

7 SIMPLE STEPS TO PRECISION NUTRIENT THERAPY

A Personalized Approach for Optimizing Mental Health

Gain important insights into underlying biochemical imbalances impacting your mental health with Village Green's Brain Chemistry Panel. This specialty lab test, based on Dr. William Walsh's research, can identify imbalances in 95% of mental health conditions, such as depression, anxiety, ADHD, autism, schizophrenia, bipolar disorder, and more. With the guidance one of our expert nutrition professionals, you can receive a targeted nutrient formula designed to specifically address your imbalances and optimize your brain chemistry. Precision Nutrient Therapy is a personalized approach that can significantly improve mental health in both children and adults. Experience the transformative power of tailored nutrient therapy and enhance your mental well-being.

ORDER BRAIN BIOCHEMISTRY PRECISION NUTRIENT PROGRAM

Via Village Green's website.

1

VillageGreen[®]
Apothecary

2

RECEIVE LAB FORM & KIT

Await an email lab requisition and receive your test kit by mail.

3

COMPLETE LAB WORK

Follow instructions for a LabCorp blood draw and at-home urine test.

4

RECEIVE RESULTS

Your results will be emailed to you within 5-10 days.

5

SCHEDULE YOUR CONSULTATION

Book a consult with a nutrition expert to receive recommendations for a custom nutrient formula.

6

ORDER YOUR CUSTOM NUTRIENT FORMULA

Our compounding lab will reach out to you to process your order. Your personalized formula will contain nutrients in synergistic combinations with precise dosing, which enhances effectiveness.

7

FOLLOW UP & RETESTING

Engage in follow-up consultations with your nutritionist for ongoing support. Retesting after 3-6 months is recommended.
