## WE CREATE COMPREHENSIVE APPROACHES FOR GAS DETECTION TRAINING SOLUTIONS

Honeywell offers a comprehensive training program for operators of High Tech, Portable and Fixed Gas Detectors. Our training programs include a combination of classroom, web-based and practical hands-on exercises and can be customized to fit specific operational and budgetary requirements. The training focuses on general safety, material handling system operation and maintenance, as well as in-depth troubleshooting courses to help you increase uptime, maximize your system investment and streamline lifecycle management activities. All Honeywell trainings are led by trainers who have years of product knowledge and experience.

### TRAINING OPTIONS DESIGNED TO MEET YOUR NEEDS

Scheduled Open Enrollment classes are offered at various locations throughout the US and Canada or at Custom On-Site Training based on your schedule.

- Learn the fundamentals of gas detection and sensor theory
