3 x
stronger to lock-in skin hydration abilities — key to prevention of skin cell ageing

100%
of users indicated immediate visible improvements in their skin and rated as their favourite mask.

**YOUTHFUL
SUPPLE
CLEAR SKIN**

Why are Ice's Secret's Oligopeptides so effective?

Pharmaceutical Grade Methodology

Freeze-dried high-tech technology was first used in the pharmaceutical industry to freeze-dry and de-dry drugs into solids in the natural environment of sterility testing.

This technology is used in Ice's Secret Oligopeptide Complex serums & our Oligopeptide Miracle Secret Mask.

Without adding other additives, the active oligopeptides can be sufficiently preserved for a long time.

Advanced Molecular Structure

Structurally the same as the collagen in our skin, Ice's Secret's oligopeptides ensure immediate improvements and continual benefits with use over time.

They are small enough to penetrate the skin. This allows direct absorption into the deeper layers.

-196 °C freezing allows

99.9%

of active oligopeptides
essence to remain on the
sheet mask

ICE'S SECRET OLIGOPEPTIDE-1

One of the key actives in Ice's Secret Miracle Secret Mask.
Formidable formulation to repair and provide restoration at
the cellular level.

Official Launch:
2 AUG, 10pm SGT
