

OUTDOOR RUGS

Fortunately, the time is long gone when we were happy for the layout of the patio and balcony with some simple folding chairs. More and more we consider the outdoor space as a full-fledged place that deserves as much attention as the living space inside. And that includes not only stylish tables and comfortable sofas; also with accessories – from footstools and side tables to mood lighting – we can decorate the patio and balcony into a cosy and inviting outdoor room. For those who like to go all the way in cosiness and comfort, TRIBÙ launches outdoor carpets in four different colours: The carpets are made of pvc coated polyester which makes them comfortable for barefoot and additionally perfectly resistant to sun and rain. With their natural colours, the carpets give the patio a warm and homely atmosphere and make the atmosphere complete.
