WELCOME

Alexander Rose are recognised throughout the UK and Europe for the quality and design of our sustainable outdoor furniture products.

Furniture is our passion and we are committed to providing outstanding design, quality and customer service.

An aerial photograph of a coastline, showing a sandy beach on the left and turquoise water on the right. The water has a textured, rippled appearance. The text is overlaid on the right side of the image.

METAL STORY

Alexander Rose presented themselves to the metal furniture market with the outstanding Portofino collection in 2012, made of wire mesh combined with tubular steel. Our objective was to design eye-catching pieces of furniture that would bring a refreshing look to a new market for Alexander Rose. Ten years later the collection is still going strong

In 2015, we launched the Beach; a design collaboration with UK based designer, Carsten Astheimer and our in-house Head of Design, Alan Morley. The modules are made from powder coated aluminium frames, supporting unique pillow style cushions with a toggle fixing. The modules can be connected together to create limitless design possibilities, allowing you to create your own layout to suit your space and style.

In 2019 we introduced the stunning Cordial Lounge, made from aluminium frames and marine-grade rope to create a visually breath taking set of furniture that is equally at home, outdoors and indoors.

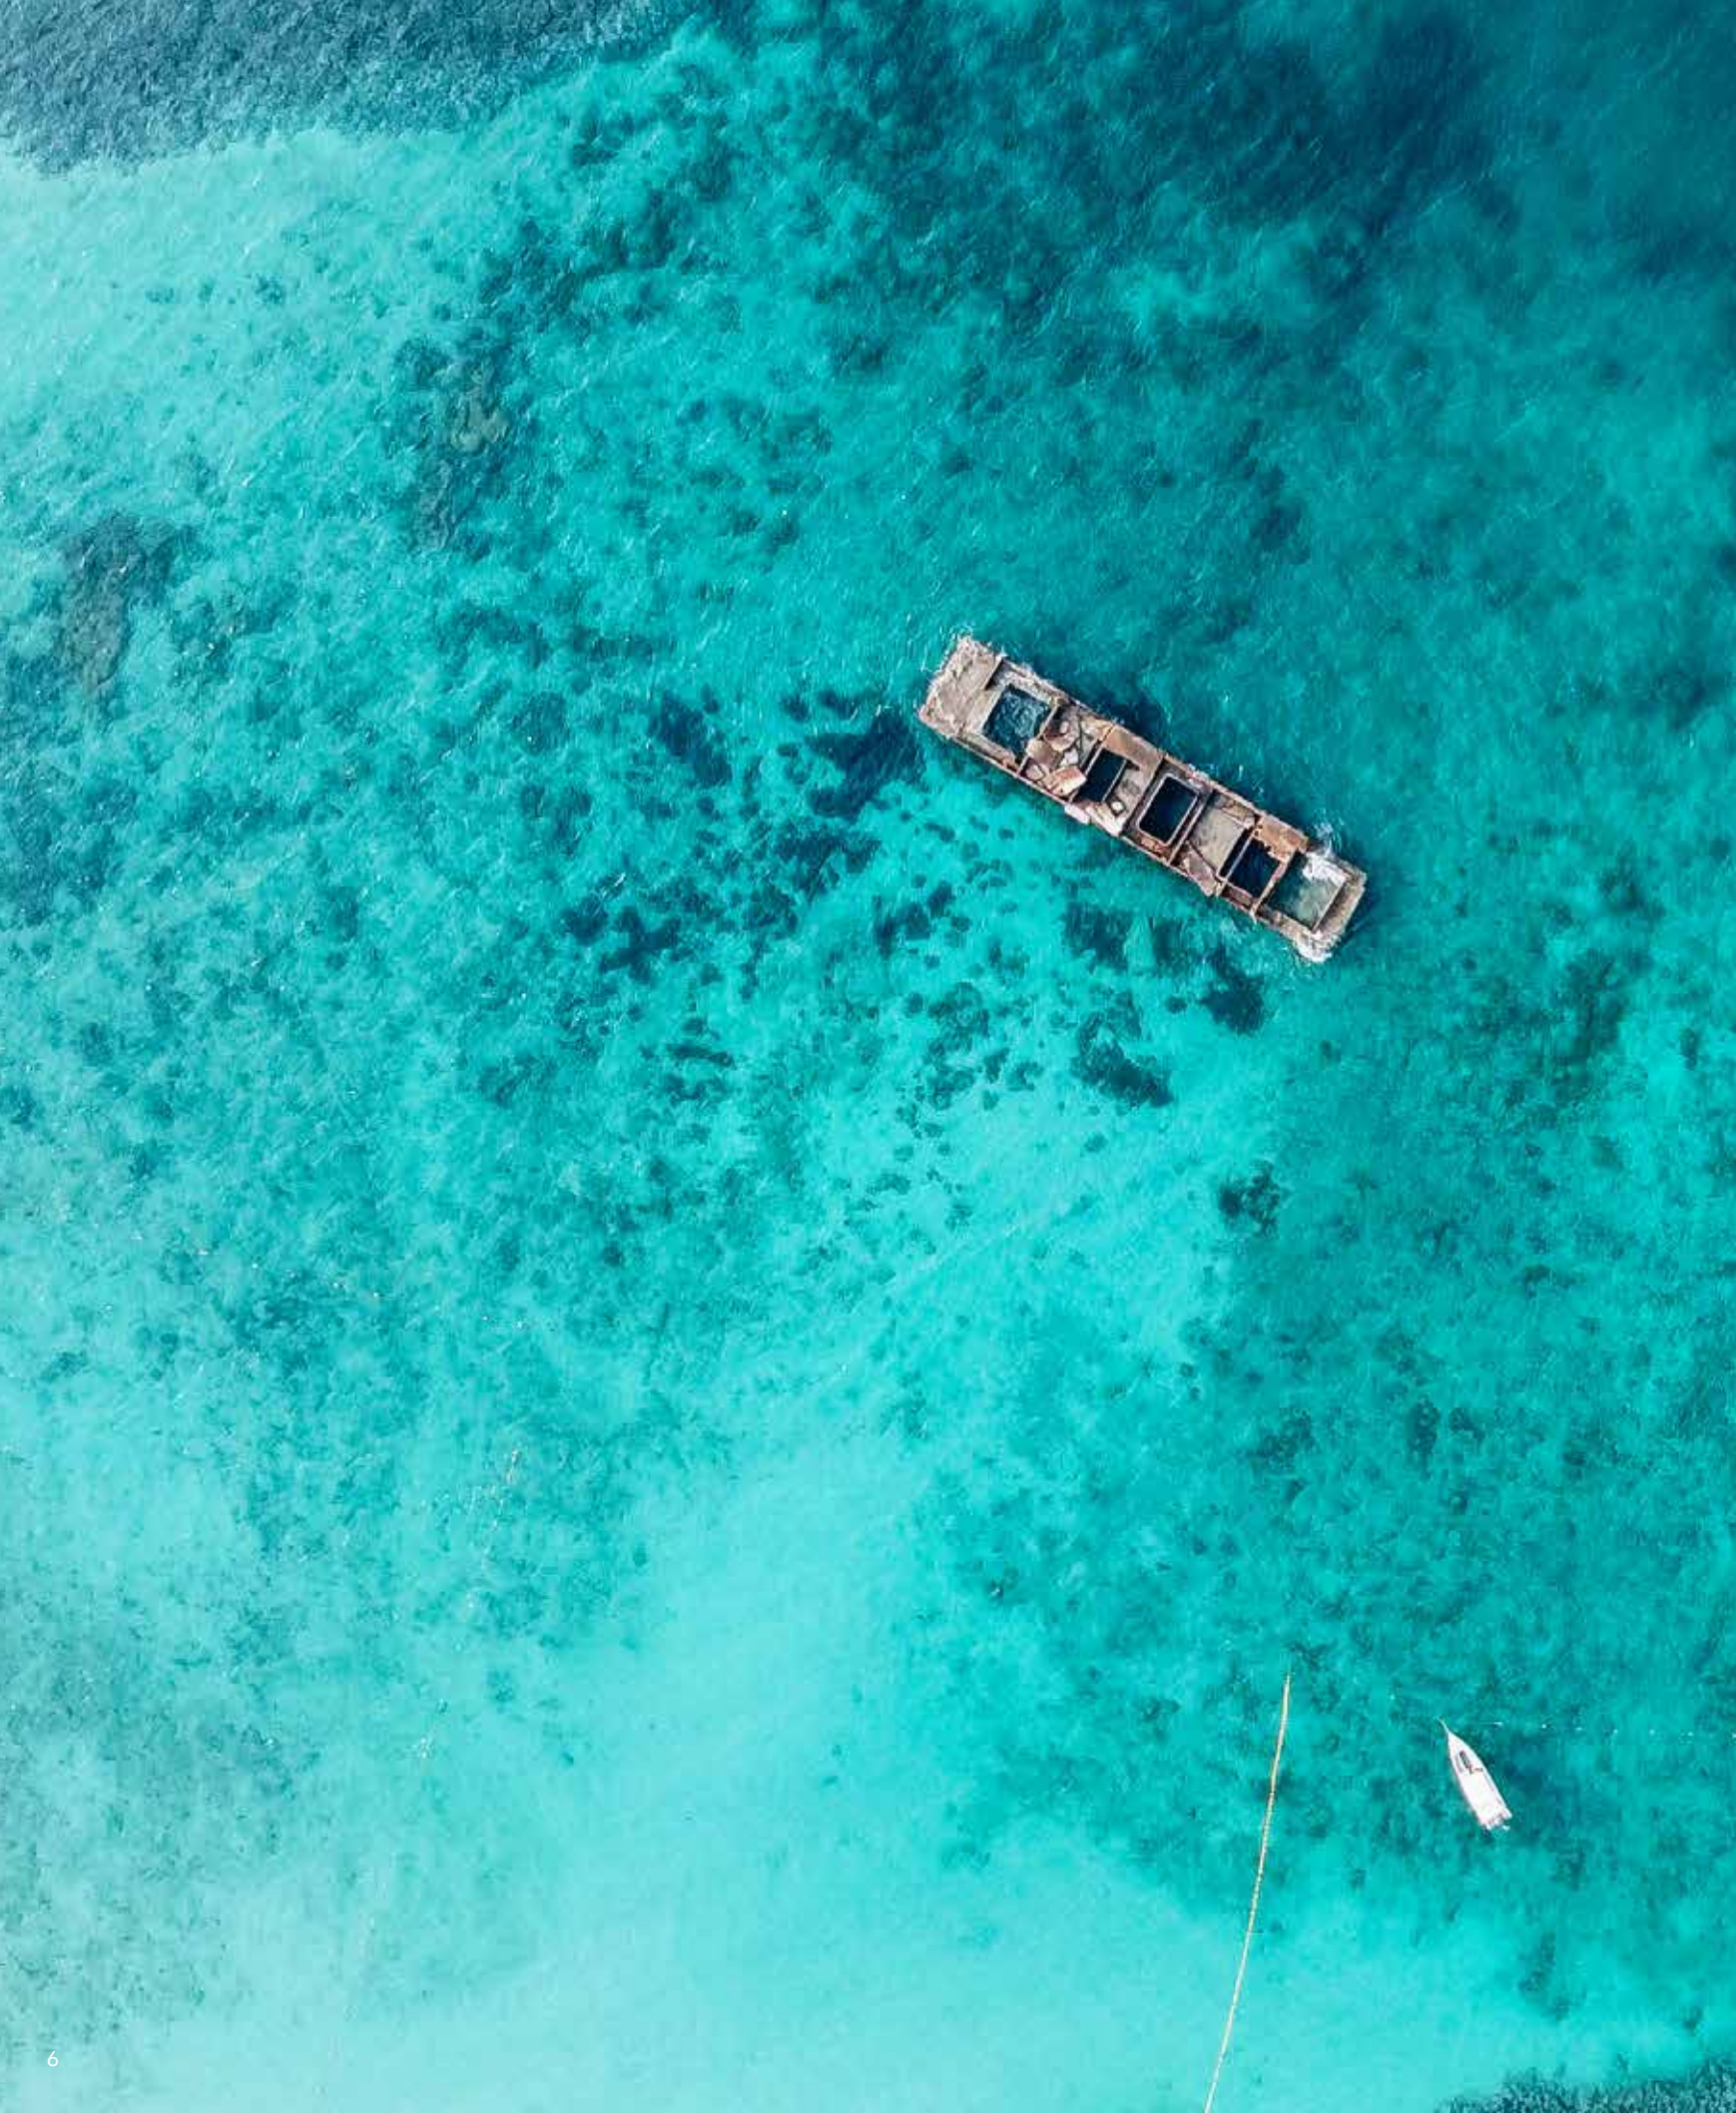

2020 saw the introduction of Cordial dining, with table tops made in a choice of slatted Roble hardwood or an elegant dark grey textured compact laminate. Last year we added a wide rope variation in light and dark grey to complement this growing collection.

