de piscina y de mar
- No requiere tratamiento específico, de fácil limpieza
- Utilizable al aire libre y en interiores
- Cada pieza se monta manualmente
- 100% reciclable

FERRO FORGIATO

- Ferro massiccio forgiato sabbiato, sottoposto a trattamento antiossidante (fosfatazione) e cottura in forno a 180°C (356°F) min.
- Resistente al 100% ai raggi UV, non scolora se esposto a luce o ai raggi solari
- Resistente all'acqua di piscina e di mare, e idrorepellente
- Non richiede alcuna manutenzione specifica, facile pulizia
- Per un utilizzo in ambienti esterni ed interni
- Ogni mobile viene assemblato a mano
- Riciclabile al 100%

MATERIALS

QUARYL® (QUARTZ COMPOSITE)

Q8
quaryl®
(only Elements)

- Quartz coloured right through, so absolutely colourfast
- Frost- and UV-resistant making the material highly suitable for outdoor use
- Fully scratch-resistant (more than most other known composites)
- Low porosity and very high density
- Extremely stable and durable
- Ecological and 100% recyclable
- Hygienic: the visible surface is without pores so easy to maintain and clean.

- In de massa gekleurde kwarts en daardoor absoluut kleurecht en kleurvast
- Vorst- en UV-bestendig wat dit materiaal uiterst geschikt maakt voor buitengebruik
- Heel krasbestendig (meer dan de meeste andere gekende composietsoorten)
- Weinig poreus en zeer hoge densiteit
- Uiterst stabiel en duurzaam
- Ecologisch en 100% recycleerbaar
- Hygiënisch: zichtbare oppervlak is porienvrij en hierdoor gemakkelijk te onderhouden en te reinigen.

- Quartz teinté dans la masse et donc totalement inaltérable
- Résistant au gel et aux UV ; ce matériau se prête donc tout à fait à une utilisation extérieure
- Très résistant aux rayures (plus que la plupart des autres types de composites connus)
- Peu poreux et de très haute densité
- Extrêmement stable et durable
- Écologique et recyclable à 100 %
- Hygiénique : la surface visible est exempte de pores et dès lors facile à entretenir et à nettoyer.

- In der Masse gefärbter Quarz und dadurch absolut farbecht und farbfest
- Frost- und UV-beständig, sodass dieses Material besonders geeignet ist zur Verwendung unter freiem Himmel
- Sehr kratzbeständig (mehr als die meisten bekannten Verbundmaterialien)
- Wenig porös und sehr hohe Dichte
- Besonders stabil und haltbar
- Ökologisch und 100% recycelbar
- Hygienisch: Die sichtbare Oberfläche ist porenfrei und dadurch einfach zu warten und zu reinigen.

- Cuarzo coloreado en la masa lo cual garantiza la estabilidad y la solidez del color
- Resistente a las heladas y a UV debido a lo cual este material resulta extremadamente idóneo para usos exteriores
- Muy resistente a los rasguños (más que la mayoría de los otros compuestos conocidos)
- Poco poroso y una muy alta densidad
- Sumamente estable y duradero
- Ecológico y 100% reciclable
- Higiénico: la superficie visible no tiene poros por lo cual resulta fácil de mantener y limpiar.

- Nella massa dei quarzi colorati, quindi assolutamente inalterabile come colore
- Resistente al gelo e ai raggi UV, quindi questo materiale è adattissimo per essere usato all'aperto
- Molto resistente ai graffi (più della maggior parte degli altri tipi di composito conosciuti)
- Scarsa porosità ed elevata densità
- Molto stabile e durevole
- Ecologico e riciclabile al 100%
- Considerazioni igieniche: la superficie visibile è priva di pori e quindi di facile manutenzione e pulizia.

- Blend of Textilene® and polyolefin, UV-resistant
- Swimming pool and sea water resistant and repellent
- Easy to clean and maintain. For specific maintenance, woven & textiles cleaner (see p. 346)
- Each item of furniture is assembled by hand
- Recyclable, GreenGuard certified, REACH certified

- Combinatie van Textilene® en polyolefine, uv-bestendig
- Waterafstotend en bestand tegen water van zwembaden en zeeewater
- Gemakkelijke reiniging en onderhoud, voor specifiek onderhoud woven & textiles cleaner (zie p. 346)
- Elk meubelstuk is met de hand gevlochten
- Recyclebaar, GreenGuard gecertificeerd, REACH gecertificeerd

- Combinaison de Textilene® et polyolefine, resistant aux uv
- Résistante et hydrophobe à l'eau de piscine et de mer
- Nettoyage et entretien facile, pour un entretien spécifique, woven & textiles cleaner (voir p. 346)
- Chaque mobilier est tressé à la main
- Recyclable, GreenGuard certifié, REACH certifié

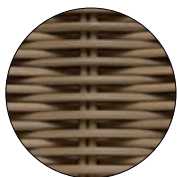

- Kombination von Textilene® und Polyolefin, UV-beständig
- Wasserabstoßend und Chlor- und Salzwasserbeständig
- Einfache Reinigung und Pflege; für die spezielle Pflege woven & textile cleaner (siehe S. 346)
- Jedes Möbelstück ist von Hand geflochten
- Recyclingfähig, GreenGuard Zertifiziert, REACH Zertifiziert

- Combinacion Textilene® y polyolefina, resistente a los rayos UV
- Resistente e hidrófuga al agua de piscina y de mar
- Fácil limpieza y mantenimiento, para un mantenimiento específico, limpiador woven & textiles (consulte p. 346)
- Todas las piezas se tejen a mano
- Reciclable, GreenGuard certificada, REACH certificada

- Combinazione Textilene® e polyolefina, resistente agli uv
- Resistente all'acqua di piscina e di mare, e idrorepellente

THE FIBRES

- A synthetic fibre (HDPE), high quality thermoplastic fibre
- Resistant to great variations in temperature, even extreme, from -25°C (-13°F) to +70°C (158°F)
- Fibre dyed in the mass, UV-resistant, does not discolour in the light and sun
- Swimming pool and sea water resistant and repellent
- UV tested 3500 h of exposure DIN 53387 Xenon Arc radiation
- High stability with traction resistance >20 MPA (ISO527)
- Easy to clean and maintain, for specific maintenance, woven & textile cleaner (see p. 346)
- For outdoor and indoor use
- Different finishes available depending on collections
- Each item of furniture is assembled by hand
- Toxin-free, ecological, 100% recyclable

VEZELS

- Een synthetische thermoplastische vezel (HDPE) van uitstekende kwaliteit
- Bestand tegen grote temperatuurschommelingen, zelfs extreme van -25°C (-13°F) tot +70°C (158°F)
- In de massa gekleurde vezel, uv-bestendig, verkleurt niet onder de invloed van het licht en de zon
- Waterafstotend en bestand tegen water van zwembaden en zee water
- Beproeft uv-weerstand bij een blootstelling van 3500 uur DIN 53387 Xenon Arc radiation (straling xenon-lichtboog)
- Hoge stabiliteit met een trekweerstand > 20 MPa (ISO527)
- Gemakkelijke reiniging en onderhoud, voor een specifiek onderhoud, wovon & textile cleaner (zie p. 346)
- Voor gebruik buiten en binnen
- Verschillende afwerkingen verkrijgbaar naargelang de collectie
- Elk meubelstuk is met de hand gevlochten
- Zonder toxines, milieuvriendelijk, 100% recycleerbaar

