

Lubie[®]
promises
you higher
production,
Less down
time and
a safer
environment.

BIOLUBE

Increase tool life.

Decrease resin build-up.

Achieve closer cutting tolerances.

Lubie® is the leader and original innovator in saw lubrication for over 20 years. Lubie®, a Federally Registered Trademark of Biolube, is the only name you can trust to provide trouble free Lubie® spray application equipment and proven saw lubricants, moulder bed lubricants, grinding coolants, pitch cleaners and other specialty products. Our goal is to provide you with the most environmentally friendly, cost competitive products that will allow your mill to increase it's bottom line.

All products are covered by a 100% satisfaction guarantee, distributed nationwide by distributors who know the woodworking industry and work with you to improve your mill's efficiency. We have established this network of stocking partner distributors throughout the United States and Canada to provide you with the products you need along with technical assistance.

Give Lubie® or one of our distributors a call and find out how easy it is to improve your profitability.

Lube Master Spray System

The rugged Biolube spray system is specifically designed for Lubie® products only. Its reliable and cost-effective applicator accurately atomizes the correct formula of lubricant onto wood or metal processing blades and tooling.

Customers report longer blade and tool life along with reduced downtime. Our lubricants are proven to be trouble-free and most are biodegradable and non-toxic. Simply install the nozzles, connect your air supply and the spray system is operational. Lube flow is quickly and easily adjusted.

Lubie® Lubes

Lubie Lubes are formulated for specific uses to meet your particular needs. No silicones or waxes are used in any of our products and most are free of toxic or hazardous chemicals and are biodegradable. Lubricants are available for both saw and moulder bed applications.

Saw Lubricants

	Lubie GP	Lubie 7WG	Lubie 210	Lubie 3ST	Lubie 43	Lubie 4	Lubie 9
Oil Based	X	X	X				
Water Based				X	X	X	X
Hardwood	X	X	X	X	X		X
Softwood			X	X	X	X	
Freezable				X	X	X	X

Softwood			X

Grinding Coolants

Our coolants and cleaners are formulated for all types of manual and automatic grinding and machining operations. They are commonly used with high speed steel, carbide or coated carbide tooling. Economical and resistant to bacterial growth, these coolants have excellent water dilution rates, resist cobalt leaching, provide effective corrosion and rust protection extending tool life.
