## GRINDING COOLANTS

BIOLUBE coolants and cleaners are formulated for all types of manual and automatic grinding and machining operations. They are commonly used with high speed steel, carbide or coated carbide tooling. Economical and resistant to bacterial growth, these coolants have excellent water dilution rates, resist cobalt leaching, provide effective corrosion and rust protection extending tool life.

<b>Carbide</b>		X	X		X	X	X

**BioLube (Lubie) products are made in the U.S.A. and are available through Smith Sawmill Service.**

### Lubie Master Spray System

The rugged Biolube spray system is specifically designed for Lubie products only. It is reliable and cost effective applicator accurately atomizes the correct formula to lubricant into wood or metal processing blades and tooling.

Simply install the nozzles, connect to your air supply and spray system is operational. Lube flow is quickly and easily adjusted. Available with 1 to 8 nozzles.
