FITS PERFECTLY IN A BOX.

ELEPHANT IN A BOX

DYNAMIC SOFA SET-UP INSTRUCTIONS

INSIDE THE BOX YOU WILL FIND:

- Sofa Body - Elephant Core
- Blue wooden beams (2 pieces)
- Black wooden beams (2 pieces)
- Base Lining

- Back Lining (2 Pieces)
- Front Panel
- Seat Cushions (2 Pieces)
- Back cushions (2 pieces)

- Back Covers (2 pieces)
- Armrests (2 Pieces, attached)
- Set of 4 straps (for future moving)
- 2 metal L connectors

Open the box.

Take all contents of the sofa out, including all the pieces inside the armrest.

With all the contents out, flip the sofa body upside down. Expand the sofa honeycomb by pulling outwards on the armrests in a straight line.

Put the beams side by side, forming a line as long as the sofa.

Take the stopper screw out by rotating the nut. Then, slide the metal connector to the opposite direction towards the round washer.

Insert the screw on the beam hole and secure with the nut.

Place the black wood beams inside the black connectors at the bottom of the armrests (front and back) with the velcro facing down, and secure with the screw.

Place the blue wood beams inside the blue connectors on the top and front of the sofa.

Put the base lining on the sofa with the velcro facing up.

ELEPHANT IN A BOX

DYNAMIC SOFA SET-UP INSTRUCTIONS

10

Place both back lining pieces on at the same time, starting from a V shape. This will make them fit tighter.

11

Fix the velcro on the seat padding.

12

Flip the sofa to tighten the back covers to the velcro on the bottom part of the black beam.

13

Stick the front panel onto the base lining.

14

Flip the sofa to secure the velcro on the bottom of the black beam.

15

Put the fabric covers for the pillows.

16

Put the seat and back cushions in place.

17

Stretch and "fluff" the cushions, they've been cozy for a while :)
Now relax!

ELEPHANT IN A BOX

DETTACHING & ATTACHING ARMRESTS + STRAPS

REMOVING THE ARMREST TO ADD FUNCTIONALITY TO YOUR ELEPHANT IS SUPER SIMPLE, BEFORE YOU BEGIN PLEASE:

- Make sure all linens and paddings are removed. By design having the paddings/linen on will make it more difficult
- Connectors might be a bit tight after the journey
- Get excited about all the possibilities you'll have!

DETTACHING

Take all padding & linens off.

Starting on the back of the sofa, pull the armrest up, while putting some pressure down on the beam.

Now, use the same motion on the front side of the sofa.

Lift the armrest to take it to a full separation.

ATTACHING

Bring the armrest to attach, making sure the connectors are facing in.

Align the connectors and simply push down, ensuring they are "hooked".

Now you are ready to add paddings and enjoy your Elephant!

The straps will keep the core & cushions together in 2 easy-to-move parts.

Your Elephant is ready to follow you to the new adventure!
