Security Swing Gate
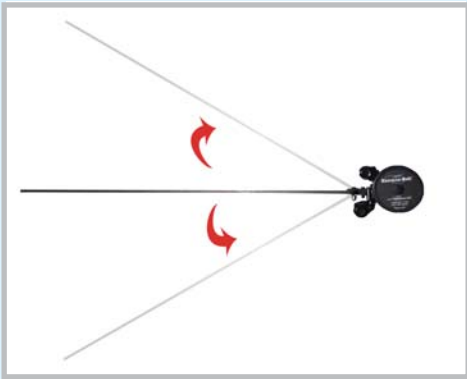

Control traffic flow at entranceways and exits

The Security Swing Gate is a durable yet lightweight panel that permanently mounts to any standard Retracta-Belt® post. It blocks off an opening to restrict access, while a digitally printed panel displays messages or branding to customers standing in line.

Self-Centering Double Action Hinges: allow the gate to swing in both directions

Additional Features

‣ 30"W x 12"H panel dimensions

‣ Custom printed gates allow custom branding, messages, full color logos, etc.

‣ Gate replacements are available for existing Swing Gate Systems

PLEASE WAIT HERE

Strong, 1/4" thick Durabond: available in black, white, or with custom printing

Includes Heavy Baseweight on accompanying posts (sold separately) to keep the posts stable and prevent shifting when the gate is activated

Model # SSG3012L-DP