For 2022 we are excited to introduce the Lucy hanging chair - a great place to curl up, get cosy and watch the world go by.

The mark of
responsible forestry

Look for FSC® certified products

Alexander Rose is committed to contributing to a more ethical and sustainable world. All of our furniture ranges have been designed to minimise material wastage in the manufacturing process. We are also proud to be leading the way with our policy of eliminating single use plastics in all of our packaging.

RIMINI

Alexander Rose is proud to offer the Rimini collection, quality aluminium furniture with very distinct design features.

The flagship items of this collection are the ten seater extending dining table with its smooth opening mechanism and the elegant designer armchairs with tapered legs. To complement the dining furniture, there is a spacious modular corner lounge set giving options for multiple configurations. The cushions on the lounge and modular sets are weather-ready as they are fitted with a waterproof interliner.

The craftsmanship of the metalworkers can really be appreciated in the quality of welding and polishing of the frames, before being powder coated in a finely textured matt grey finish. The luxurious deep cushions come in a light grey polyester fabric to complement the frames. All table tops come in a striking dappled grey ceramic effect glass. The extensive Rimini range will undoubtedly transform your outdoor space.

CORDIAL

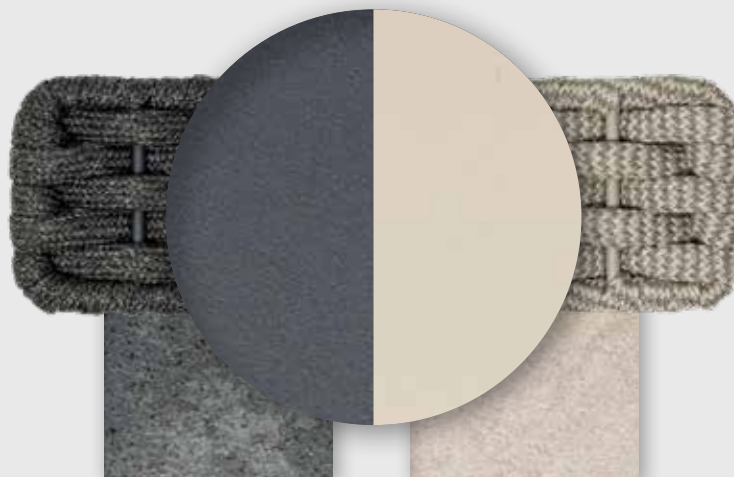

Cordial welcomes you to indulge yourself into ultimate comfort and create a relaxing atmosphere for catching up with loved ones in your summer garden or kitchen.

What could be more enjoyable than to see your children getting so excited to swing in the "Lucy Hanging Chair", our latest addition in the Cordial Luxe range.

Each piece of furniture is crafted from tubular powder coated aluminium frames, that have been hand woven with marine grade olefin rope with a soft rubber core for a faster drying time compared to unfilled ropes.

Cordial dining options include a choice of tables to seat up to eight people, with the choice of grey or beige frames and Roble wood or HPL tops, in either pebble or sand colours to match the frames.

See page 33 for fabric options.

BEACH

Alexander Rose collaborated with renowned UK designer Carsten Astheimer to create our ultra-comfortable Beach range. Its unique design features and the way in which the waterproof pillow style cushions attach to the perforated mesh frames, by using toggles, make this collection a real talking point.

Comfort, versatility and functionality combine to make the Beach perfect for modern outdoor living.

We offer the Beach in five different fabrics as standard, and we are delighted to offer an additional three fabric choices from Agora.

See page 48 for fabric options.

OLEFIN CUSHION FABRIC

The high specification Beach cushions are made using a tough 405gsm/m² solution dyed olefin, with a colour fastness to light 8. The outside of the fabric has the pre-treated water proof finish applied, and on the rear side is the polyethylene (PE) layer that makes the fabric water resistant. Cushion covers are sewn using an unbreakable outdoor rot-proof marine grade thread, giving a lifelong strength to the seams.

OPEN AIR VENT

In each of the seat and back cushions there is an open air vent; this allows the air to escape when in use and returns the cushion back to its original shape after use. This design feature gives the Beach that luxurious sinking sensation and all round comfort.

8801FLGR 8802FLGR 8803FLROB 8805C

CUSHION TOGGLE

The cushion toggles are made from hard-wearing colourfast ABS (Acrylonitrile Butadiene Styrene) and are fitted with an elasticated waterproof cord with a natural rubber core and a braided polyester outer sleeve. The toggle cord is joined together with zinc plated metal crimps and covered in a plastic sleeve in order to protect the paint finish of the frames. The toggles are easily fitted by the customer through the perforated holes in the frames.

HOLLOW FIBRE FILLING

The soft hollow fibre filling is fitted inside a breathable polypropylene (PP) interliner. This casing has excellent abrasion and antibacterial qualities. The internal 'pillow' is made up in compartments, which prevents the filling material from moving around and losing its shape over time.

PORTOFINO

The Portofino Collection of garden furniture has been one of our most successful collections of this decade and offers style and simplicity.

Precision is the hallmark of this collection and this is demonstrated in the intricate way the mesh and structure blend together, fusing lines, shapes and patterns in the designs of the tables and chairs before applying a smooth powder coated finish

Last year, we introduced a sleek six piece casual dining set making our Portofino range perfect to suit your requirements, from dining to lounging.

See page 69 for fabric options.

WEAVE STORY

Alexander Rose commenced production of woven furniture in 2006 and our presence started in a new and expanding market with products meeting the customer desire for low maintenance, high quality outdoor furniture. It was immediately evident that we had much to offer the market, with our unique designs and high quality weaving.

In 2007 we invested in our own purpose built factory on the island of Cebu in the Philippines, in order to directly manage the production and delivery of our own quality furniture. Since that time, the woven furniture market dramatically increased and as a result, we moved to a larger factory to accommodate this greater demand.

