ROD

T-ROD-MW-0002-U

The Rod collection is a modern day interpretation of Venetian Murano brass and glass library lights from the 1940s. The glass rods are differing heights for an unusual elliptical shape that plays with the eye, lighting up for spectacular effect from internal bulbs inside the frame. The opulence of the glass is daringly contrasted with a raw iron finish, bearing the marks of the welder's torch for a modern, industrial take on elegance.
