

Clue #11

Thank you everyone for your sweet and kind words yesterday, and your patience! I really appreciate it.

This clue brings you some choose your own adventure fun again. Choose 2 of your favourite colours, a lighter and a darker colour.

Work the chart below: The entire chart is 32 rows total

Row 281-312

Row 313-320

Choose any colour, work 8 rows in stockinette, then bind off your stitches. Another snail is Done!!!!

(I will be reformatting the entire pattern to fix some margin weirdness and such, so this will be posted here until tomorrow, and then it will be included in the regular file afterwards)
