

## *The Outback Series by Camp King Industries*

***An all-aluminium Australian Made truck topper, built to take your adventures further***

### Key Features

- Designed by Lucas Schubring one of Australia's leading metal engineers specialising in overlanding products. Lucas brings over 20 years of design experience to his product innovations with Camp King Industries.
- The Outback Series is CAD designed with a 3mm aluminium body engineered to the highest standards. Stress tested and material compatibility tested by Brisbane's leading mechanical engineer.
- Superior quality tent made from Australian Made Wax Convertors Tear Stop Canvas- Trusted worldwide for its uncompromising performance in even the harshest environments. Canvas is made using the latest state of the art textile processing equipment to provide the highest quality tear resistant fabric. Canvas provides maximum breathability and unsurpassed performance in any climate.
- <https://rvdaily.com.au/australian-canvas-best-world/>
- One-piece roof design exclusive to Camp King Industries. Our one-piece tent roofs are fully TIG welded and secured with a specialized Orlock riveting system. This creates the most structurally solid top tent on the market.
- Quick and easy set up and pack down. Ready to camp within 1.5 minutes resulting in a very convenient overland camping experience.

### Body Specifications

- Laser cut 3mm fully TIG welded body unit construction with 2mm tent top.
- 3 door unit with tub mounts included. 3 full size doors with full internal width access.
- 3 full size fully functional tent doors. Exterior access via ladder to each door. All 3 doors have full mesh windows.
- 102" (8.5') Telescopic ladder included
- High quality 3" high density 2-piece mattress included.
- Large spacious sleeping area with plenty of room. Sleeping area is 85"L x 51"W. Maximum height at rear opening is 67"H. With sleeping platform down.
- 2 piece sleeping platform allows interior access to bed of truck as well as plenty of room to stand. (dependent upon height of bed and open space). Rear ¼ section of sleeping platform pivots on two

hydraulic struts to rear of truck bed. Front  $\frac{3}{4}$  section of sleeping platform pivots on two hydraulic struts to front of truck bed.

- Superior Powder coat finish. Powder coat is resistant to chipping, scratching and wear due to the thermal bonding it undergoes during curing. Powder coat also provides superior color retention and is easy to clean. Products left in raw aluminium state are prone to deep scratches, stains from environmental elements and over time will leave your product looking tired.
- Heavy duty gas struts. Once tent is unlocked it requires a small push to activate the struts. Once activated the tent opens on its own.
- High-quality stainless-steel latches. Latches can be padlocked.
- Internal mount for light bar inside tent
- High quality water and dust proof industrial strength 3M seals on the tent opening. Our seals will tolerate extreme heat and also cold weather. Our seals have been tried and tested in the harsh Australian outback for the last decade.
- Versatile aluminium top extrusion rail perfect for mounting racks or solar panels.
- **Weight based on specific vehicle. Range is 300- 325 pounds.**

## Tent Specifications

- Full tent body made from Australian Made Wax Convertor Coolabah Tear stop canvas- AS2001.2.18.1987 (Military Standard). <https://rvdaily.com.au/australian-canvas-best-world/>
- 3" thick Closed Cell foam on internal roof of tent to provide high level thermal resistance to climate elements.
- 2 Large fully opening insect proof fly mesh side windows (windows are 59 Inches Wide by 35 Inches High). Large windows ensure maximum ventilation for the tent.
- 1 Large front door with full-length built-in window included (61 inches High by 31 inches Wide)
- Integrated bungy cord to organize and fold canvas.
- 6 Internal storage pouches are included as standard. 4 shoe pockets at back door. 2 pockets on side at sleeping area.
- Solid canvas front awning assisted by lightweight Aluminium support poles is structurally able to support strong winds and extreme weather situations. **No additional support rods required\***

## Outback Series Additional Options

- **Camp King Top Rail Kit.** Cross bars for mounting solar panels or carrying light weight Kayaks
- **Camp King Storage pouches.** Perfect for storing clothes, shoes or toiletries
- **Camp King Stainless steel awning brackets.** To mount your awning, can be either passenger or driver side.

## The Camp King Difference

- Camp King Industries is a trusted Australian Made brand based in Brisbane, Queensland Australia.
- The Camp King brand prides itself on quality and excellence in engineering design form and function.

- The Camp King Industries brand is used and endorsed by Pat Callinan, an Australian Overlanding enthusiast and lead presenter on **Pat Callinan's 4x4 Adventures** TV show in Australia.
- <https://www.youtube.com/channel/UCgqp3OoA43qhfC98ii5tE8g>
