

## Safety Data Sheet

---

Product Name: Sea Salt (Fine & Course)  
Product Type: Additive  
Ingredients: Salt

### ***Hazards Identification***

Salt can cause some burning or irritation with prolonged contact and/or exposure to open wounds, and could be irritating to eyes, skin, and respiratory system if inhaled.

Eye: This product could cause some eye irritation. Symptoms may include itching, reddening, excess tearing and swelling. Protective goggles are recommended when handling product in large volume as a precaution.

Skin: These products could cause some burning, drying and irritation in some individuals with sensitivity. Wash hands thoroughly with soap and water.

Ingestion: Ingestion of extremely large quantities may cause dehydration. This warning only applies if product is consumed excessively, far beyond amounts customarily consumed.

Inhalation: Spices in powder form could cause some irritation to the respiratory system if inhaled.

Salts, spices, herbs and edible seeds are considered NON Hazardous under 29 CFR 1910.1200 (Hazard Communication). These materials are not regulated as hazardous materials or dangerous goods for transportation.

### ***First Aid Measures***

Eyes: Protective goggles are recommended. Should product come in contact with the eyes, remove contact lenses if it can be done safely. Immediately flush eyes with water for 10-15 minutes as needed, holding eyelids open as needed to allow water to flush out eyes sufficiently. Seek medical attention if symptoms worsen or persist.

Skin: Wash thoroughly with soap and water. Prolonged contact with skin can cause a burning sensation.

Inhalation: Working areas should be very well ventilated. Should an individual have difficulty breathing, the affected individual should move to fresh air, outside if possible, or an unaffected area.

Ingestion: There is no hazard in consuming/ingesting salts, spices, herbs or edible seeds in customarily consumed quantities. These items are fit for human consumption.

### ***Fire-Fighting measures***

General Fire Hazard: Salts, spices, herbs and edible seeds are not known to be a fire hazard.

Explosion Hazard: Salts, spices, herbs and edible seeds are not an explosion hazard.

Hazardous Combustion Products: Salts, spices, herbs and edible seeds do not self-combust.

Extinguishing Media: Use extinguishing media suitable to surrounding fire conditions.

### ***Spillage/Accidental Release Measures***

Clean and repair packaging as you would any similar non-hazardous substance.

### ***Handling and Storage***

Handling: Handle in properly designed and approved equipment systems. Do not inhale or ingest large quantities. Wash hands with soap and water after touching skin.

These products can be corrosive to metal after prolonged exposure.

## Safety Data Sheet

---

Storage: Storage area should be clean, clearly identified, clear of obstructions and accessible to authorized personnel.

### ***Exposure Controls/Personal Protection***

Eyes/Face: Goggles are highly recommended as a precaution when handling red pepper items. Goggles should be carefully rinsed as needed.

Skin/Hands/Feet: Gloves are highly recommended when handling these products. Wash with soap and water after coming into direct contact with skin.

Respiratory: If ventilation is not sufficient, appropriate filtered masks should be provided to workers, with periodic breaks to get fresh air as needed.

### ***Stability and Reactivity***

Chemical Stability: These products are stable materials.

Incompatibility: In presence of air, liquid contact or mist, these products will slowly erode or be corrosive to most metals.

Hazardous Polymerization: Will not occur.

Corrosivity: These products are corrosive to most metals upon prolonged contact.

Hazardous Decomposition: None identified.

Acute Toxicity – General: These products are not known to be toxic

Chronic Toxicity – Carcinogenic Effects: None of these products are listed by WHO as a carcinogen

### **-Disclaimer-**

This safety data sheet is based on the properties of the material known to Mad Oils, Inc. at the time the data sheet was issued. The safety data sheet is intended to provide information for a health and safety assessment of the material and the circumstances, under which it is packaged, stored or applied in the workplace. For such a safety assessment, Mad Oils, Inc. holds no responsibility. This document is not intended for quality assurance purposes.