Our in-house aluminium framing department skilfully fabricate and weld the intricate carcasses that are then powder coated in colours to match the Rose Fibre before weaving commences.

At our factory we implement best practice environmental policies; the synthetic weave and aluminium raw materials are 100% recyclable, and all wastage is reused to make small components on many of our products.

Every piece of furniture in our woven collection is hand-woven by our experienced craftsman who produce what we believe to be amongst the most beautiful woven furniture in the world today.

All of our weave has been expertly handcrafted by our team of highly skilled weavers in the Philippines. We ensure a high quality of life for our weavers by making sure their social and economic needs are met for them and their families. It is these welfare standards that encourage our workers to continue to work for us from generation to generation.

CLASSIC

(3mm Round Weave)

Our premium Classic collection is made at the Alexander Rose weaving factory set in the heart of the Philippines, in the western Pacific Ocean, where our master weavers continue this age-old tradition passed down through the generations with its rich cultural heritage.

Woven in 3mm round white Rose Fibres each beautiful piece of furniture features braided edges that accentuate its character and form. These traditional lines and the basket style weaving are testament to the artisan craft of our weavers. The cushions come in a striking, contrasting charcoal colour.

When it comes to relaxing on a lazy afternoon, nothing comes close to lounging on our luxurious Classic daybed or reclining sunbeds, followed by a shared sunset dinner with family and friends around our beautiful casual dining set.

OCEAN PEARL

(7mm Flat Weave)

Ocean Pearl will lift and lighten your outdoor space and become the “go to place”, with a superb choice of furniture. Put your feet up on the stunning Surf Lounger, chill in our iconic Relax Hut or hang out with cocktails around the Maldives Lounge Sofas for some much needed “you time”.

The soft mixed tones of the 7mm flat Pearl Rose Fibres are woven in a traditional basket style pattern, onto a powder coated aluminium frame.

The cushions are made using a pearl-coloured olefin fabric and come with a 2-year warranty.

SAN MARINO

(3mm Round Weave)

The San Marino range captures the wealth and elegance of the Mediterranean region, creating the perfect setting for your outside space.

San Marino is woven in a traditional basket style weave using 3mm Red Pine Rose Fibres. San Marino cushions are made using oatmeal olefin fabric and come with a 2 year warranty.

MONTE CARLO

(3mm Round Weave)

Monte Carlo, named after the famous French Riviera principality of Monaco, our well-established Monte Carlo collection brings an invigorating Mediterranean lifestyle to your home.

So, no need to think about travel plans when you can simply wander outside and entertain guests on our new "Club Lounge" with iced drinks. Alternatively, gather around the Casual Dining Fire Pit table and chat the night away into the new dawn.

Monte Carlo furniture is manufactured at our factory in Cebu, Philippines, by our highly skilled weavers, using 3mm round textured synthetic rattan, giving a tactile natural feel.

The charcoal grey cushions complement the mid grey weave. Monte Carlo cushions are made using charcoal olefin fabric and come with a 2-year warranty.

ACCESSORIES

Enhance your outdoor space with our extensive range of **accessories**; from colourful scatter cushions and parasols to protective furniture covers and treatments.

We offer a selection of weather resistant storage bags for your cushions, which we recommend you use to protect them from the elements.

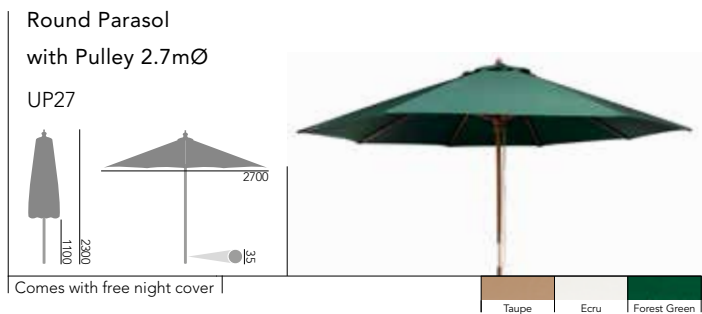

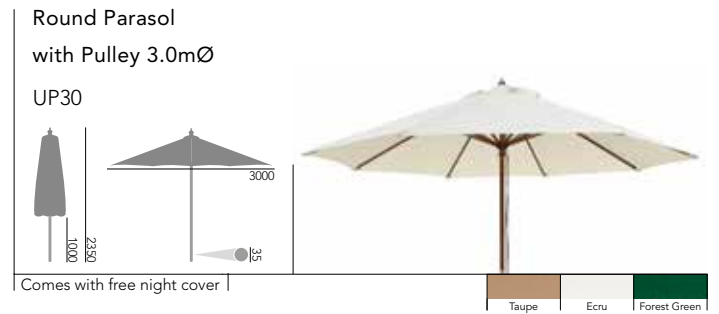

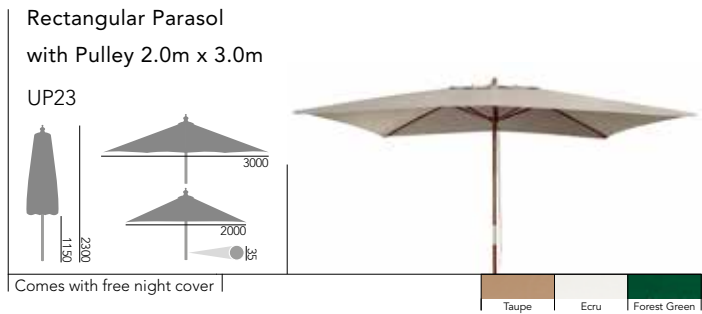

For personalising your timber furniture, we offer an engraving service directly onto the timber or a choice of brass or stainless steel plaques.

For full warranty policy on our range of **accessories** please refer to our website.

HARDWOOD PARASOLS

Alexander Rose hardwood parasols are operated using a pulley and locking pin system. Simply pull the rope down to raise your parasol up to the desired height and place the brass pin in one of the pole holes to secure. To lower the parasol remove the

locking pin and slowly let the rope pass through your hands until the canopy is folded. We recommend that the parasol is not left up in windy conditions. It is essential to use an Alexander Rose base to add stability.

