

NÆRVÆR TABLE

Nærvær (*pronounced nerv-a-air*) is the Danish word for 'presence' or 'company' and is about exactly that — the thing that we are all longing for; time for each other, being attentive and making eye contact.

In its essence, Nærvær is about being in the moment, being present. It's comprised of a powder coated, circular steel base and cylindrical stem supporting a round laminate table top. Observe the oak veneer around the table top edges, a discreet detail in a design that could easily fit into an intimate corner or a crowded space.
