

AV-3000 HT FACEPIECE

APPROVED TO NFPA 1981[®], 2013 EDITION STANDARD

NEW ADVANCED FACEPIECE TECHNOLOGY

Approved to the challenging requirements set forth in NFPA 1981, 2013 Edition, the AV-3000 HT combines the industry-leading AV-3000 SureSeal platform with next generation proprietary lens and bezel materials. These innovative materials are engineered to provide enhanced thermal durability and improved wearer safety.

- **LOWER TOTAL COST OF OWNERSHIP**
All AV-series facepieces offer the Scott Safety exclusive Top-Down Convertibility. This means you can use a single facepiece with a single fit test for all of your NIOSH, CBRN and NFPA-approved respirators. (See back page for current list of approved respirators.)
- **HIGH PERFORMANCE LENS AND BEZEL**
High performance materials in the lens and bezel meet the rigorous requirements laid out in NFPA 1981, 2013 Edition. These new materials enhance wearer safety by ensuring the facepiece maintains positive pressure when exposed to high heat and flame loads.
- **2013 EDITION PERFORMANCE FOR CURRENT AIR-PAK USERS**
Approved with 2002 and 2007 Edition Air-Paks, the AV-3000 HT enables current Scott users to upgrade their facepiece with or without an SCBA purchase and gain the benefits of the more rigorous requirements set forth in the 2013 Edition.
- **IMPROVED VOICE INTELLIGIBILITY**
Redesigned voice communication components deliver outstanding voice intelligibility, exceeding the requirements of NFPA 1981, 2013. The dual voicemitters provide a sphere of intelligibility to those around the wearer, not just those directly in front.

Smaller, Kevlar head harness eliminates bunching and discomfort under helmets

Utilizes proven SureSeal technology for enhanced comfort, fit and performance

High performance lens and bezel for improved thermal performance

ANSI/ISEA Z871-2010 Std., impact rated; Z87+

High visibility inhalation valves allow for easy inspection

Positioning tab assists with proper and quick donning

Right or left communications bracket for maximum versatility

Dual voice emitters for enhanced voice transmission around the wearer

APPROVED WITH 2002 AND 2007 AIR-PAK SCBA

- Enables facepiece upgrade with current or new SCBA
- Current users benefit from improvements required by 2013 Edition Standard
- Approved with current and new communications systems

TOP⁺DOWN
CONVERTIBILITY
