

THE POWER OF **CONNECTED**

2018 Fixed Gas Detection Learning Opportunities

NEW COURSE: Calibration Certification Course

This course will educate individuals on the proper calibration techniques for Honeywell fixed gas detectors. Participants will be introduced to the gas detector, understand the do's and don'ts for calibrating the gas detector, and then conduct a live supervised calibration.

Upon successful completion each attendee will receive a factory trained calibration certification certificate for the selected product.

Select from the products here when registering: (see website for available dates)

301IRF	Optima Plus	Series 3000
E3Point	S301D2	XNX w/ Excel
EC-FX	Satellite	XNX w/ Optima Plus
Excel (Alignment)	Sensepoint XCD	XNX - Electrochemical
IRF9/Airscan IR	Sensepoint XCD-RTD	Sensors
Midas	Sensepoint XCD-RFD	XNX - Millivolt Sensors
OELD w/ Excel	Sensepoint XCL	
OELD w/ Optima Plus	Sensepoint XRL
