

PARTS:

ASSEMBLY:

BRANCH 1

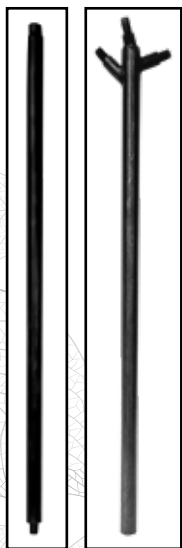

BRANCH 2

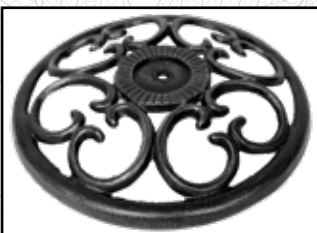

BRANCH 3

1-MIDDLE AND 1-BOTTOM POLE

BASE

NUT

Step 1: Remove the Alberto Metal Tree Branch Bird Feeder parts from the packaging and lay out inventory to ensure all parts are present.

See parts list to the left.

Step 2: Assemble the Middle and Bottom Poles: Thread the Middle Pole to the Bottom Pole and tighten (Figure 1).

Step 3: Insert the male end of the assembled pole into the Base, thread the nut onto the pole and tighten (Figure 2 (B) Arrow).

Step 4: Assembling the branches:

NOTE: While looking at the top of the pole at the branch mounting points, Branch 1 is the middle mounting point, Branch 2 is the top mounting point and Branch 3 is the lowest mounting point (Figure 2 (A)). Also, when unpacking please note the Branch packaging is labeled 1, 2 & 3. When unpacking do not mix up branches. Branch 1 is the Branch with the bird attached but Branch 2 and Branch 3 are similar but do not have birds attached. If Branch 2 & 3 are installed in the wrong location the bowls will not be level. Thread the branches (1-3) onto the pole (Figure 3, 4 & 5). Please note location of branches in (Figure 2 (A)).

Step 4: Fill all Bowls with your choice of bird food (Figure 7).
