

VINTAGE CHAIR

A fresh and playful design that refers to the funky seventies. Vintage was the first chair in injected plastic for outdoor use. With several leg variants and three different colours, this chair has plenty of possibilities. The seat in polypropylene is anti-static, dirt-repellent, frost and UV resistant thanks to the added UV-stabilizers. The lounge is a logical extension of the chairs. Its beautiful flowing curve is the result of an extensive ergonomic study and makes for exceptional lying comfort.

DIMENSIONS (cm's)

53 L x 55 D x 78 H

AVAILABLE FINISHES

Available in a variety of finishes.