FIBRE

- Une fibre synthétique (hdpe), fibre thermoplastique de haute qualité
- Résistante aux grandes variations de température même extrême de -25°C (-13°F) à +70°C (158°F)
- Fibre colorée dans la masse, résistante aux UV, ne se décolore pas sous l'action de la lumière et du soleil
- Résistante et hydrophobe à l'eau de piscine et de mer
- Testé uv 3500 h d'exposition DIN 53387 Xenon Arc radiation
- Haute stabilité avec une résistance à la traction > 20 MPA (ISO527)
- Nettoyage et entretien facile, pour un entretien spécifique, wovon & textile cleaner (voir p. 346)
- Pour une utilisation en extérieur et intérieur
- Différentes finitions disponibles selon les collections
- Chaque mobilier est tressé à la main
- Sans toxines, écologique, 100% recyclable

FASERN

- Hochqualitative thermoplastische Synthetikfaser (HDPE)
- Beständig selbst bei extremen Temperaturschwankungen von -25°C (-13°F) bis +70°C (158°F)
- Durchgefärbte Faser, UV-beständig
- Wasserabstoßend und Chlor- und Salzwasserbeständig
- UV-Test (3500 h Bewitterung DIN 53387 Bestrahlung mit Xenon-Bogenlampe)
- Hohe Stabilität mit Zugfestigkeit > 20 MPA (ISO 527)
- Einfache Reinigung und Pflege; für die spezielle Pflege wovon & textile cleaner (siehe S. 346)
- Für die Verwendung im Außen- und Innenbereich
- Unterschiedliches Oberflächenfinish je nach Kollektion
- Jedes Möbelstück ist von Hand geflochten
- Toxinfrei, ökologisch, 100% recyclingfähig

LAS FIBRAS

- Fibra sintética (HDPE), fibra termoplástica de alta calidad
- Resistente a grandes oscilaciones térmicas, incluso extremas de -25°C (-13°F) a +70°C (158°F)
- Fibra teñida en masa, resistente a los rayos UV, no se decolora por efecto de la luz y del sol
- Resistente e hidrófuga al agua de piscina y de mar
- Sometida a pruebas UV 3500 h de exposición DIN 53387 radiación con arco de xenon
- Alta estabilidad con resistencia a la tracción >20 MPA (ISO527)
- Fácil limpieza y mantenimiento, para un mantenimiento específico, limpiador textil (consulte p. 346)
- Utilizable al aire libre y en interiores
- Distintos acabados disponibles en función de las colecciones
- Todas las piezas se tejen a mano
- Sin toxinas, ecológica, 100% reciclable

VETRO

- Una fibra sintetica (hdpe), fibra termoplastica de alta qualità
- Resistente agli elevati sbalzi di temperatura, addirittura da -25°C (-13°F) fino a +70°C (158°F)
- Fibra colorata nell'impasto, resistente agli UV, non scolora se esposta alla luce o ai raggi solari
- Resistente all'acqua di piscina e di mare, e idrorepellente
- Testata con 3500 ore di esposizione agli UV con il test lampada ad arco allo xeno DIN 53387
- Alta stabilità con resistenza alla trazione > 20 MPA (ISO527)
- Facile pulizia e manutenzione, per una manutenzione specifica usare il wovon & textile cleaner (vedere p. 346)
- Per un utilizzo in ambienti esterni ed interni
- Diverse finiture disponibili in base alle collezioni
- Ogni mobile è intrecciato a mano
- Senza tossine, ecologico, riciclabile al 100%

MATERIALS

TEAK (T) / AGED TEAK (AT) / BRUSHED TEAK NERO (TN)

AT
aged teak

T
teak

TN
brushed teak
nero

- Superior quality teak wood (VINIR & HARA) aged 60 to 80 years, sourced from ecological plantations
- Great stability under the effect of UV radiation, chlorine and sea water
- Easy to clean, various specific treatments possible (see p. 346)
- For outdoor and indoor use
- 100% recyclable

- Teakhout van de beste kwaliteit (VINIR & HARA) van bomen van 60 tot 80 jaar, afkomstig van milieuvriendelijke aanplantingen
- Grote stabiliteit tegenover uv-stralen, chloor en zeewater
- Gemakkelijk te reinigen, diverse specifieke behandelingen mogelijk (zie p. 346)
- Voor gebruik buiten en binnen
- 100% recycleerbaar

- Bois teck de qualité supérieure (VINIR & HARA) âgé de 60 à 80 ans, provenant de plantations écologiques
- Grande stabilité sous l'effet des rayons UV, du chlore et de l'eau de mer
- Nettoyage facile, divers traitements spécifiques possibles (voir p. 346)
- Pour une utilisation en extérieur et intérieur
- 100% recyclable

- Hochqualitatives Teakholz (VINIR & HARA), Alter 60 – 80 Jahre, aus ökologischem Anbau
- Hohe UV-, Chlor- und Salzwasserbeständigkeit
- Einfache Reinigung, verschiedene spezielle Pflegemöglichkeiten (siehe S. 346)
- Für die Verwendung im Außen- und Innenbereich
- 100 % recyclingfähig

- Madera de teca de calidad superior (VINIR & HARA) envejecida de 60 a 80 años procedente de plantaciones ecológicas
- Extraordinaria estabilidad ante el efecto de los rayos UV, del cloro y del agua marina
- Fácil limpieza, se pueden utilizar diversos tratamientos específicos (consulte p. 346)
- Utilizable al aire libre y en interiores
- 100% reciclable

- Legno tek di qualità superiore (VINIR e HARA) invecchiato tra i 60 e gli 80 anni, proveniente da piantagioni ecologiche
- Grande stabilità se esposto ai raggi UV, al cloro e all'acqua di mare
- Facile pulizia, sono disponibili diversi trattamenti specifici (vedere p. 346)
- Per un utilizzo in ambienti esterni ed interni
- Riciclabile al 100%

IROKO (IR)

IR
iroko

- Superior quality West African hardwood – Durability classification 1
- Great stability under the effect of UV radiation, chlorine and seawater
- Easy to clean, standard pre-treated with wood protector water repellent (see p. 346)
- For outdoor and indoor use
- 100% recyclable

- Hoge kwaliteit West-Afrikaans hardhout – Duurzaamheidsklasse 1
- Grote stabiliteit tegenover UV-stralen, chloor en zeewater
- Gemakkelijk te reinigen, standaard voorbehandeld met een houtbeschermingsproduct – waterafstotend (zie p. 346)
- Voor buiten- en binnengebruik
- 100% recycleerbaar

- Bois dur de qualité supérieure, en provenance d'Afrique de l'Ouest Classement durabilité de niveau 1
- Grande stabilité sous l'effet des rayons UV, du chlore et de l'eau de mer.
- Facile à nettoyer, prétraité de série avec un produit protecteur hydrofuge (voir p. 346)
- Pour une utilisation en extérieur et intérieur
- 100% recyclable

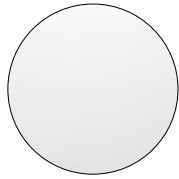

- Westafrikanisches Hartholz mit überragender Qualität Dauerhaftigkeitsklasse 1
- Hohe UV-, Chlor- und Salzwasserbeständigkeit
- Einfach zu reinigen, als Standard mit Holzschutzmittel vorbehandelt - wasserabweisend (siehe S. 346)
- Für die Verwendung im Außen- und Innenbereich
- 100% recyclingfähig

- Madera dura de calidad superior procedente de África occidental. Clase de durabilidad 1
- Extraordinaria estabilidad ante el efecto de los rayos UV, del cloro y del agua marina
- Fácil limpieza, pretratada de serie con protector de madera y repelente al agua (ver p. 346).
- Utilizable al aire libre y en interiores
- 100% reciclable

- Legno duro dell'Africa Occidentale di qualità superiore Classificazione della durabilità 1
- Grande stabilità se esposto ai raggi UV, al cloro e all'acqua di mare
- Facile pulizia, pre-trattato standard con prodotto di protezione del legno idrorepellente (vedi p. 346)
- Per un utilizzo in ambienti esterni ed interni
- Riciclabile al 100%

MATERIALS

TRESPA® (HPL)

90 - TRW
white

92 - TRB
black

Trespa® is a flat thermo hardening resin-based sheet, homogenously reinforced with wood-based fibres and manufactured at high pressure and temperature (HPL – High Pressure Laminate). The visible side is covered in a decorative surface using the patented EBC technology.
For this Manutti works with 10 & 13 mm thick sheets.
For all colours the border has a black finish.

