BY FAMILY FABRICS

HI THERE!

To celebrate an amazing year of printing so many wonderful fabrics and designs, we decided to publish a little inspiration-filled magazine.

In here we will highlight our favourite fabrics, showcase our newest designs and give you a little peek behind the scenes.

We will hopefully inspire you to become part of our family and create your own items with our fabrics, who knows, maybe we will show it in our next issue!

Summer, here we come!

SUMMER MOOD

HAPPY DAYS

Who isn't in a good mood when the sun is shining so bright? But before we run outside, let's make some sunny items to go out in style (to get some ice cream)!

COLOR CRUSH

NEW WHEAT

Available in Jersey, 4X4 and 8X4 Rib this sunny & soft yellow is perfect for your summer basics.

FABRIC FAVOURITE

ECO LYCRA

This lycra spandex knit is super stretchy perfect for activewear and swimwear. It has a soft & smooth feel, shiny look and is made from 90% pre-consumer recycled materials and 10% elastane. And to top it off, it has an UPF of 50, perfect for those sunny days at the beach!

NEW NEW NEW PRINTS

SUMMER '22

Summer is here! That calls for some joyful designs and lots of happy florals. Perfect for t-shirts, flowy dresses, swimsuits and sunhats!

HOODED TOWEL

This hooded towel is not only for bathing your baby, you can bring it to the beach for your toddler or wrap your newborn in it for a little extra warmth during those first weeks.

This is an easy project and all you need is a little time, yarn, a sewing machine & 2 meters of cotton gauze in your favourite print!

LET'S
MAKE
IT!

