

## Clue #16

This is an easy one for a Friday night!

Pick 16 Colours out of your basket. Randomly choose which order (some people struggle with that, so it's totally fine if you preplan them, myself I am going random, because my brain is a lot like melting marshmallows, for good reasons, that I just want a simple Netflix watch)

Cast on 25 sts.

Work 20 rows in stockinette, break yarn,

Repeat this with whichever colour floats your boat at the moment, until you have 16 stripes. Bind off.

Happy Knitting MKAL friends.
