HI THERE!

Summer, here we come!
We have been longing for ice cream,
swimming, sunny evenings and wearing
flip flops all winter long!

But before we jump outside to enjoy free
vitamin D, we need to add a few joyful
items to our summer wardrobe! Short
sleeves and flowy dresses, bright colors
and soft shades. We've got you covered!

Here's a selection of our summer
collection. O yes, there is more: online!

SUMMER '23

We couldn't be more excited for summer! We've wished for sunny days so we can show off our new designs on t-shirts, skirts, swimwear and our new(!) towels when we go for a swim. Our summer collection is bright, joyful and sweet like ice cream on a hot day!

Small & simple prints like these also look great on t-shirts for adults, handmade canvas bags or soft towels for the beach!

UNI FABRICS

We have recently added lots of new uni colors to our stock! Available in baby rib, 8X4 rib, french terry and sweat fleece. Did you know that when you have some leftover pieces of different colors, you can make awesome color-block items like these? So don't throw away those bits and pieces yet!

SWEAT FLEECE

This thick and soft sweat fleece is perfect for sweaters, hoodies, sweatpants or dungarees. The soft back side of the fabric feels great on the skin, making these your (kid's) favourite items to wear!

We have a couple of new friends in the warehouse! Meet our super soft blankets and towels. Select a print, the size of the item and the quantity, and all you have to do is wait & we'll do the rest! No more measuring, cutting and sewing, that part is already done for you!