Trespa® is een vlakke plaat op basis van thermohardende harsen, homogeen versterkt met op hout gebaseerde vezels en vervaardigd onder hoge druk en temperatuur (HPL – High Pressure Laminate).
De zichtbare zijde wordt voorzien van een decoratief oppervlak met behulp van de gepatenteerde EBC-technologie. Manutti werkt hiervoor met platen met een dikte van 10 & 13 mm. De boord is bij alle kleuren afgewerkt in zwart.

Trespa® est un panneau plat à base de résines thermodurcissables, renforcé de manière homogène avec des fibres à base de bois et fabriqué sous haute pression et à haute température (HPL – High Pressure Laminate - Laminé à haute pression).
La face visible est dotée d'une surface décorative au moyen de la technologie EBC brevetée. Pour ce faire, Manutti travaille avec des panneaux d'une épaisseur de 10 & 13 mm. La finition du bord est pour tous les coloris en noir.

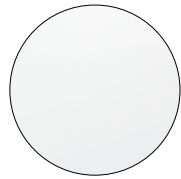

Trespa®-Platten werden auf der Basis wärmehärtender, gleichmäßig mit Holzfasern verstärkter Harze unter Hochdruck und bei hohen Temperaturen hergestellt (HPL – High Pressure Laminate).
Die sichtbare Seite wird nach dem patentierten EBC-Verfahren mit einer Deko-Oberfläche versehen. Manutti arbeitet mit 10 & 13 mm dicken Platten.
Bei allen Collectionsfarben ist die Tischkante grundsätzlich in der Farbe schwarz.

Trespa® es una placa plana compuesta básicamente de resinas termoendurecidas, reforzada de forma homogénea con fibras de madera y fabricada a alta presión y temperatura (HPL – laminado a alta presión).
La parte que queda a la vista incorpora una superficie decorativa por medio de la tecnología patentada EBC. Manutti trabaja con placas de 10 & 13 mm de grosor.
Para todos los colores el borde tiene una finición negra.

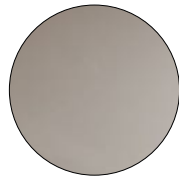

Trespa® è una lamina piatta a base di resine termoindurite rafforzata omogeneamente con fibre su base di legno e fabbricata ad alta pressione e temperatura. (HPL – High Pressure Laminate, laminato ad alta pressione). Il lato visibile viene fornito di una superficie decorativa grazie alla tecnologia brevettata EBC.
Manutti utilizza lamine con uno spessore di 10 & 13 mm. La rifinitura del bordo è per tutti i colori in nero.

MATERIALS

ACID ETCHED GLASS

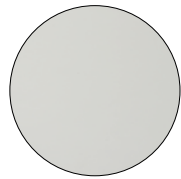

70 - GLW
white

71 - GLT
taupe

72 - GLB
black

73 - GLS
sand

- Hardened glass, acid etched on the top, coloured on the bottom side. Specific gravity: 2.5 kg
- Colour fastness: differences in colour between different table tops can occur. These are caused by the different production batches in which they were made. A colour difference of delta E = 2, measured on the surface of the glass, is acceptable
- Tensile strength: intrinsic tensile strength 10,000 N/mm²
- Scratch resistance: no value available, but clearly sharp objects may cause scratches on the surface of the glass
- Thermal conductivity: 0.8 W/mK
- For outdoor and indoor use

- Gehard glas, aan bovenzijde verzuurd, kleur aan onderzijde ingebakken. Soortelijk gewicht: 2.5 kg
- Kleurechtheid: er kunnen kleurverschillen optreden tussen verschillende tafelbladen, te wijten aan verschillende productiebatches waarin ze gemaakt werden. Een kleurverschil van delta E = 2, gemeten aan het glasoppervlak, is aanvaardbaar
- Treksterkte: intrinsieke treksterkte 10.000 N/mm²
- Krasvastheid: geen waarde beschikbaar, maar het is evident dat scherpe voorwerpen krasen kunnen veroorzaken aan het glasoppervlak
- Warmtegeleidingscoëfficiënt: 0.8 W/mK
- Voor gebruik buiten en binnen

- Verre trempé, face supérieure acidifiée et couleur cuite en face inférieure. Poids spécifique : 2,5 kg
- Inaltérabilité des couleurs : des différences de couleur peuvent survenir entre différents plateaux de table, consécutives aux différents bains de production dans lesquels ces plateaux ont été fabriqués. Une différence de couleur de delta E = 2, mesurée au niveau de la surface du verre, est admissible
- Résistance à la traction : résistance à la traction intrinsèque de 10.000 N/mm²
- Résistance aux rayures : aucune valeur disponible, mais il est évident que les objets contondants peuvent entraîner des rayures à la surface du verre
- Coefficient de conductivité thermique : 0,8 W/mK
- Pour une utilisation en extérieur et intérieur

- Gehärtetes Glas, an der Oberseite gesäuert, Farbe an der Unterseite eingeschmolzen. Spezifisches Gewicht: 2.5 kg
- Farbechtheit: es können Farbunterschiede zwischen verschiedenen Tischblättern auftreten, zurückzuführen auf unterschiedliche Produktionsbatches in denen sie gemacht wurden. Ein Farbunterschied von Delta E = 2, gemessen an der Glasoberfläche, ist akzeptabel
- Ziehstärke: intrinsische Ziehstärke 10.000 N/mm²
- Kratzfestigkeit: kein Wert verfügbar, aber es ist selbstverständlich, dass scharfe Gegenstände Kratzer an der Glasoberfläche verursachen können
- Wärmeleitkoeffizient: 0.8 W/mK
- Für die Verwendung im Außen- und Innenbereich

- Vidrio templado, lado superior mateado al ácido, lado inferior de color esmaltado. Peso específico: 2.5 kg
- Estabilidad del color: el color de las hojas de vidrio puede variar ligeramente según la serie de producción. Una variación de color del valor delta E = 2, medida en la superficie del cristal, se considera aceptable.
- Resistencia a la tracción: resistencia a la tracción intrínseca 10.000 N/mm²
- Resistencia al rayado: no hay valores disponibles, pero es evidente que el contacto con objetos agudos o punzantes puede rayar la superficie del vidrio
- Coeficiente de conductividad térmica: 0.8 W/mK
- Utilizable al aire libre y en interiores

- Vetro temperato, lato superiore acidificato, di color cotto sul lato inferiore. Peso specifico: 2,5 kg
- Inalterabilità dei colori: è possibile notare differenze di colore tra i diversi piani del tavolo, a seguito di un diverso lotto di fabbricazione con il quale sono stati prodotti. Una differenza di colore dal delta E = 2, misurata a livello della superficie del vetro, risulta essere accettabile
- Resistenza alla trazione: resistenza alla trazione intrinseca pari a 10.000 N/mm²
- Resistenza alle graffiature: nessun valore disponibile, ma risulta evidente che gli oggetti contudenti possono provocare graffiature sulla superficie del vetro
- Coefficiente di conduzione termica: 0,8 W/mK
- Per un utilizzo in ambienti esterni ed interni

