

Dries your tail-wagger faster & easier™

Groomers face all kinds of challenges in their business, and drying your clients quickly and easily is one you face daily. But with **The Absorber® Pro Dry** towel, drying becomes incredibly quick, easy and cost-effective. That's because the Absorber's natural sponge-like composition goes to work immediately, pulling 50% more water out of each dog's coat than regular cotton or microfiber towels. If you're drying a large dog, just wring the Absorber out and it's like having a new dry towel, so there's no need to use more than one towel on any size dog.

SUPER ABSORBENT:

Attracts water like a magnet and dries better than any cotton or microfiber towel.

SOFT & GENTLE:

Keeps your clients comfortable and happy.

ELIMINATES TOWEL CLUTTER:

Wrings easily and keeps working.

HAIR SHAKES RIGHT OFF:

Saves your washing machine from trapped hair.

MACHINE WASHABLE:

Wash as you would regular towels with liquid detergent.

SAVES TIME, ENERGY & MONEY:

Do not place in dryer; time-saver, reduces energy usage and saves money.
