MODULE PRIOR TO REMOVING PLATE & BEZEL

INSTALLATION INSTRUCTION FOR RACK MOUNT PANEL:

1) If knobs exist on the front Plate, remove prior to removing front Plate.
2) Remove the front Plate by removing the 2 screw holding the Plate to the module.
3) Remove the front Bezel. Bezel is not used on Rack Mount panel installation.
4) Assemble module into the Rack Mount panel from the rear and assemble the front Plate on the outside of the Rack Mount panel as shown below. Use the 2 screws which were removed from the front Plate. Re-assemble any knobs if necessay.
