# LEGENDS CONNECT OVERVIEW

**The AtGames Legends Connect is The Ultimate Single Board Arcade Solution™, providing everything you need to power your home arcade projects.**

**Simply install the Legends Connect main-board inside your project to enjoy 20 licensed, genre-defining arcade and console games, as well as gain access to all of the amazing Legends Arcade Platform features.**
The Legends Connect is ready to power your full-size, scale, cocktail, countertop, console, virtual pinball, or any other type of home arcade project you can imagine!

As The Ultimate Single Board Arcade Solution™, the Legends Connect is ready for everything from feature updates to game streaming to leaderboards to competitive play, and so much more. And since the Legends Connect is part of the Legends Arcade Family series of products running on the Legends Arcade Platform, the options don't stop there either.
**The Legends Connect is a platform that's always ready to grow!**

Through the Legends Arcade Platform's ArcadeNet® and BYOG™ (Bring Your Own Game) functionality, you can enable access to even more games and features. ArcadeNet® provides instant play of a growing selection of games, online play, and high-score leaderboards. BYOG™ lets you play your digital PC games with the Legends Arcade Family Platform's unique controls and display.

Through the AtGames Leagues & Leaderboards™ (ALL), the premier event and high score tracking destination for the Legends connected home arcade series of products, you can see active and upcoming solo- and team-based game events, as well as the top rankings - and where you place- for a growing selection of legendary games. You can also live stream your gameplay through the most popular services. An SDK for developers provides flexibility for third party features and services.

# LEGENDS CONNECT FEATURES*

**All Connections and Software Features are Fully Accessible from a Single Board**

**20 Licensed Arcade and Console Games Built-in**

- Great single- and multi-player experiences for gamers of all ages
- A genre-spanning selection
- Even more games available!

**Great Gaming**

- Pause, Rewind, Save, and Load functionality

## LEGENDS ARCADE FAMILY PLATFORM**

**ArcadeNet®**

- Provides the option of instant play with no long downloads of a growing selection of games for one low monthly fee
- Compete against others to top the leaderboards! With a free ArcadeNet® account, high scores in select games are automatically uploaded and ranked. Log in to check out the top 5 or top 50 in the world, or see your personal ranking
- Play against others in select games in competitive online play!

**BYOG™ - Bring Your Own Game™**

- Free local streaming from your own PC and network of your digital game libraries from popular services
- Optional streaming from optimized servers of your digital PC game libraries from popular services; you can also create your own personal server setup
- Plug in a USB drive to access your own games

**AtGames Leagues & Leaderboards™ (ALL)**

- Premier event and high score tracking destination for the Legends connected home arcade series of products

- See active and upcoming solo- and team- based game events, as well as the top rankings - and where you place - for a growing selection of legendary games

**High-performance Wi-Fi, Ethernet, and Bluetooth support built right in**

**Live streaming through the most popular services**

**SDK for developers**

*Some features are in beta or have limited game compatibility at this time. Firmware updates to add these and other features to the platform are released on a regular basis.
** Not all models support every Legends Arcade Platform feature