TEMPERED GLASS

GLASS

- Called tempered glass or safety glass
- Only obtainable in transparent or white toughened glass within the Manutti collection
- Hardened glass with a min. thickness of 6 to 8 mm depending on application
- Identical design to glass for car industry

GLAS

- Getemperd glas of veiligheidsglas genoemd
- Enkel te bekomen in transparant of wit gehard glas binnen de collectie Manutti
- Gehard glas met een min. dikte van 6 tot 8 mm afhankelijk van toepassing
- Identieke uitvoering zoals glas voor auto-industrie

VERRE

- Verre trempé, également appelé verre de sécurité
- Uniquement disponible en transparent ou en verre blanc durci au sein de la collection Manutti
- Verre durci d'une épaisseur minimale de 6 à 8 mm en fonction de l'application
- Exécution identique à celle du verre pour l'industrie automobile

GLAS

- Getempertes Glas oder auch Sicherheitsglas genannt
- In der Manutti-Kollektion ist Temperglas nur transparent oder in weiß erhältlich
- Temperglas mit einer Mindestdicke von 6 bis 8 mm je nach Verwendungszweck
- Gleiche Ausführung wie bei Sicherheitsglas für die Automobilindustrie

CRISTAL

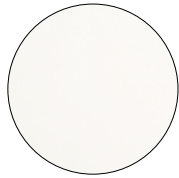

- Cristal templado o, según se denomina, cristal de seguridad
- Sólo disponible en cristal rígido transparente o blanco en la colección Manutti
- Cristal rígido con un grosor mínimo de 6 a 8 mm, dependiendo de la aplicación
- Versión idéntica a la del cristal utilizado en la industria de la automoción

VETRO

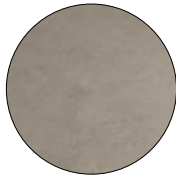

- Vetro temperato, detto anche vetro di sicurezza
- Disponibile solamente in vetro trasparente o temperato nella collezione Manutti
- Vetro temperato con uno spessore minimo di 6-8 mm in base all'applicazione
- Stessa realizzazione del vetro per il settore automobilistico

CERAMICS

The Manutti ceramic table tops are composed of sand, clay and natural stone formed into a layer which is baked at 1100°C. The 3 mm plates are cooled down and are glued together with a resin of polyurethane and fibre glass.

A few characteristics of ceramics are:

- Hygienic surface
- Colourproof
- Resistance to fire and high temperatures
- Impermeability
- Resistance to bending, scratching
- Resistance to wear and tear
- Resistance to chemical products
- Environment friendly
- For outdoor and indoor use

KERAMIEK

De keramische tafelbladen van Manutti zijn samengesteld uit zand, klei en natuursteen die omgevormd wordt tot een laag die gebakken wordt op 1100°C. De afgekoelde platen van 3 mm dik worden vervolgens per twee aan elkaar gelijmd met een harslijm van polyurethaan en glasvezel.

Eigenschappen van keramiek zijn:

- Hygiënisch oppervlak, ondoordringbaar
- Kleurbestendig
- Onderhoudsvriendelijk
- Vuur- en hittebestendig
- Bestand tegen chemische producten
- Zeer sterk en krasvrij
- Slijtvast
- Milieuvriendelijk
- Voor gebruik buiten en binnen

CERAMIQUE

Les plateaux en céramique de Manutti sont composés de sable, d'argile et de pierre naturelle pour être transformées en une couche cuite à 1100° C. De 3 mm, les plaques sont refroidies et collées par paires à l'aide d'une résine adhésive en polyuréthane et fibre de verre.

Les caractéristiques de céramique sont :

- Surface hygiénique, imperméable
- Couleurs inaltérables
- Entretien facile
- Résistance au feu et aux températures élevées
- Résistance aux produits chimiques
- Résistance à la flexion
- Résistance à l'usure
- Respect de l'environnement
- Pour une utilisation en extérieur et intérieur

KERAMIK

Die Manutti Keramik-Tischplatten bestehen aus Sand, Ton und Naturstein, die bis einer Masse transformiert werden und bei 1100° C gebacken werden. Die gekühlten Platten von 3mm dick werden nachher pro Paar zusammen geklebt mit einem Harz-Klebstoff aus Polyurethan. Zwischen beiden Platten fügen wir ein Glasfaser-Gewebe hinzu.

Die Eigenschaften von Keramik sind:

- Hygienische Oberflächen, undurchlässig
- Farbecht
- Einfache Wartung
- Feuer- und hitzebeständig
- Chemikalienbeständig
- Sehr stark und kratzfest
- Verschleissfest
- Umweltfreundlich
- Für die Verwendung im Außen- und Innenbereich

CERAMICO

Los tableros cerámicos de Manutti consisten de arena, arcilla y piedra natural que han sido cocidos a 1100°C, así formando una capa homogénea. Las capas enfriadas de 3mm luego son pegadas con una cola de poliuretano y fibra de vidrio. Las características de cerámico son las siguientes:

- Superficie higiénica
- Mantenimiento fácil
- Duradero
- No alteraciones de color
- Resistencia a la flexión al fuego y a las temperaturas elevadas
- Impermeabilidad
- Resistencia al desgas al rayado y a la abrasión
- Resistencia a productos químicos
- Respeto al medio ambiente
- Superficie higiénica Alteraciones de color
- Utilizable al aire libre y en interiores

CERAMICA

I piani del tavolo in ceramica di Manutti sono composti di sabbia, argilla e pietra naturale che è trasformato in un strata che viene cotto a 1100°C.

Le piastre di raffreddamento di 3 millimetri di spessore sono poi incollato da due insieme con una colla di resina di poliuretano e fibra di vetro. Proprietà delle ceramiche sono:

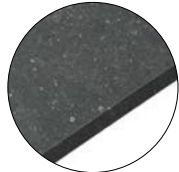

- Superficie igienica, impenetrabile
- Colore resistente
- Di facile manutenzione
- Fuoco e resistente al calore
- Resistente agli agenti chimici
- Molto forte e resistente ai graffi
- Resistente all'usura
- Ecologico
- Per un utilizzo in ambienti esterni ed interni

BELGIAN BLUESTONE

Belgian bluestone or "Little Granite" is a limestone with a more or less pronounced natural blue/grey colour, which is characterized by the presence of a large number of fossilised crinoids. This type of bluestone is only quarried in Belgium.

- It develops a natural patina
Use: outdoors, changes due to the action of rain and UV-rays to its original pale blue-grey colour
Use: indoors in the course of time, it develops a deeper colour
- Bluestone is susceptible to products and scratches
- Belgian bluestone can often contain a number of white veins (1), black lines, spots and fossils (2)
- Depending on the finishing, the stone has a different look

(1) "White veins" are water veins, formed by water, 100% specific to bluestone and are not cracks as people often assume.

(2) Fossils and colour differences: stone is a natural material formed by different perfectly petrified fossils. So it is normal to find nests of crustaceans in the stone.

In other words, even in one sheet of stone clear differences in colour can be observed.

