GLOBAL OIL FORECASTING SERVICE

Long-Term Outlook, September 2016

Redacted Contents

Glossary	1
Introduction: Through a glass, darkly	4
Executive Summary	7
Summary of WatchPoints	11
PART ONE, 2016-20XX :	
Market Rebalances, the Swingers Return	
Overview 2016-20XX	13
Demand Outlook 2016-20XX	15
• Sidebox: <i>Calculating Liquids Demand</i>	18
• Regional Growth Dynamics, 2016-20XX	19
• China Demand Outlook, 2016-20XX	21
• Sidebox: <i>Efficiency Factors</i>	23
• India Demand Outlook, 2016-20XX	24
• Brazil Demand Outlook, 2016-20XX	26
• US Demand Outlook, 2016-20XX	28
• International Marine Bunker Fuels Demand Outlook, 2016-20XX	31
Supply Outlook 2016-20XX	33
• Basinal Supply, 2016-20XX	35
• Sidebox: <i>Basinology</i>	36
• Oil Sands Supply, 2016-20XX	37
• Tight Oil Supply, 2016-20XX	38
• The Saudi XXXXXX, 20XX-20XX	40
• Hedging and the XXXXXX	41
• Supply Growth Dynamics, 2016-20XX	43
• Regional Supply Outlook, 2016-20XX	46
• Horizon Basins, 2016-20XX	53
Price Outlook 2016-20XX	54
SaudiWatch	56
• Domestic Saudi Demand for Liquids	56
• Saudi Liquid Power Demand	57
• Saudi Budgets and Expenditures	59
• Saudi Budgets and Oil Prices	61
• The Need for Saudi Restraint	64
• Other Possible Threats to Saudi Equilibrium Management Power	66

PART TWO, 2016-2020:

Recovery continues, but the 2016-2020 ends

Overview 2016-2020	68
Demand Outlook 2016-2020	70
• Regional Demand Trends, 2016-2020	73
• International Marine and Bunker Fuel Demand, 2016-2020	76
• Liquid Power Demand Outlook to 2020	77
• Global Petrochemical Demand to 2020	80
• Electric Vehicles and Liquids Demand to 2020	81
Supply Outlook 2016-2020	82
• Iraq and Kurdistan, 2016-2020	84
• Regional Overview, 2016-2020	85
• Horizon Basins, 2016-2020	92
• Industrial Liquids Supply to 2020	93
• Biofuels Supply to 2020	94
Price Outlook 2016-2020	96

PART THREE, 2021-2030:

The Second 2021-2030

PART FOUR, 2031-2040:

2031 & 2040	107
Demand after 2030 – the Plateau Approaches	107
Supply and Price after 2030	109

PART FIVE, 2041-2050 and beyond:

Liquids' Long Retreat from the Energy System

PART SIX:

Technology and the Future of Liquids

Potential Technology Game-Changers: Supply	119
• Enhanced Flow and Recovery Rates	119
• Biofuels	120
• Industrial Liquids	121
Potential Technology Game-Changers: Demand	122
• Electric Vehicles	122
• Compressed Natural Gas (CNG)	125
• Hydrogen Fuel Cells	125
• Absorbed Natural Gas and Hydrogen	126
• LNG and Marine Transport	127
• LNG and commercial vehicle transport	127

APPENDIX:

Data Tables

Supply, 2015-20	129
• Total Liquids Supply by Region	129
• Conventional Crude Oil & Lease Condensate Supply by Region	129
• Tight Oil Supply by Region	130
• NGL Supply by Region	130
• Industrial Liquids Supply by Region	130
• Refinery Processing Gain by Region	131
• Total Liquids Supply by Country	131
• Conventional Crude Oil & Lease Condensate Supply by Country	134
• Tight Oil Supply by Country	137
• Other Liquids Supply by Country	137
• Tight Liquids Supply by Source	140
Demand, 2015-20	141
• Total Liquids Demand by Region	141
• Total Liquids Demand by Country	141
• Total Liquids Demand by Source	144
• Liquid Power Demand by Country	145
Trade Balances, 2015-20	148
• Trade Balances by Region	148
• Trade Balances by Country	148
Inputs and Indicators	152
• OIF, Efficiency Rates, Trend Growth Assumptions	152
• List of Countries Analysed by Region	153

