AQUA-TERRA™ DOOR MAT DELUXE
(DESIGNS WILL VARY)

Here are some helpful hints to keep your Mat in top shape for years to come.

PATENT PENDING TERRA-MESH™ TECHNOLOGY

Unpacking Instructions:

1. Unroll Mat, gently shake mat and lay flat. The mat may take a day or more to completely lay flat from its rolled position.
2. The Mat may need time to lose its rolled up memory. One way to speed this up is by laying your new Mat in the sun to heat up and soften. If you live in a colder environment you can also bring the mat inside and lay the mat out as listed above until the mat lays flat.

Creases:

Try to keep the Mat rolled when not in use. **DO NOT FOLD.** Folding will produce creases that may not come out easily. Although every crease is different, most can be coaxed out. One method is to lay the Mat out flat and apply several books directly on the crease for a period of several hours or perhaps overnight. Another method is to use warm water poured over the spot to soften it and then knead out the crease. **DO NOT** iron your Mat or expose it to excessive heat, sunlight or flame.

Cleaning:

This should be done using only a mild detergent. If you desire to use a stronger solution or solvent, it should be tested first on a small portion of the mat to avoid removal of the surface and/or the printed pattern. A toothbrush or other bristle brush can help facilitate the removal of stubborn stains.

Storage:

The best way to store your new Mat is in a cool, dry area. Try to keep the Mat rolled up when not in use.
