

## 2-in-1 Hummingbird & Bird Seed Feeder Owners Manual

### CONTENTS:

Please note, images of parts are not to scale with one another.

Upper Bird Feeder Assembly

Hummingbird Perch Ring & Food Dish

Flower Port Cover

Hummingbird Food/Water Reservoir

### Pre Assembly Preparation:

1. Note: The 2-in-1 Hummingbird & Bird Seed Feeder is designed for easy assembly but please use caution when assembling.
2. Prior to assembly take time to find a suitable location for your 2-in-1 Hummingbird & Bird Seed Feeder and make sure to assemble your new 2-in-1 Hummingbird & Bird Seed Feeder on spacious and clean work surface.
3. Use Diagram 1 for reference on part names, assembly and how all the individual parts fit together.
4. Observe all safety precautions.

### ASSEMBLY:

#### Assembling The Lower Bird Feeder Assembly:

1. On a flat even surface place the Hummingbird Food/Water Reservoir with the open end facing up, fill with your choice of hummingbird food/water (see recommendation later in this instruction) approximately 80% full (Figure 1 & Figure 1 arrow).
2. Set the Hummingbird Food Dish/Perch Ring upside down on the Hummingbird Food/Water Reservoir and screw onto the Hummingbird Food/Water Reservoir. Screw past the threads and then push onto the rib to hold Hummingbird Food/Water Reservoir in place (Figure 2).
3. Take the Hummingbird Food Dish/Perch Ring turn it upside down and screw onto the Hummingbird Food Reservoir snug but **DO NOT OVER TIGHTEN** (Figure 3 & 4).
4. Flip the assembled Hummingbird Food Reservoir/Hummingbird Food Dish/Perch Ring over (Figure 5). The Hummingbird Food Dish will gravity feed/fill from the reservoir until an equilibrium is achieved.
5. Push down the Flower Cover Port till it is free from the rib (Figure 6 small black arrow), Thread and tighten the Flower Cover Port until snug against the Hummingbird Food Dish/Perch Ring but **DO NOT OVER TIGHTEN** (Figure 7).

#### Assembling The Upper Bird Feeder Assembly:

5. The Upper Bird Feeder Assembly comes pre-assembled. Set the Upper Bird Feeder Assembly Bird Perch Ring on a flat surface (Figure 7 arrow), press the Lock Button and pull up to the Hanging Loop Lock Ring, this will allow you to lift up the Bird Seed Fill Cover. (Figure 8). Set the Bird Seed Fill Cover to the side of the Upper Bird Feeder Assembly.
6. Fill with your choice of bird seed (see recommendations later in this instruction). Fill approximately 80% (Figure 9 Black arrows).
7. Put the Bird Seed Fill Cover back onto the top of the Bird Seed Reservoir (Figure 10), press the Lock button and pull up on the Hanging Cable to tighten (Figure 11).

## ASSEMBLY: (CONTINUED)

### Assembling The Upper Bird Feeder Assembly: (continued)

8. The Upper Bird Feeder Assembly screws into the Lower Bird Feeder Assembly. Set The Upper Bird Feeder Assembly on top of the Lower Bird Feeder Assembly (Figure 13).

9. Screw the Upper Bird Feeder Assembly by turning the bird perch ring onto the Lower Bird Feeder Assembly (Figure 14). Ensure it is snug but **DO NOT OVER TIGHTEN**. If upper bird assembly will not screw in, check to make sure cable from the upper bird assembly is not in the way, if so you will need to tighten the cable.

10. Hang your new 2-in-1 Hummingbird Bird Seed Feeder in your choice of locations (see recommendations later in this instruction). Enjoy!

### TIPS & TRICKS:

**Mounting:** Hang your 2-in-1 Hummingbird & Bird Seed Feeder with a hook or chain or mount it on a bird feeder pole.

**What to offer:** Consider using food like seed, mealworms, suet or fruit to attract a variety of bird species.

**When to feed:** Feeding year round is good for the birds and gives you year round enjoyment.

**Water:** Provide Birds with a regular supply of water for both drinking and bathing.

## CLEANING, CARE AND MAINTENANCE:

The Bernini 2-in1 Hummingbird Bird Seed Feeder can be disassembled for easy cleaning or replacing parts.

### **Cleaning your 2-in1 Hummingbird Bird Seed Feeder**

For healthy and happy birds and in order to keep your 2-in1 Hummingbird Bird Seed Feeder in tip-top shape and free of bacteria, we recommend cleaning your 2-in1 Hummingbird Bird Seed Feeder once a month in winter, more frequent in hot and humid weather. Cleanings provide a healthy and happy environment for all the birds visiting your 2-in1 Hummingbird Bird Seed Feeder, and this will provide many hours of enjoyment for you and your birds. To clean your 2-in1 Hummingbird Bird Seed Feeder fully disassemble and use a mild soap and soft cloth to clean the parts. Make sure to rinse thoroughly after any and all cleaning.

**DO NOT SCRUB YOUR 2-IN1 HUMMINGBIRD BIRD SEED FEEDER USING COARSE OR HARSH CLEANSERS OR SCRUBBING PADS AS THIS COULD CAUSE DAMAGE TO THE FINISH.**

### ***Cleaning Plastic Components***

1. Allow the birds to empty the 2-in1 Hummingbird Bird Seed Feeder as far as possible. Empty out any remaining seed and debris.
2. Disassemble the 2-in1 Hummingbird Bird Seed Feeder.
3. Carefully remove any surface debris with a soft wet sponge or cloth. Using a dry sponge or cloth will scratch the surface.
4. Use a soft brush (non-abrasive) or soft cloth, and a solution of a mild hand dish washing detergent and warm water to remove dust, salt and other contaminants.
5. We recommend disinfecting the polycarbonate components of your 2-in1 Hummingbird Bird Seed Feeder using a 50/50 solution of white vinegar and warm water, rinse thoroughly.
6. Ensure to dry all components of the 2-in1 Hummingbird Bird Seed Feeder completely before reassembly and filling the feeder with seed.

