

# MH-20 HIS WITH SEN-20 PORTABLE PUMP

## THE EASIEST WAY TO DRY HOP BEER

The MH-20 Hop Induction System (HIS) greatly increases the ease and safety of the dry hopping process. Attached to select centrifugal or shear pumps, the MH-20 HIS hygienically suctions hops into your beer with minimal oxygen introduction. This completely eliminates the need for scissor lifts or shaky ladders, decreasing workload and greatly increasing safety.

## FEATURES