BLUESTONE text is based on a publication by the WTCB (Wetenschappelijk en Technisch Centrum voor het Bouwbedrijf - Building Industry Scientific and Technical Centre)

BELGISCHE BLAUWSTEEN

Belgisch Blauwsteen of "Petit granit" (ook arduin genoemd) is een kalksteen met een min of meer uitgesproken natuurlijke blauwgrijze kleur, die wordt gekenmerkt door de aanwezigheid van erg veel crinoideresten (zeeliekersten).

Deze soort blauwsteen wordt uitsluitend ontgonnen in België.

- Deze steen ondergaat een natuurlijke patine
Gebruik: buitenshuis, evolueert door inwerking van regen en UV-stralen naar zijn oorspronkelijke bleekblauwe-grijze kleur
Gebruik: binnenshuis, bekomt na verloop van tijd een diepere kleur
- Arduin is product- en krasgevoelig
- Belgische blauwsteen kan steeds een aantal witte aders (1), zwarte lijnen, zwarte lijnen vlekken en fossielen (2) bevatten
- Afhankelijk van de afwerking, heeft de steen een andere 'look'

(1) "Witte aders" zijn wateraders, gevormd door insijpeling van water, 100% eigen aan blauwsteen en zijn geen barsten zoals soms wordt verondersteld.

(2) Fossielen en kleurverschillen: steen is een natuurlijk materiaal, gevormd door verschillende perfect versteende fossielen. Het is dus normaal dat men in de steen nesten van schelpachtigen aantreft. Maw zelfs in 1 plaat kan men duidelijke kleurverschillen aantreffen.

Text BLAUWSTEEN gebaseerd op een uitgave van het WTCB (Wetenschappelijk en Technisch Centrum voor het Bouwbedrijf)

LA PIERRE BLEUE BELGE

La pierre bleue belge ou "petit granit" est une pierre calcaire dotée d'un coloris naturel bleu gris plus ou moins prononcé. Elle est caractérisée par la présence de très nombreux fossiles crinoïdes (lis de mer). Ce type de pierre bleue est exclusivement extrait en Belgique.

- Subit une patine naturelle
Utilisation : à l'extérieur, en raison d'influence de la pluie et des rayons UV, évolue vers sa teinte gris bleu clair originelle
Utilisation : à l'intérieur, au fil du temps, revêt une couleur plus profonde
- La pierre bleue est sensible aux griffes et aux produits
- La pierre bleue belge peut toujours comporter un certain nombre de veines blanches (1), lignes noires, taches noires et fossiles (2)
- L'aspect de la pierre est déterminé par la finition

(1) Les "veines blanches" sont des veines aqueuses provoquées par l'infiltration d'eau. Elles sont 100% propres à la pierre bleue. Contrairement à la croyance populaire, il ne s'agit pas de fissures.

(2) Fossiles et différences de couleurs : la pierre est un matériau naturel constitué par différents fossiles parfaitement pétrifiés. Il est donc tout à fait normal que les pierres présentent des nids de fossiles de la famille des coquillages. En d'autres mots, on peut rencontrer des différences de couleurs marquées, même sur 1 seule plaque.

Texte PIERRE BLEUE basé sur une édition du CSTC (Centre Scientifique et Technique de la Construction)

BELGISCHER BLAUSTEIN

Belgischer Blaustein oder "Petit Granit" ist ein Kalkstein mit einer ausgesprochen natürlichen blaugrauen Farbe, die durch die Ansammlung von sehr vielen Crinoideresten (Seelilienresten) gekennzeichnet ist. Diese Art von Quaderstein wird ausschließlich in Belgien gewonnen.

- Belgischer Blaustein bekommt eine natürliche Patina
Verwendung outdoor: Durch Einwirkung von Regen und UV-Strahlen entwickelt er im Laufe der Zeit wieder seine ursprüngliche hellblau-graue Farbe.
Verwendung indoor: Er wird im Laufe der Zeit dunkler.
- Belgischer Blaustein ist kratzempfindlich und es können immer einige weiße Adern (1), schwarze Linien, schwarze Flecken und Fossilien (2) sichtbar sein.

(1) "Weiße Adern" sind Wasseradern, die durch Einsickern von Wasser gebildet werden; sie sind charakteristisch für Belgischen Blaustein und sind keine Risse, wie allgemein angenommen wird.
(2) Fossilien und Farbunterschiede: Stein ist ein natürliches Material und wird aus verschiedenen, perfekt versteinerten Fossilien gebildet. Es ist daher normal, dass im Stein Nesten von Muschelarten zu sehen sind. In einer Platte können daher Farbunterschiede auftreten.

Der Text BELGISCH GRANIT basiert auf einer Veröffentlichung des WTCB (Wissenschaftlich-Technisches Zentrum für das Baugewerbe)

GRANITO BELGA

El granito belga o "pequeño granito" es una piedra caliza con un tono gris azulado natural más o menos marcado que se caracteriza por la presencia de restos crinoideos (lirios marinos). Este tipo de granito se explota exclusivamente en Bélgica.

- Se somete a una patina natural
Utilización: en el exterior, por el efecto de la lluvia y los rayos UV va evolucionando hasta recuperar su color gris azulado pálido original
Utilización: en interiores adquiere un color más oscuro con el paso del tiempo
- El granito belga es sensible a los productos y arañazos
- El granito belga puede contener siempre una cierta cantidad de vetas blancas (1), líneas negras, manchas negras y fósiles (2)
- El "look" de la piedra es determinado por el acabado

(1) Las "vetas blancas" son vetas de agua, formadas por la filtración de agua, 100% naturales del granito belga y no son grietas, como se suele decir popularmente.

(2) Fósiles y diferencias en los colores: la piedra es un material natural formada con distintos fósiles perfectamente petrificados. Por tanto, es normal que se encuentren marcas de conchas en la piedra. En otras palabras, es posible observar diferencias en los tonos incluso en una misma placa.

Texto sobre el GRANITO BELGA basado en un informe del WTCB (Centro científico y técnico para la construcción, por sus siglas en neerlandés)

PIETRA BLU

La pietra blu belga o "granito piccolo" è una pietra calcarea di un colore naturale blue grigio con toni più o meno pronunciati. Al suo interno sono presenti fossili di crinoidi. Questo tipo di pietra blu è esclusivamente estratta in Belgio.

- Si sviluppa una patina naturale
Uso: all'esterno può cambiare tonalità se influenzata dalla pioggia e dai raggi UV
Uso: all'interno, col tempo, prende un colore più profondo
- La pietra blu è sensibile ai graffi e a sostanze chimico-naturali
- La pietra blu belga può sempre contenere un certo numero di venature bianche (1), linee/macchie nere e fossili (2)
- Il "look" della pietra è determinato dalla rifinitura.

(1) Sono delle venature idriche causate dall'infiltrazione dell'acqua. Sono 100% proprie alla pietra blu. Contrario alla convinzione popolare, non si tratta di fessure. (2) Fossili e differenze di colore: la pietra è un materiale naturale composto da diversi fossili perfettamente pietrificati, dunque è normale che le pietre presentino dei fossili della famiglia di conchiglie.

In altre parole, anche su una sola lamina possiamo osservare delle differenze di colore.

