Sit-Stand Ergonomic Workstation
Pneumatic operation

HILIFT Ergonomic Sit Stand Workstation

HILIFT is a well engineered height adjustable sit-stand workstation using 2 pneumatic gas cylinders to change the height with a separate keyboard that rests at your existing workstation height

The **HILIFT** converts your desktop into a sit-stand workstation and gives you the ergonomic benefits of either sitting or standing at your existing desk.

- **Infinite height positions** using 2 lever paddles on the side of the desktop to adjust the keyboard/desk height
- **Pre-assembled** apart from the keyboard platform
- Unit adjusts **straight up and down** minimising desk space
- **Support groove** at the front for tablets or smart phone
- **Improved functional design** that is ergonomic, user friendly and **aesthetically pleasing**.
- **Accommodates 1 or 2 monitors**
- **Colour - Black**

HILIFT has 2 work surfaces, one for the keyboard and mouse and the other a large and generous desk area to accommodate your monitor, or your laptop.

HILIFT has infinite height settings for any height you may desire and is adjustable automatically in seconds!!