Graphs

1: Average Brent Spot Price, 2015–20	9
--------------------------------------	---

PART ONE, 2016–20 : Market Rebalances, the Swingers Return

2: Year Average Brent Spot Price, 2009–20	13
3: Saudi Sovereign Wealth Fund, End-Year 2014–20	14
4: OECD vs Non-OECD Demand, 1992–2015	15
5: YOY Changes in OECD Demand, 1990–20	16
6: Annual Global Demand Growth, 2015–20	17
7: Oil Intensity Curve	18
8: East & Southeast Asia Demand Growth, 2016–20	20
9: China's Structural and Observed OIF, 2000–20	21
10: Effects of Efficiency on China's Demand Growth, 2016–20	22
11: YOY Indian Demand Growth, 1994–2016	24
12: India v China OIF, 1995–2016	25
13: Brazil Demand, 2010–20	26
14: India and Brazil Net Imports, 1980–2015	27
15: US Demand, 1990–20	28
16: US OIF, 2004–2016	29
17: International Marine Bunker Fuel Demand vs Global GDP/cap, 1980–2015	31
18: International Marine Bunker Fuel Demand, 2000–20	32
19: US Tight Oil Supply, 2010–2015	33
20: Brent Spot Price, 2014–2016	34
21: Oil Sands Supply, 2015–20	37
22: US Tight Oil Capex, 2005–2016	39
23: Annual Saudi SWF Divestment, 2016–20	40
24: Global Liquids Supply by Source, 2005–20	43
25: US Tight Oil Supply, 2005–20	45
26: Brazil Pre-Salt Production, 2010–20	47
27: Total Americas Supply, 2015–20	47
28: Tight Oil Supply by Country, 20	48
29: Middle East Supply Forecast, 2015–20	49
30: Federal Iraq and Kurdistan Supply, 2010–20	49
31: Africa Supply Forecast, 2015–20	50
32: Russia Supply Forecast, 2015–20	51
33: Western Siberia Production, 1989–20	51
34: Central Asia Supply Forecast, 2015–20	52
35: Europe Supply Forecast, 2015–20	52
36: Asia and Oceania Supply, 2010–20	52
37: Horizon Basins Supply, 2016–20	53
38: Major Liquid Power Consumers, 2015	57
39: Saudi Total Power Demand and Non-Oil Generation, 1980–20	58

40: Saudi Demand by Type, 2000–20	58
41: Saudi Budget and Income, 2016	59
42: Saudi Sovereign Wealth Fund, 2000–2015	60
43: Saudi Budget Growth vs Oil Price Growth Correlation, 1992–2015	61
44: Saudi Budgets and Expenditures vs Oil Prices, 1992–2014	62
45: Saudi Budget Overspend, 1981–2015	63
46: Saudi Budget Surplus/Deficit at Different Oil Prices	63
47: Libya Total Liquids Supply, 2005–20	66

PART TWO, 20 – 20 : Recovery continues, but the ends

48: US Tight Oil Supply, 2005–20	68
49: YOY Global Demand Growth, 2015–20	68
50: Saudi Sovereign Wealth Fund, End Year 2014–20	69
51: Key Demand Growth Economies, 1990–20	70
52: Saudi Liquid Power Demand, 1971–20	71
53: YOY Changes in OECD and Non-OECD Demand, 20 – 20	71
54: US Reaches Second Demand Rollover	71
55: YOY China vs India Demand Growth, 20 – 20	74
56: International Marine Bunker Fuel Demand Forecast, 20 – 20	76
57: Liquid Power Demand by Region, 1992–20	77
58: Japan Liquid Power Demand, 2010–20	78
59: Light Duty Electric Vehicle Intensity Curve, 2014	81
60: Swinger Total Liquids Production by Country, 2000–20	83
61: Federal Iraq and Kurdistan Supply, 2010–20	84
62: Middle East Supply Forecast, 2000–20	86
63: Iran Total Liquids Supply, 2000–20	86
64: North America Supply, Demand and Net Imports, 2000–20	87
65: Brazil Pre-Salt Production, 2010–20	88
66: Total Africa Supply, 2015–20	89
67: Libya Total Liquids Supply, 2005–20	89
68: Russia Production by Basin, 2000–20	90
69: Kazakhstan Production by Basin, 2005–20	90
70: Asia & Oceania Supply, 2015–20	91
71: Norway Production by Basin, 2000–20	91
72: Horizon Basins Supply Forecast, 2016–20	92
73: Biofuels Supply by Major Producer, 2000–2015	94
74: Major Biofuels Producers, 2015	94
75: Equilibrium Balance, 2015–20	97