Fabrics

Colours, composition &
washing instructions

FABRICS BY COMPOSITION

100% acrylic

- 100% Acrylic fabric
- Developed specifically for outdoor use
- Fibres dyed in the mass, UV-resistant
- Swimming pool and sea water resistant and repellent
- Washable at 30°C (86°F)
- Light fastness: 7-8
- Resistance to pilling: 5
- Resistance to abrasion (Martindale): 12 000

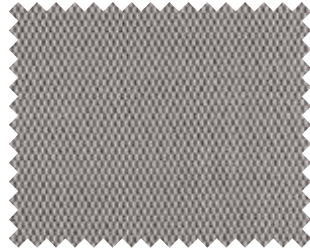

- Weefsel 100% Acryl
- Specifiek ontwikkeld voor buitengebruik
- In de massa gekleurd, uv-bestendig
- Waterafstotend en bestand tegen water van zwembaden en zee water
- Wasbaar op 30°C (86°F)
- Lichtechtheid: 7-8
- Weerstand tegen pilling: 5
- Wrijftechtheid (Martindale): 12 000

- Tissu 100% Acrylique
- Développé spécifiquement pour un usage en extérieur
- Teinte dans la masse, résistant aux UV
- Résistant et hydrophobe à l'eau de piscine et de mer
- Lavable à 30°C (86°F)
- Solidité à la lumière: 7-8
- Résistance boulochage: 5
- Solidité au frottement (Martindale): 12 000

- Stoff 100% Acryl
- Speziell für die Verwendung im Außenbereich entwickelt
- Spinnfärbung, UV -beständig
- Wasserabstoßend und Chlor- und Salzwasserbeständig
- Waschbar bei 30°C (86°F)
- Lichtechtheit: 7-8
- Pillingeffekt: 5
- Scheuerfestigkeit (Martindale): 12 000

- Tejido 100% Acrílico
- Desarrollado específicamente para su uso en exteriores
- Teñido en masa, resistente a los rayos UV
- Resistente e hidrófugo al agua de piscina y de mar
- Lavable a 30°C (86°F)
- Resistencia a la luz: 7-8
- Resistencia a pilling: 5
- Resistencia a la fricción (Martindale): 12 000

- Tessuto Acrilico al 100%
- Sviluppato appositamente per l'impiego in ambienti esterni
- Colorato nell'impasto, resistente agli UV
- Resistente all'acqua di piscina e di mare, e idrorepellente
- Lavabile a 30°C (86°F)
- Resistenza alla luce: 7-8
- Resistenza al pilling: 5
- Resistenza d'attrito (Martindale): 12 000

Polyester/PVC composite

- Polyester 85% / PVC 15% composition
- Developed specifically for outdoor and indoor use
- Dyed in the mass
- Swimming pool and sea water resistant and repellent
- Easy to clean and maintain, for specific maintenance, woven & textile cleaner (see p. 346)
- Light fastness: extreme light stability: > 3 UVA 340/2000 h
- Resistance to abrasion : very high use

- Stoff 85% Polyester / 15% PVC
- Speziell für die Verwendung im Außen- und Innenbereich entwickelt
- Durchgefärbt
- Wasserabstoßend und Chlor- und Salzwasserbeständig
- Einfache Reinigung und Pflege; für einen speziellen Pflege-, Textil- und Textilverreiniger (p.346)
- Lichtechtheit : extreme Stabilität < 3 UVA 340/2000 h
- Scheuerfestigkeit : extreme Nutzung möglich

- Weefsel 85% Polyester / 15% PVC
- Specifiek ontwikkeld voor buiten- en binnengebruik
- Gekleurd in de massa
- Waterafstotend en bestand tegen water van zwembaden en zeewater
- Gemakkelijke reiniging en onderhoud, voor een specifiek onderhoud, wovon & textile cleaner (zie p. 346)
- Lichtechtheid: extreme stabiliteit : < 3 UVA 340/2000 h
- Wrijftechtheid: zeer intens gebruik mogelijk

- Tejido 85% Poliéster / 15% PVC
- Desarrollado específicamente para su uso en exteriores e interiores
- Teñido en masa
- Resistente e hidrófugo al agua de piscina y de mar
- Fácil limpieza y mantenimiento, para un mantenimiento específico, limpiador textil (consulte p. 346)
- Comportamiento a la luz: < 3 UVA 340/2000 h
- Resistencia a la fricción : uso muy intenso

- Tissu 85% Polyester / 15% PVC
- Développé spécifiquement pour un usage en extérieur et intérieur
- Teinte dans la masse
- Résistant et hydrophobe à l'eau de piscine et de mer
- Nettoyage et entretien facile, pour un entretien spécifique, usare il woven & textile cleaner (voir p.346)
- Solidité à la lumière : extrême stabilité < 3 UVA 340/2000 h
- Solidité au frottement: utilisation extrême possible

- Tessuto 85% Poliestere / 15% PVC
- Sviluppato appositamente per l'impiego in ambienti esterni ed interni
- Colorato nell'impasto
- Resistente all'acqua di piscina e di mare, e idrorepellente
- Facile pulizia e manutenzione, per una manutenzione specifica usare il woven & textile cleaner (vedi p. 346)
- Resistenza alla luce: < 3 UVA 340/2000 h
- Resistenza d'attrito : uso molto intenso

100% Polyolefin

- 100% Polyolefin fabric
- Developed specifically for outdoor use
- Fibres dyed in the mass, UV-resistant
- Swimming pool and sea water resistant and repellent
- Washable at 30°C (86°F)
- Light fastness: 7
- Resistance to pilling: 5
- Resistance to abrasion (Martindale): 15 000
- 100% recyclable

- Weefsel 100% Polyolefin
- Specifiek ontwikkeld voor buitengebruik
- In de massa gekleurd, uv-bestendig
- Waterafstotend en bestand tegen water van zwembaden en zeewater
- Wasbaar op 30°C (86°F)
- Lichtechtheid: 7
- Weerstand tegen pilling: 5
- Wrijftechtheid : Martindale: 15 000
- 100% recycleerbaar

- Tissu 100% Polyolefine
- Développé spécifiquement pour un usage en extérieur
- Teinte dans la masse, résistant aux UV
- Résistant et hydrophobe à l'eau de piscine et de mer
- Lavable à 30°C (86°F)
- Solidité à la lumière: 7
- Resistance boulochage: 5
- Solidité au frottement (Martindale): 15 000
- 100% recyclable

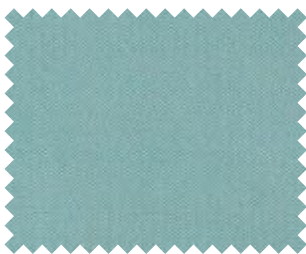

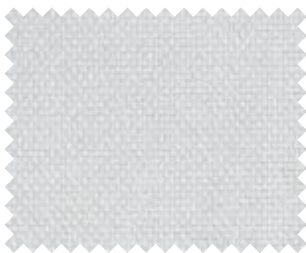

- Stoff 100 % Polyolefin
- Speziell für die Verwendung im Außenbereich entwickelt
- Spinnfärbefärbt, UV -beständig
- Wasserabstoßend und Chlor- und Salzwasserbeständig
- Waschbar bei 30°C (86°F)
- Lichtechtheit: 7
- Pillingeffekt: 5
- Scheuerfestigkeit (Martindale): 15 000
- 100% recyclingfähig

- Tejido 100% Polyolefin
- Desarrollado específicamente para su uso en exteriores
- Teñido en masa, resistente a los rayos UV
- Resistente e hidrófugo al agua de piscina y de mar
- Lavable a 30°C (86°F)
- Resistencia a la luz: 7
- Resistencia a pilling: 5
- Resistencia a la fricción (Martindale): 15 000
- 100% reciclable

- Tessuto Polyolefin al 100%
- Sviluppato appositamente per l'impiego in ambienti esterni
- Colorato nell'impasto, resistente agli UV
- Resistente all'acqua di piscina e di mare, e idrorepellente
- Lavabile a 30°C (86°F)
- Resistenza alla luce: 7
- Resistenza al pilling: 5
- Resistenza d'attrito (Martindale): 15 000
- 100% riciclabile

Protection & maintenance

Carefree enjoyment
for years to come

Each Manutti product has been developed with an eye for the smallest details. The greatest attention is paid to the selection of the best raw materials and finishings, since outdoor furniture must withstand very diverse weather conditions. To maintain and protect your Manutti furniture, we have especially developed a series of maintenance products that will make your life easier and the life of your furniture longer. Allowing you carefree enjoyment of your exclusive Manutti outdoor furniture for years to come.