UP27	●	●	●					●		
UP30		●	●					●		
UP23		●	●					●		

LUXE HARDWOOD PARASOLS

A twist on our classic hardwood parasol which has the same trusted pulley and locking pin system, what's different about this parasol is the addition of faux leather patches covering the canopy's tips to reinforce the material. The thickness of the parasol's pole has been

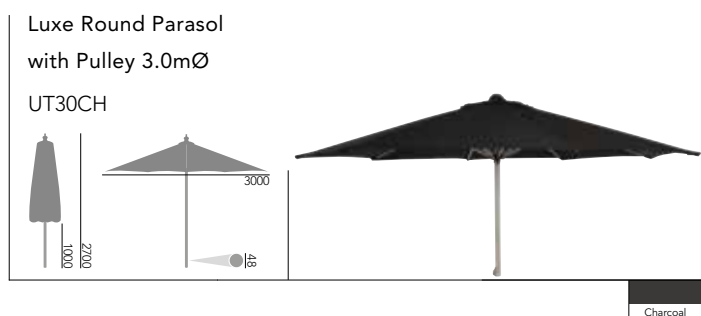

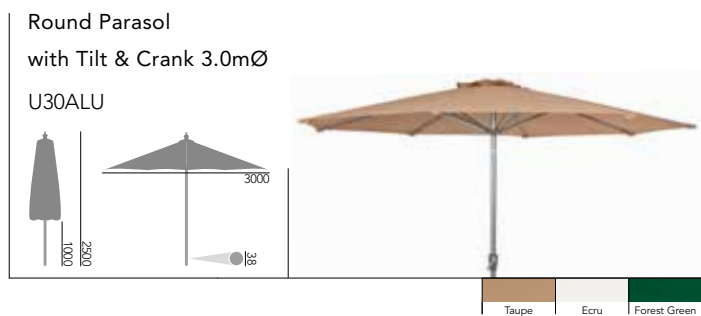

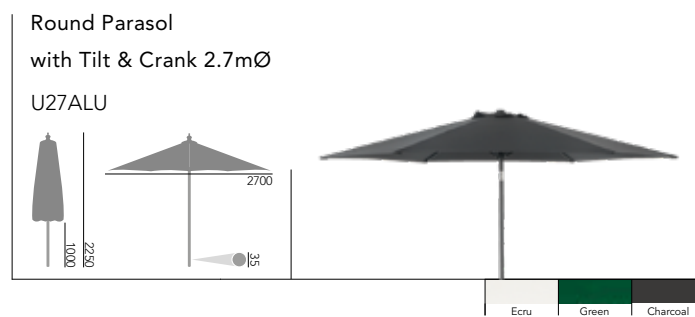

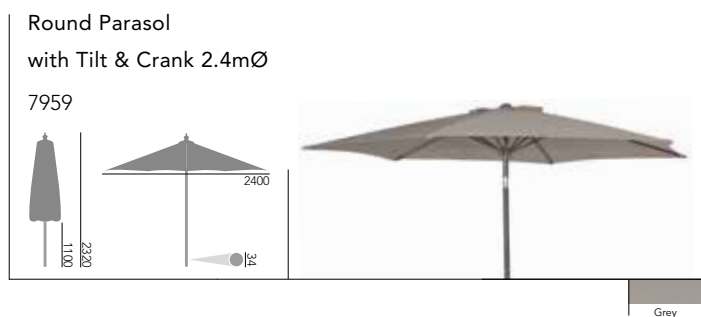

increased, making for an all-round sturdier parasol. We recommend that the parasol is not left up in windy conditions. It is essential to use an Alexander Rose base to add stability.

UPT30			●						●	
UPT35			●						●	

ALUMINIUM PARASOLS

Alexander Rose aluminium parasols are easily operated with a simple crank handle and have a tilt mechanism, allowing you to angle the canopy to provide effective shade from the sun. An addition for 2022 is our 3.0m luxe aluminium parasol in charcoal - a sturdy commercial grade parasol.

COLOUR PARASOLS

Our popular aluminium parasols now come in a range of 3 colours to suit your colour scheme. Made from durable olefin fabric, these parasols are easy to clean and simple to use with their crank handle and tilt mechanism. Team with our range of cushions to create your own personal style.

CANTILEVER PARASOLS

Our elegant cantilever parasols can be positioned to provide maximum shade. They appear to float above the furniture and can be manually rotated to follow the sun. They are free standing, which allows you to position the furniture underneath rather than around a central pole as with conventional designs. The crank mechanism enables effortless use.

UH35

The UH35 is an 8 spoke 3.5m cantilever parasol. As with the UHP, its easy crank mechanism makes raising and lowering one smooth movement. The canopy can be adjusted into 7 positions to give maximum shade from the sun. Use with our UHGB90 granite base. The UH35 comes with a free night cover.

The parasols are made using lightweight durable polyester fabric which is water resistant and easy to clean. To clean your parasol we advise that the fabric is kept attached to the frame. For best results use a soft brush or broom and warm soapy water. For more stubborn stains the canopy can be removed and washed at 30°C. Once washed it is important to put the canopy back on the frame to dry.