PART THREE, 2016–2020 : The Second Energy Scenario

76: US Tight Oil Capex 2005–2020	99
77: YOY Global Demand Growth, 2015–2020	100
78: Equilibrium Balance Without 2020 Swinger Action, 2016–2020	102
79: Average Brent Spot Price, 2012–2020	103
80: Equilibrium Management With/Without 2020 Swinger Action, 2016–2020	105
81: Gulf Swinger Production With/Without 2020 Swinger Action, 2016–2020	105

PART FOUR, 2016–2020 : Energy & Demand

82: Global Demand with OECD and Non-OECD Split, 2000–2020	107
83: China vs India Demand, 2000–2020	107
84: India OIF, 1980–2020	108
85: LNG Shipping Effect on Bunker Fuel Demand, 2000–2020	108
86: Pure EV Effect on Global Demand, 2015–2020	109
87: Conventional Basins Supply (excluding Swingers), 2000–2020	110
88: Global Tight Oil Production, 2000–2020	110
89: Equilibrium Management, 2016–2020	111
90: Average Brent Spot Price, 2012–2020	112

PART FIVE, 2016–2020 and beyond: Liquids' Long Retreat from the Energy System

91: LNG Bunkering and EVs Erode Global Demand, 2000–2020	114
92: Equilibrium Balance, 2015–2020	115
93: Average Brent Spot Price, 2015–2020	116

PART SIX: Technology and the Future of Liquids

94: EV Penetration Rate and Global Liquids Demand Displaced, 2016–2020	124
--	-----

Tables

PART ONE, 2016-20 : Market Rebalances, the Swingers Return

1: Major Demand Risers, 2016-20	17
2: Regional Demand Breakdown, 2015-20	19
3: Chinese Demand Indicators	21
4: Indian Demand Indicators	25
5: Brazilian Demand Indicators	27
6: Basinal Liquids Supply, 2016-20	35
7: Swinger Target Price Bands, 2016-20	39
8: Major Declining Basins, 2016-20	44
9: Major Rising Basins, 2016-20	44
10: Total Liquids Supply Growth by Region, 2016-20	46
11: US Tight Oil Supply, 2015-20	46
12: Year Average Brent Prices, 2016-20	55
13: Saudi Demand Indicators	56

PART TWO, 20 -20 : Recovery continues, but the ends

14: Major Demand Risers, 20 -20	72
15: Major Demand Decliners, 20 -20	72
16: Regional Demand Changes, 20 -20	73
17: Asia & Oceania Demand Outlook (by Major Economy), 20 -20	74
18: Europe Demand Outlook (by Major Economy), 20 -20	75
19: Major Liquid Power Consumers, 20 -20	79
20: Major Rising Basins, 20 -20	82
21: Major Declining Basins, 20 -20	83
22: Regional Supply Changes, 20 -20	85
23: North America Supply by Type, 20 -20	87
24: Global Supply Growth: Top 10 Countries, 20 -20	88
25: Brent Price Forecast, 20 -20	96

PART THREE, 20 -20 : The Second

26: Equilibrium Picture Without Swinger Action, 20	101
27: Equilibrium Picture Without/With Second , 20	105

Part 1: Market Rebalances, the Swingers Return (2016-20XX)

Part 2: Recovery Continues, but the ends (20XX-20XX)

Part 3: The Second ends (20XX-20XX)

Part 4: XXXX and XXXX (20XX-20XX)

Part 5: Liquids' Long Retreat from the Energy System (20XX-20XX and Beyond)

Part 6: Technology and the Future of Liquids
