

# SENJA SOFA

STUDIO SEGERS

## DESCRIPTION

Curl up and relax on the versatile Senja modular sofa. Combine a one-, two- or three-seater module with high or low arm rests and keep everything you need to hand with an integrated table, console or side table topped with teak or glazed lava stone. The seating can be configured to suit the space, mixing single and multiple modules to create corner or linear seating arrangements. Senja's powdercoated aluminium frame comes in linen and wengé, with matching legs or teak legs. Senja is available with regular seat cushions or an ultra-deep variant to curl up on. The Nordic-style piped cushions benefit from water-repellent fillings and come in a choice of 112 water-resistant fabrics.

## MATERIALS

- Frame: powdercoated aluminium
- Legs: powdercoated aluminium or plantation teak
- Table tops: glazed lavastone or plantation teak

## CUSHIONS

The filling has a cover in a laminated, water-repellent polypropylene material which prevents water from penetrating. The thread used to stitch the seams swells when getting wet, preventing water from penetrating through the seams. Moreover, the seams are protected on the inside with an extra covering. If nevertheless water should penetrate, the material is breathable, letting moisture out to prevent moulding. Fabrics available in category D, E & F.

## PROTECTION COVERS

For each item a cover is available that protects the furniture against dirt. These covers in grey colour are made of PU coated polyester which is water-repellent and UV-resistant. Thanks to their excellent breathable qualities the covers reduce condensation and heat build-up, helping to prevent the formation of mold and mildew. Nevertheless, they are not 100% waterproof. Always make sure that furniture, cushions and covers are completely dry before covering furniture.

## MAINTENANCE

### Aluminium

Clean the aluminium frame with tap water and a PH neutral soap. For stubborn stains, use Aluminium Cleaner. We advise to use Teflon® Protector twice a year which applies an invisible film and protects the aluminium against the adhesion of dirt.

D9952  
Aluminium  
Cleaner

D9930  
Teflon® Protector  
(spray that lays an invisible dirt-repellent film)

### Glazed lavastone

Glazed lava stone is easy to maintain with clean water and a pH neutral liquid detergent. Possible stains can be removed with Glass & Ceramic Cleaner. To protect the surface we recommend Ceramic Protector which fills the micro pores so dirt particles won't attach to the surface and will be rain-washed.

D9938  
Ceramic  
Cleaner

D9955  
Ceramic  
Protector

### Teak

Treat new teak with Teak Protector 4 à 6 weeks after installation. Teak Protector applies an invisible film that prevents stains and green deposit. Soiled teak can be cleaned with Teak Super Cleaner. Leave the furniture to dry completely and then apply Teak Protector. To avoid labour-intensive cleaning, you can treat the wood with Teak Sealer. A simple cleaning with water and a ph-neutral soap will do for many years. Teak Sealer contains UV protection to slow down the graying from the sun as well as a fungicide to prevent the growth of mold and mildew.
