SETUP

STEP 1

Carefully connect the Strike Pack to your controller. Make sure the 3 tabs are lined up correctly and press down on the top of the Strike Pack until connected. The Strike Pack device should be flush with your controller.

STEP 2

Once attached, carefully connect the USB connector to the USB port at the top of the controller.

STEP 3

Connect the supplied USB cable to your Strike Pack.

STEP 4

Connect this cable to your Console's USB port.

Once connected the eyes on your Strike Pack will glow White to indicate that you are in Tournament mode.

PADDLE MAPPING

STEP 1

Hold Right selection button to map to the Right Paddle.

Hold Left selection button to map to the Left Paddle.

STEP 2

While still holding your chosen Left or Right selection button, briefly press the button you wish to map to that Paddle. Afterwards release the selection button. You have now mapped your chosen button to the Paddle.

Example:
If you hold the Left selection button, (while still held) you briefly press the (B) button on your controller, then stop holding the Left selection button, now (B) will be mapped to the Left Paddle.
