**QA** Testing

## Sample ID SD230404-025 (71317) Matrix Concentrate (Inhalable Cannabis Good)

Sumple ID SD250404=025 (71517)	)	Matrix Concentrate (Initiable Califable Good)	
Tested for Gold Spectrum CBD			
Sampled -	Received Apr 03, 2023	Reported Apr 05, 2023	
Analyses executed CANX			

Laboratory note: The estimated concentration of the unknown peak in the sample is 4.61% | Currently PharmLabs laboratory can not confirm an unidentified peak in your chromatogram due to interference (only with highly concentrated D8 products) from which we believe to be either (+)d8-THC or d9-THC. At this time there are no reference standards available for (+)d8-THC. (+)d8-THC is a different compound from the main (-)d8-THC cannabinoid and, therefore, these two compounds may have different efficacies. Using the most advanced instruments and techniques available, the separation of (+)d8-THC is problematic for the scientific community as a whole. PharmLabs believes the unidentified peak to be a combination of (+)d8-THC with the majority, if not all, of the concentration being (+)d8-THC. Total (+/-) D8 Concentration is estimated to be 47.09%.

## CANX - Cannabinoids Analysis

Analyzed Apr 05, 2023 | Instrument HPLC-VWD | Method The expanded Uncertainty of the Cannabinoid analysis is approximately **3**.806% at the 95% Confidence Level

Analyte	LOD mg/g	LOQ mg/g	Result %	Result mg/g