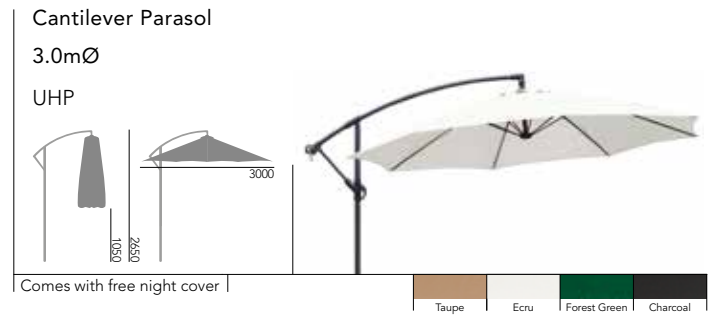

GB11	GB20	GB30	7960	UHGB50	UHGB90	NC-SMALL	NC-LARGE	NC35	FC17
UH35					●			●	

CANTILEVER PARASOLS

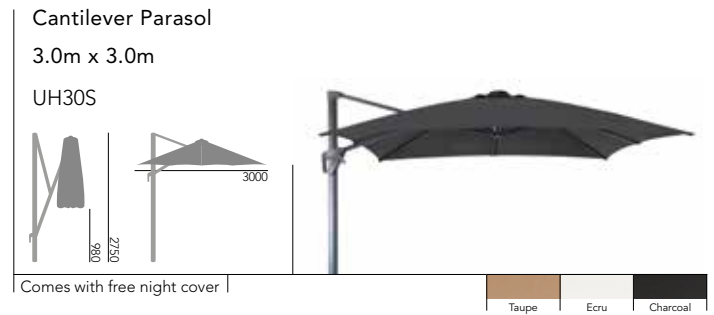

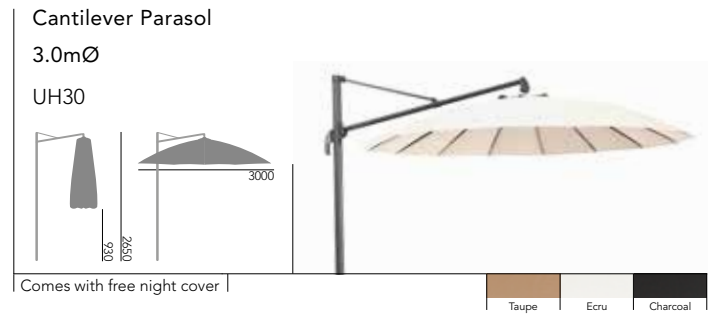

UHP

The UHP parasol is easy to operate with the simple handle and lock mechanism. To rotate the parasol simply unlock the handle and move into the desired position, and then lock the handle to secure. The UHP can be easily bolted to an Alexander Rose UHGB50 granite base. To be used with a FC17 cover.

UH30

The UH30 is an 18 spoke curved 3.0m cantilever parasol. As with the UHP it is easy to raise and lower the canopy with a crank handle mechanism. The canopy can be adjusted into 7 positions to give maximum shade from the sun. The parasol also has a foot operated pedal for 360° rotation. For use with the UHGB90 granite base. Comes with a night cover.

CANTILEVER PARASOLS

GRANITE BASES

We recommend using the GB11 (11kg) for a four seater set and GB20 (20kg) or GB30 (30kg) for six seater sets or more.

COMPOSITE BASE

The composite base is for use with parasols being used through the centre of a table.

It has a locking handle on the stem of the base to secure the parasol in place, minimising movement.

CANTILEVER BASE 50KG

The UHGB50 base is designed to be used with the UHP range of cantilever parasols.

It has convenient small wheels, allowing the base to be moved along a flat surface easily.

CANTILEVER BASE 90KG

The UHGB90 base has been designed to be used with the UH35 and UH30.

The UHGB90 has locking wheels to secure the parasol and prevent any movement.

CUSHION STORAGE BAGS

CUSHION STORAGE BAGS

Our cushion bags come in three sizes; small, medium and large, to accommodate your set of cushions. All of our bags are weather resistant. We recommend storing the cushions in the bag in a dry place when not required.

SMALL CUSHION BAG

The small cushion bag is designed for furniture cushions, it will also hold several scatter cushions.

FURNITURE COVERS

Our covers are breathable and protect against the build up of dirt and ensure less furniture maintenance is required. The covers come with ties and cords for securing to the furniture. It may be necessary to place an object such as a bucket between the furniture and the cover. This will reduce the amount of sagging and will help the airflow around the furniture. This will prevent the chance of rotting occurring.

PORTOFINO CUSHIONS

CUSHION INFORMATION

These dainty cushions now come in a range of four colours, giving you more choices to create your own style with. The cushions are made from polyester and have a comfortable foam filling. They are easily secured onto the chair using the cushion's corner ties. When not being used, we recommend the cushions are stored in an Alexander Rose cushion bag.

CUSHION CLEANING TIPS

1. Brush off any loose dirt.
 2. Prepare a cleaning solution of 1:16 mild detergent to lukewarm water.
 3. Use a sponge or a soft bristle brush to clean.
 4. Allow cleaning solution to soak into the fabric.
 5. Rinse thoroughly to remove all soap residue.
 6. Allow fabric to air dry.
- Do not dry clean, iron, steam iron or tumble dry cushions. Do not use bleach or strong detergents.

WEAVE MAINTENANCE

We recommend that woven furniture is cleaned at least once a year. It is important to use a non-foaming cleaner on woven furniture, as a foaming product will leave residues in the gaps in between the weave which will then attract dirt.

A pressure hose on a wide spray setting is acceptable to use on woven chairs at a distance of approximately one metre from the product. Tables should be cleaned carefully with a sponge and a cleaning agent. Follow the instructions below:

- Apply lukewarm water with a soft cloth or sponge.
- Brush the furniture clean with a soft scrubbing pad.
- Rinse furniture well with clean water.

Scratch marks or abrasion to the edges of the fibre can be repaired by very briefly and carefully applying heat (i.e. a hair dryer) to the affected area and rubbing along the length of the fibre with a piece of hard cardboard to restore a smooth edge. To clean the table top glass we suggest the use of any household glass or window cleaner.

ROSE FIBRES

Alexander Rose woven furniture is made from only the highest quality synthetic man-made fibres available, Rose fibres (excluding Monte Carlo). Rose fibres are UV and fully weather resistant, and also insensitive to differences in temperature. The Rose fibres are produced by Viro, and are tested rigorously to ensure they meet our exacting standards.

The structure of all our woven furniture is made from fully welded, powder coated aluminium frames. The aluminium tubes we use have a wall thickness of 1.5mm to provide maximum strength and a lightweight frame. Once a frame has been covered in its woven skin the furniture becomes even stronger. The aluminium frames are electrostatically powder coated to prevent them from oxidisation, and the finish is invisible once it has been woven over. Our weavers are highly skilled and are often 2nd and 3rd generation weavers. They use their traditional experience with natural materials and apply their skills to using the modern man-made wickers.

