

Bar fencing

Stylish

Excellent value for money

Posts and fastenings are identical to those of other bar fences in our range

Orpheus

A valuable contribution to the Heras range, the Orpheus bar fence is new in our range of security solutions. The Heras Orpheus system is different from other fences in many ways but it fits in perfectly with an environment where security has to go together with aesthetics.

Table of dimensions

Type	Fence height	Post	Length of post	Anti-climb feature
Orpheus 125	1250	60 x 60	1900	no
Orpheus 150	1500	60 x 60	2150	no
Orpheus 180	1800	60 x 60	2650	no
Orpheus 200	2000	60 x 60	2800	no
Orpheus 250	2500	60 x 60	3350	no

Dimensions in mm.

Colour schemes

- Galvanised or coated. Standard coating, available as RAL 6005 (moss green), RAL 6009 (fir green), RAL 6014 (Heras green), RAL 7016 (anthracite grey), RAL 7030 (stone grey), RAL 9005 (black) and RAL 9010 (pure white).
- As the RAL 9006 and RAL 9007 colours come in several variants they are only available - at a surcharge - if the additional 'variant' colour code is stated.
- Other RAL colours are available upon request.

Coating

Galvanised and aluminium parts are pre-treated before coating. Electrostatic powder-coating is then applied, after which the coated materials are cured in an oven (210 °C) to create a durable coating with an average thickness of 80 µm and a hardness of 80 buchholz.

Standard configuration	Options
<ul style="list-style-type: none"> Round horizontal girders with a round profile 50x30x25x2 mm Ø Bar diameter Ø 26 x 1.25 mm Black plastic caps on the tops of the bars Extended posts Width of bar panel element: 2294 mm Centre-to-centre distance between posts: 2360 mm Maximum opening between bars is 110 mm 	<ul style="list-style-type: none"> posts with base plates Can be combined with: swing gates, sliding gates, small gates