Protective covers

Manutti does not recommend using protective covers for wood tops (aged teak, teak and iroko) to prevent mold growth.

We offer an appropriate cover solution for almost every collection.

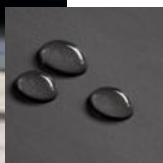

Whether you are looking for an easy way to protect your Manutti furniture from bad weather conditions or for an elegant solution to store your Manutti pieces in the off-season: our protective covers will do the trick.

Our soft covers present you with the best stain and water-repellent outdoor protection. With handy stay-on straps, our close fit covers ensure easy placement and maintenance. In addition, their antifungal properties will prevent the build up of mold and other fungi.

POLYURETHANE COATED SOFT COVERS

- Welded, not stitched seams (no water infiltration possible)
- Mold and fungal resistant
- Breathable fabric
- Die Nähte der Schutzhüllen sind nicht genäht, sondern verschweisst (Eindringen von Wasser also unmöglich)
- Bakterien und Schimmel resistent
- Atmungsaktiver Stoff
- Gelaste ipv gestikte naden (dus geen waterdoorsijpeling mogelijk)
- Bactérie- en schimmelwerend
- Ademende stof
- Costuras soldadas, no cosidas (no hay infiltración de agua posible)
- Resistente al moho y hongos
- Tejido transpirable
- Soudure au lieu de couture (infiltration d'eau impossible)
- Anti Bactérie et moisissure
- Tissu imper-respirant
- Le cuciture sono saldati e non cucite, in tal modo infiltrazione d'acqua può essere evitato.
- Sottoposto a trattamento protettivo contro muffe e funghi.
- Tessuto traspirante

Furniture cover

A protective cover is made to fit each separate piece of furniture: it follows the lines of the design so that, even when covered, you still can see the beautiful shape of your Manutti furniture. The protective covers for stackable chairs and 1-seaters fit over 4 stacked pieces.

€ 0,5L

CORRECTION PEN FOR POWDER COATED SURFACES

- Quick drying liquid paint (liquid, solvent free) for polyester powder coated surfaces.
- Ideal for retouching and repairing surface marks (impact, scratches, abrasion) on the powdercoating.
- Vloeibare sneldrogende verf (watergedragen, vrij van solventen) voor polyesterverlakte oppervlakken.
- Is ideaal voor retouches en herstellingen van oppervlaktebeschadigingen (schokken, krassen, wrijving).
- Peinture liquide hydro (sans solvants) pour surfaces laquées en poudre.
- Idéale pour des retouches et réparations des blessures superficielles (chocs, griffes, frottements).
- Flüssigfarbe (frei von Lösungsmitteln) schnelltrocknend für lackierte Flächen mit Polyesterpulverlacken.
- Ideal für Ausbesserungen und Reparaturen oberflächlicher Schäden (Stöße, Kratzer, Abrieb).
- Pintura líquida (sin solventes) de secado rápido para superficies lacadas en polvo.
- Ideal para retoques y reparaciones de daños superficiales (golpes, rasas, rozaduras).
- Vernice líquida ad asciugatura rapida (acquosa, priva di solventi) per superfici laccate a polvere.
- È ideale per ritocchi e riparazioni di lesioni superficiali (urti, graffi, attriti)

STAINLESS STEEL FURNITURE

ROESTVRIJ STALEN MEUBELN - MEUBLES EN ACIER INOXYDABLE - MÖBELN AUS ALUMINIUM UND EDELSTAHL

MUEBLES DE ACERO INOXIDABLE - MOBILI IN ACCIAIO INOSSIDABILE

STAINLESS STEEL CLEANER & RESTORER

- Cleans stainless steel and restores its original beauty. Makes the surface resistant to dirt and moisture.
- Reinigt roestvrij staal en geeft het zijn oorspronkelijke schoonheid terug.
- Maakt het oppervlak vuil- en vochtafstotend.
- Nettoie l'inox et lui rend sa beauté originelle. Protège la surface contre les saletés et l'humidité.
- Reinigt Edelstahl und gibt ihm seine ursprüngliche Schönheit zurück.
- Macht die Oberfläche schmutz- und feuchtigkeitsabstoßend.
- Limpia el acero inoxidable, devolviéndole su belleza original.
- Repele la suciedad y la humedad de las superficies
- Pulisce l'acciaio inossidabile e gli restituisce la sua bellezza originaria.
- Rende la superficie idrorepellente e resistente allo sporco.

ref. 10004
€ 0,5L

STAINLESS STEEL WAX PROTECTOR

- Removes superficial oxidation deposits on stainless steel, and prevents oxidation spots on your furniture.
- Verwijdert oppervlakkige oxidatieaanslag op roestvrij staal en voorkomt dat uw meubelen oxidatievlekjes vertonen.
- Enlève le voile d'oxydation sur vos meubles en inox et renforce leurs propriétés anticorrosion.
- Entfernt oberflächliche Oxidation auf Edelstahl und vermeidet, dass die Oberfläche Oxidationsflecken aufweist.
- Elimina la película de oxidación superficial del acero inoxidable, y evita que sus muebles presenten pequeñas manchas de oxidación.
- Elimina l'ossidazione superficiale sull'acciaio inossidabile ed evita che i vostri mobili mostrino macchioline di ossidazione.

ref. 10005
€ 0,5L

MAINTENANCE PRODUCTS

TEAK FURNITURE

TEAK MEUBELN - MEUBLES EN TECK - TEAKMÖBELN - MUEBLES DE TECA - MOBILI IN TEAK

ref. 10001
€ 1L

TEAK CLEANER

- Cleans greyed teak furniture and restores its clean and sturdy appearance.
- Reinigt grijs geworden teakhouten meubelen en geeft ze opnieuw een fris en stevig uiterlijk.
- Nettoie les meubles en teck devenus grisâtres, ravive leur éclat et leur apparence robuste.
- Reinigt grau gewordene Teakholzmöbeln und verleiht ihnen aufs Neue ein stabiles Aussehen.
- Limpia los muebles de madera de teca descoloridos, devolviéndoles su aspecto fresco y sano.
- Pulisce i mobili in legno di teak ingrigiti e conferisce loro nuovamente un aspetto fresco e robusto.

ref. 10003
€ 1L

TEAK COLOUR REFRESHER

- Maintains the natural, golden brown colour of teak longer and restores greyed teak to its natural colour.
- Houdt de natuurlijke, goudbruine kleur van teakhout langer in stand en geeft vergrijste teak opnieuw zijn natuurlijke kleur.
- Aide le teck à garder plus longtemps sa couleur dorée naturelle et ravive l'éclat du teck terni.
- Bewahrt die natürliche, goldbraune Farbe von Teakholz und verleiht grau gewordenem Teakholz abermals seine natürliche Farbe.
- Conserva durante más tiempo el color marrón dorado natural de la madera de teca, y devuelve a la madera de teca descolorida su color natural.
- Mantiene più a lungo il naturale colore bruno dorato del legno di teak e ridona al legno di teak ingrigito il suo colore naturale.

ref. 10002
€ 1L

TEAK STAIN PROTECTOR

- Saturates teak to make it impenetrable for liquids and dirt.
- Verzadigt teakhout zodat het ondoordringbaar wordt voor vloeistoffen en vuil.
- Imprègne le teck afin de le rendre imperméable aux liquides et saletés.
- Zieht tief in Teakholz ein, so dass es gegen Flüssigkeiten und Schmutz beständig ist.
- Satura la madera de teca, haciéndola impermeable a los líquidos e impenetrable a la suciedad.
- Nutre il legno di teak rendendolo impermeabile a liquidi e sporco.