### ***Cleaning The Bronze Colored Metal Components***

Proper cleaning will help protect the powder coated finish from the effects of water, sun and pollution. Maintaining the finish on powder coated components is essential to protecting your 2-in1 Hummingbird Bird Seed Feeder. Powder coating is a very durable, protective coating for metal surfaces, but proper care will help prolong the finish. Over time, powder coated finishes exposed to the elements may show signs of weathering such as reduced gloss, chalking and slight color loss. Consistent, scheduled cleanings will help remove dirt, grime and other surface buildup that may be harmful to the powder coated finish.

1. Carefully remove any loose surface debris with a soft wet sponge or cloth. Using a dry sponge or cloth will scratch the surface.
2. Use a soft brush (non-abrasive) or soft cloth, and a solution of a mild hand dish washing detergent and warm water to remove dust, salt and other deposits.
3. Do not use a solution of white vinegar and water on the powder coated metal components as this may damage the finish.
4. Dry all components completely before reassembly and filling your 2-in1 Hummingbird Bird Seed Feeder with seed.
5. Powder coated components only! Extra protection may be required to prolong the finish, especially in harsh environments. Use a light coat of high grade, nonabrasive car wax containing UV blocker and/or UV inhibitors on the surfaces which are only exposed to the elements. Wipe off any residual wax as this may cause permanent staining from the heat of the sun. If used clean and or remove any harsh chemicals prior to filling with any bird seed or hummingbird food as this may harm birds.

## MAXIMIZE YOUR BACKYARD BIRD EXPERIENCE:

**Placement:** Birds feel vulnerable out in the open so we recommend you place your 2 in 1 Hummingbird Bird Seed Feeder near a tree or bush but not too close where a squirrel could jump in. Birds are creatures of habit and it could take weeks to feel comfortable at a new feeder.

With options of hanging or pole mounting, you can have your 2-in-1 Hummingbird & Bird Seed Feeder almost anywhere! Place your 2-in1 Hummingbird Bird Seed Feeder where you can easily see it, even an accessible second story window! If you must place a nectar feeder in full sun for your enjoyment, just remember to check the condition of the nectar more often. In order to help hummingbirds find your feeders more easily, place them near a hanging flowering plant or tie a red ribbon around the hanging rod. If you place your 2-in1 Hummingbird Bird Seed Feeder out in early spring, you will be able to entice the early arrivals of spring migration and persuade them to stay.

## HELPFUL TIPS:

### NECTAR NEEDS

Hummingbirds need to feed between 5 and 8 times every hour, so keeping your feeder well supplied with energy packed nectar is crucial, especially in early spring when natural flower nectar and insects are not as readily available.

### Hummingbird Nectar Recipe

The formula for hummingbird food is simple: about one part white granulated sugar to four parts water. Boil the water for approximately 2 minutes, add the sugar, and stir to dissolve thoroughly. We do not recommend adding red dye to the nectar mixture. Cover and allow to cool before using or pouring into a clean storage bottle. A large batch of nectar can be made and stored in the refrigerator for up to two weeks. This makes refilling the feeder easy so you won't mind doing it every few days.

You must change the nectar frequently - at least twice a week. The need to change the nectar depends on the temperatures, where the feeder is hung, and number and frequency of hummingbirds feeding at your feeder. If the birds are not emptying your feeder between cleanings, it's unnecessary and wasteful to fill it completely. Fill only with the amount of nectar they will consume in a few days. Over time you will get a feel for how much nectar to put in the feeder. If you notice that the nectar is turning milky, or that white strings or black spots are growing in it, change it more often. If you don't have hummingbirds in your area you can fill the hummingbird feeder (Lower Bird Feeder Assembly) with water.

### BIRD NEEDS

#### What type of seed/feed?

While birds sometimes surprise us with their seed/food choices, the seed listed below typically attract these birds:

Mixed seeds: Cardinals, Grosbeaks, Titmice, Nuthatches, Chickadees, Finches, Jays, Juncos

Sunflower: Cardinals, Grosbeaks, Titmice, Nuthatches, Chickadees, Juncos

Thistle (Nyger): Finches, Siskins

Suet Cake: Woodpeckers, Jays, Titmice, Chickadees, Nuthatches

Nectar: Hummingbirds, Orioles

Grape Jelly/Orange halves: Orioles

Mealworms: Bluebirds, Wrens, Chickadees

Peanuts: Jays, Woodpeckers

Chopped apples/dried fruit: Woodpeckers, Mockingbirds, Catbirds, Robins

### LIMITED ONE YEAR WARRANTY

This warranty gives you specific legal rights and you may also have other rights which vary from state to state. This product has a one year limited warranty on all materials and workmanship. Bernini® warrants the original purchaser of this product that the product will be free from manufacturing defects in workmanship and material for a period of one (1) year from the date of original purchase. If within one (1) year this product fails due to defect in material or workmanship, Bernini® will repair, replace or supply any defective part(s) at their discretion. The purchaser must contact Bernini® and provide a description of the defective part, including digital pictures if requested, with this original purchase documentation as validation of warranty coverage. This warranty does not cover or apply to: (a) damage to the product due to misuse, mishandling, and abuse, (b) products not used in accordance with instructions, (c) product not assembled or installed according to instructions, and (d) normal wear and tear.