Step 1

Step 4

Step 5

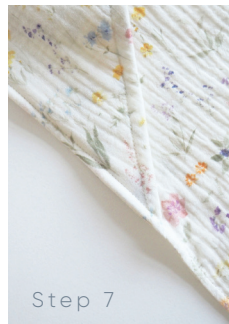

Step 2

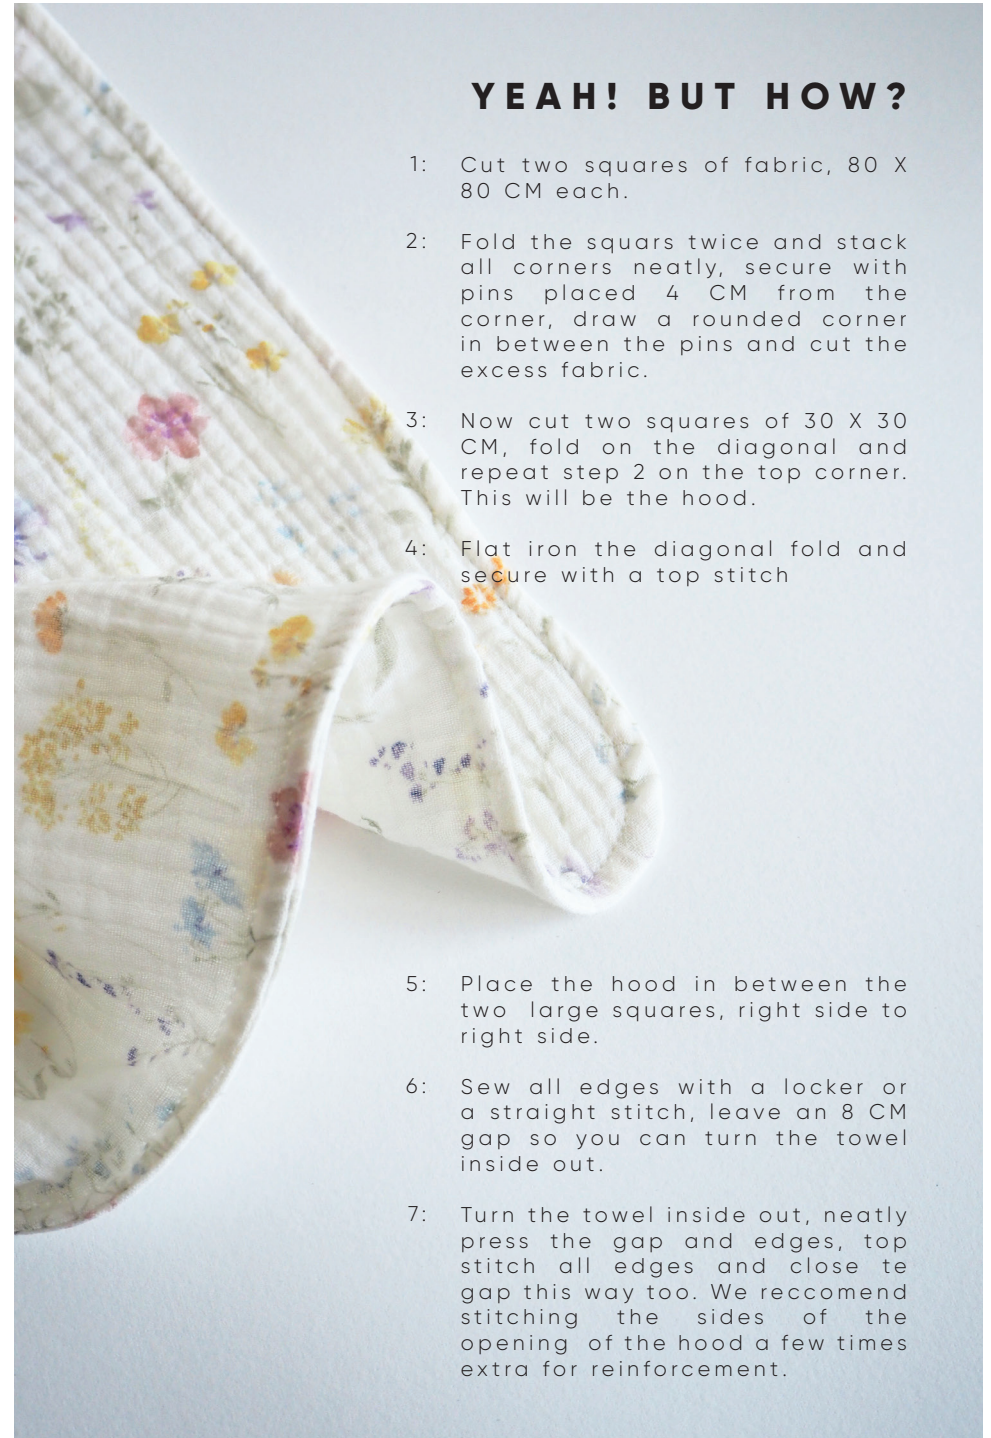

Step 3

Step 6

Step 7

YEAH! BUT HOW?

- 1: Cut two squares of fabric, 80 X 80 CM each.
- 2: Fold the squares twice and stack all corners neatly, secure with pins placed 4 CM from the corner, draw a rounded corner in between the pins and cut the excess fabric.
- 3: Now cut two squares of 30 X 30 CM, fold on the diagonal and repeat step 2 on the top corner. This will be the hood.
- 4: Flat iron the diagonal fold and secure with a top stitch
- 5: Place the hood in between the two large squares, right side to right side.
- 6: Sew all edges with a locker or a straight stitch, leave an 8 CM gap so you can turn the towel inside out.
- 7: Turn the towel inside out, neatly press the gap and edges, top stitch all edges and close te gap this way too. We reccomend stitching the sides of the opening of the hood a few times extra for reinforcement.

NEW
FABRIC

LINEN COTTON BLEND

This soft and absorbent fabric consists of 48% Cotton & 52% Linen, combining the best of both worlds. It drapes beautifully and keeps you cool on hot summer days. We can imagine long dresses, flowy pants, structured shirts but also interior textiles like tablecloths, napkins and curtains in this elegant fabric.