WICKER & BATYLINE® FURNITURE

WICKER EN BATYLINE MEUBELN - MEUBLES EN RESINE ET BATYLINE - RESIN-UND BATYLINE-MÖBELN - MUEBLES DE RESINA Y BATYLINE - MOBILI IN RESINA E BATYLINE

ref. 10000
€ 0,5L

WOVEN & TEXTILES CLEANER

- Cleans braided PVC and batyline used in the woven seats and supports of Manutti garden furniture. Not suitable for textile.
- Reinigt gevlochten kunststof en batyline dat gebruikt wordt in vlechtwerkzittingen en -leuningen van Manutti tuinmeubelen. Niet geschikt voor textiel.
- Nettoie les garnitures tressées en matière plastique et la batyline utilisée pour les assises et dossiers tressés des meubles de jardin Manutti. Ne convient pas pour le textile.
- Reinigt geflochtenen Kunststoff und Batyline, das in geflochtenen Sitzflächen und Lehnen von Manutti Outdoormöbeln verwendet wurde. Nicht geeignet für Textilien.
- Limpia el material sintético y el batyline utilizados para los asientos y respaldos trenzados de los muebles de jardín Manutti. No apto para textiles.
- Pulisce i materiali sintetici ed il batyline intrecciati utilizzati nei sedili e negli schienali intrecciati dei mobili da giardino Manutti. Non è adatto per i tessuti.

NATURAL STONE

NATUURSTEEN - PIERRES NATURELLES - NATURSTEIN - PIEDRA NATURAL - PIETRA NATURALE

STONE CLEANER

- Removes spots on natural stone, from wine to marker pens, and from oil to mould.
- Verwijdert vlekken op natuursteen, van wijn tot alcoholstift en van olie tot schimmel.
- Enlève les taches de la pierre naturelle, du vin aux moississures en passant par l'huile et les feutres à l'alcool.
- Entfernt Flecken auf Naturstein – von Wein bis Permanent-Marker und von Öl bis Schimmel.
- Elimina las manchas de la piedra natural, desde manchas de vino y rotuladores indelebles hasta manchas de aceite y moho.
- Elimina le macchie sulla pietra naturale, dal vino al pennarello all'alcol, e dall'olio alla muffa.

ref. 10007
€ 0,5L

STONE STAIN PROTECTOR

- Penetrates natural stone to protect the surface against grease, moisture and dirt. Does not glaze, and allows the stone to continue to breathe. Limited or no discolouration.
- Dringt in natuursteen om het oppervlak te beschermen tegen vet, vocht en vuil. Glans niet en laat de steen verder ademen. Verkleurt niet of nauwelijks.
- Pénètre la pierre naturelle afin de protéger sa surface contre la graisse, l'humidité et les saletés. Ne brille pas et laisse la pierre respirer. Ne décolore pas ou très peu.
- Zieht in Naturstein ein und schützt die Oberfläche gegen Fett, Feuchtigkeit und Schmutz. Glänzt nicht und lässt den Stein weiter atmen. Verfärbt sich nicht oder kaum.
- Penetra en la piedra natural para proteger su superficie contra la grasa, la humedad y la suciedad. No brilla y permite que la piedra siga respirando. No altera (apenas) el color de la piedra.
- Penetra nella pietra naturale per proteggere la superficie da grasso, umidità e sporco. Non è lucido, e fa tornare a respirare la pietra. Non stinge, o stinge appena.

ref. 10008
€ 0,5L

STONE COLOUR REFRESHER

- Restores and deepens the colour of weather-beaten, dark natural stone such as bluestone, granite and satingo nero.
- Herstelt en verdiept de kleur van verweerde, donkere natuursteen zoals arduin, graniet en nero satingo.
- Approfondit et ravive la couleur de la pierre naturelle sombre et usée, comme la pierre de taille, le granit et la satingo nero.
- Die Farbe von verwittertem, dunklem Naturstein wie Schiefer, Granit oder Satingo Nero erstrahlt wieder in ursprünglicher Schönheit und wird vertieft.
- Restaura e intensifica el color alterado y oscurecido por los agentes atmosféricos de la piedra natural como el granito, el granito belga, el mármol y el Satingo Nero.
- Recupera ed intensifica il colore della pietra naturale scura corrosa, come pietra da taglio, granito e nero satingo.

ref. 10009
€ 0,5L

GREASE & OIL REMOVER FOR STONE

- Removes soaked in spots from natural stone and absorbs impurities from the stone. Subsequent treatment with Manutti Stone Stain Protector is recommended.
- Verwijdert geabsorbeerde vlekken uit natuursteen en slorpt onzuiverheden uit de steen op. Een nabehandeling met Manutti Stone Stain Protector is aangeraden.
- Enlève les taches profondes de la pierre naturelle et absorbe les impuretés. Un post-traitement au Manutti Stone Stain Protector est recommandé.
- Entfernt absorbierte Flecken aus Naturstein und nimmt Verschmutzungen aus dem Stein auf. Eine Nachbehandlung mit Manutti Stone Stain Protector wird empfohlen.
- Restaura e intensifica el color alterado y oscurecido por los agentes atmosféricos de la piedra natural como el granito, el granito belga, el mármol y el Satingo Nero.
- Rimuove dalla pietra naturale le macchie assorbite e risucchia impurità dalla pietra. Si consiglia un successivo trattamento con Manutti Stone Stain Protector.

ref. 10010
€ 0,25L

GLASS AND TRESPA®

NATUURSTEEN - PIERRES NATURELLES - NATURSTEIN - PIEDRA NATURAL - PIETRA NATURALE

GLASS, TRESPA® AND SILESTONE® CLEANER & POLISHER

- Is ideal for removing all kinds of stains (like light scale and marks due to water residu). Together with the included cloth and thanks to the light sand structure of the cleaner the table top is easy to clean without leaving scratches.
- Is ideaal om allerlei vlekken (zoals lichte kalkaanslag of randafzetting door water) te verwijderen. Dankzij het bijgeleverde doekje en de lichte zandstructuur van de cleaner kan het tafelblad makkelijk gereinigd worden zonder krassen te veroorzaken.
- Est idéal pour enlever toutes sortes de tâches (même de calc). À l'aide du chiffon compris et grâce à la structure sableuse les tâches peuvent être enlevées sans rayer le plateau.
- Ist ideal, um jegliche Art von Flecken zu entfernen (wie z.B. Kalkflecken und Wasserränder). Zusammen mit dem beiliegenden Tuch und dank seiner leicht körnigen Konsistenz, ist die Tischplatte mit diesem Pflegemittel problemlos zu reinigen, ohne dass Kratzer zurückbleiben.
- Es ideal para limpiar todos tipos de manchas (por ejemplo costra de cal, pequeñas manchas de agua secada). Gracias al paño incluido y a la estructura arenosa se puede limpiar el tablero sin rayarlo.
- E ideale per togliere qualsiasi macchia (come il deposito calcare dell' acqua). Grazie alla spugnetta in dotazione e alle struttura leggermente sabbiosa del cleaner si pu`o facilmente pulire senza lasciare graffi.