CUSHIONS CLEANING TIPS

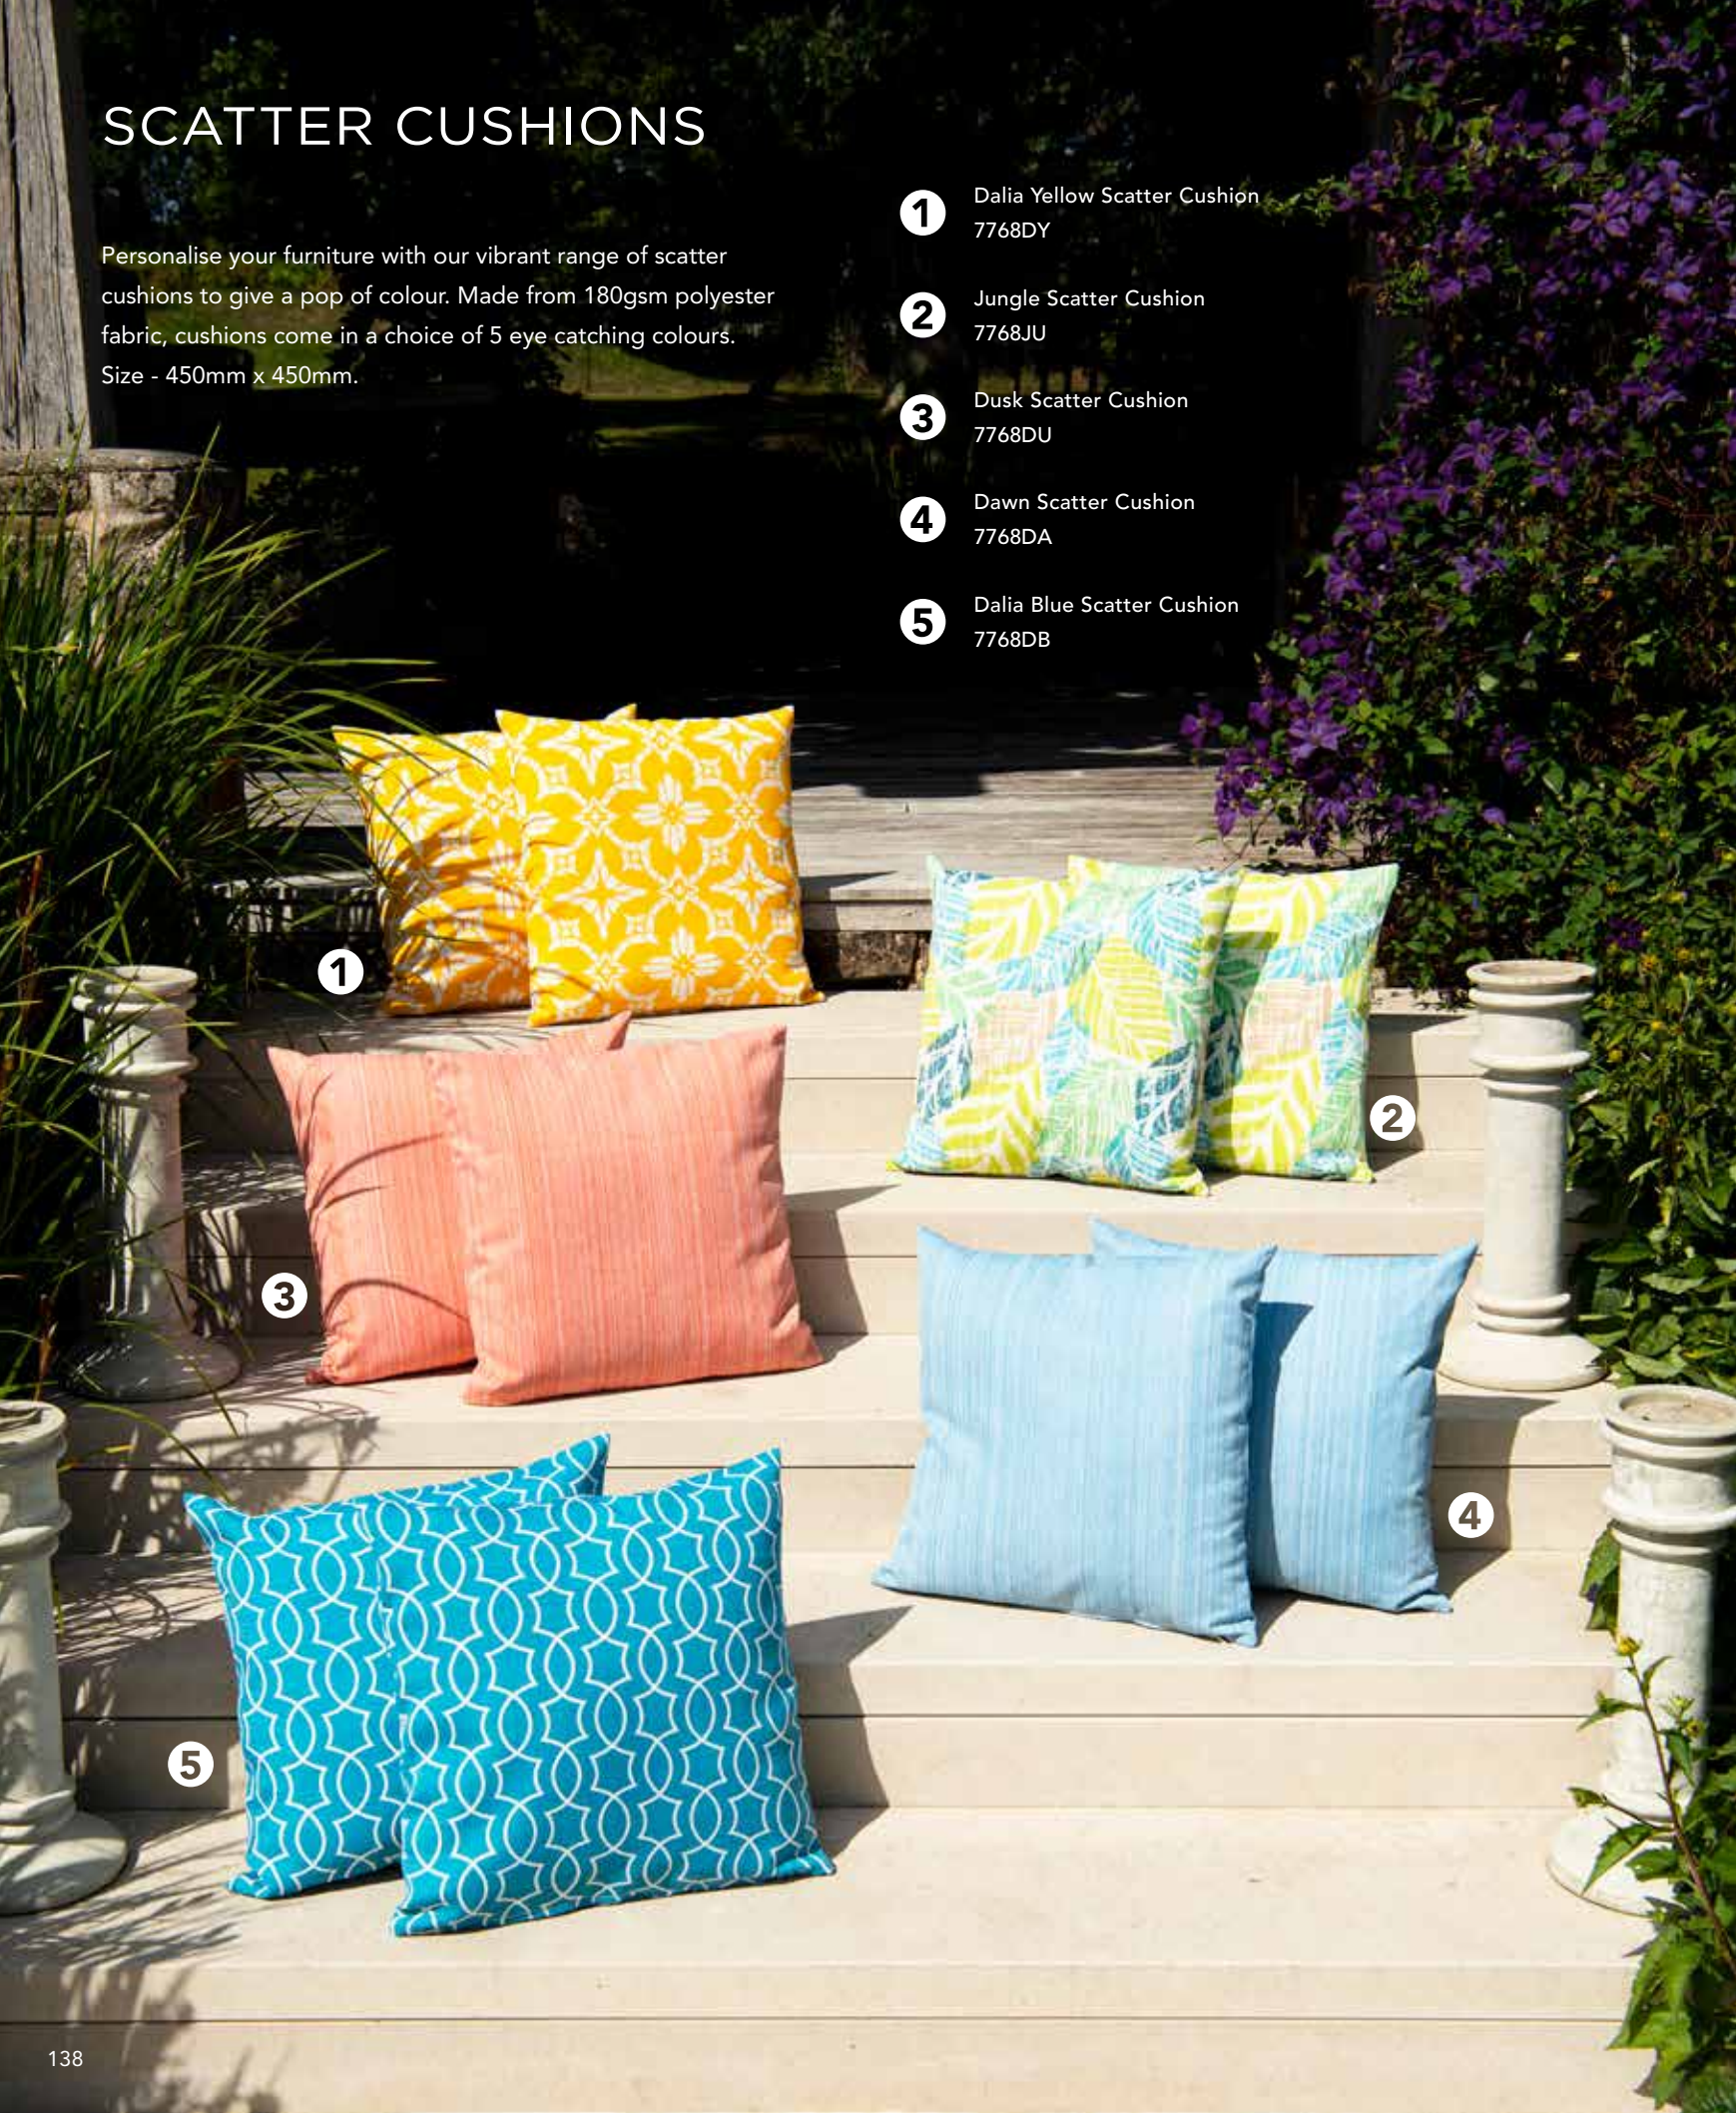

1. Brush off any loose dirt.
2. Prepare a cleaning solution of 1:16 mild detergent to lukewarm water.
3. Use a sponge or a soft bristle brush to clean.
4. Allow cleaning solution to soak into the fabric.
5. Rinse thoroughly to remove all soap residue.
6. Allow fabric to air dry.

Do not dry clean, iron, steam iron or tumble dry cushions. Do not use bleach or strong detergents.

SCATTER CUSHIONS

Personalise your furniture with our vibrant range of scatter cushions to give a pop of colour. Made from 180gsm polyester fabric, cushions come in a choice of 5 eye catching colours. Size - 450mm x 450mm.

- 1** Dalia Yellow Scatter Cushion
7768DY
- 2** Jungle Scatter Cushion
7768JU
- 3** Dusk Scatter Cushion
7768DU
- 4** Dawn Scatter Cushion
7768DA
- 5** Dalia Blue Scatter Cushion
7768DB

BEACH ACCESSORIES

BEACH SCATTER CUSHION

The Beach scatter cushions come in five colours: Grey, Taupe, Blue, Ochre and Jade. They use the same fabric as the Beach cushions. The scatter cushions are water resistant but not waterproof. We recommend that the scatter cushions are stored in a dry place when not required.

BEACH COVER

We recommend that the Beach covers are used during the winter months and during prolonged periods when the furniture is not in use to protect the cushions against airborne pollutants and to minimise the requirement for cleaning.
