

# SAWMILL EQUIPMENT

Cord King, established in 1978 with the first commercial firewood processor in North America. With less than half the moving parts of other firewood processors on the market, a Cord King firewood processor needs a fraction of the maintenance, giving you more production time and a minimum of 4 full cords of wood per hour!

### **CORD KING EQUIPMENT**

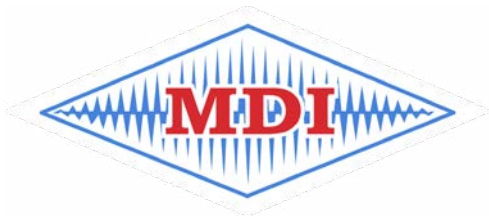

#### **CS SERIES (CIRCLE SAW)**

CS-Series utilizes a carbide tooth slasher saw, and each circular saw firewood processor comes equipped with a 50 to 127 HP diesel engine. These heavy-duty commercial firewood processors are capable of producing between 4 and 10 full cords of firewood per hour.

#### **MONSTER SPLITTER**

Cord King Monster Splitter splits logs up to 72" in diameter and 16' long into manageable pieces. It has a 120 ton push, remote control with 134 HP Deutz Power Engine. Available in 8' to 17' lengths.

MDI (Metal Detectors, Inc.) has over 50 years of experience manufacturing industrial metal detector equipment. MDI has a reputation you can trust, with quality products that are top of the line. Detect the metal and prevent downtimes.

### **MDI EQUIPMENT**

#### **PORTABLE PROBE**

MDI's portable metal detector is simplistic and gives you an easy to use handheld metal detector built rugged and durable. No calibrations or adjustments are needed, turn on and go.

MDI Portable Probe 2100

#### **UNDER CONVEYOR SYSTEM**

MDI digital technology is guaranteed to surpass all previous function blocks by providing better performance and enhancing consistent, reliable digital technology. MDI utilizes Diamond Construction Process and advanced digital filtering to give you higher stability, less false tripping, and better maximum sensitivity.

MDI MP-2000 Under Conveyor System

#### **SURROUND SYSTEMS**

MDI offers superior performance and outstanding reliability that is unmatched by any other system on the market. The planer system uses MP-4 Digital technology. Its' design provides the intense sensitivity required from a metal detector.

MDI TWA-200 Planer

Morbark was established in 1957 by Norval Morey when he took his first step to manufacture and patent a portable pulp wood debarker. With more than 60 years of ideas, invention, and phenomenal growth, Morbark has gained recognition as a world-class manufacturing company with worldwide markets and a reputation for designing and building robust, rugged, and reliable heavy equipment.

### **MORBARK EQUIPMENT**

#### **STAC TRAC**

Designed for mechanically sorting and stacking lumber, ties, and cants, the Stac-Trac can do the work of two to five men on a green chain. This unit will lift and stack timbers difficult or impossible to do by hand, reducing labor costs and decreasing injuries associated with material handling.

#### **DEBARKERS**

Morbark offers several different Debarkers for hard and soft wood; choose which debarker works best for your business.

640 Debarker

#### **STATIONARY CHIPPERS**

The stationary chipper is designed for chipping sawmill waste, slabs, edgings, and round wood for pulp and paper and other markets. Precision manufacturing techniques ensure optimum chip quality, even in two- and three-knife chippers.

Northtech has provided dependable equipment to Woodworkers across America for over 30 years. Northtech offers a full line of stationary machinery, including assembly, dust collection, gluing, cutting, ripping, profiling, planing, and feeding.

## **NORTHTECH EQUIPMENT**

### **UP CUT SAWS**

We offer 24+ different Northtech Up Cut Saws. Each is designed for accurate, fast, and safe fabrication cutting for wood and plastic. Many options to choose from, view [sawmill.shop](http://sawmill.shop) for more specs and details.

Northtech CS14R-732

### **BANDSAW MACHINES**

We offer 25+ different Northtech bandsaw machines. Choose the right bandsaw to fit your needs. Each of these bandsaw machines has rugged construction throughout for maximum stability and provides a precision saw arbor to give an accurate and smooth cut.

Northtech H3R-300S

### **PLANERS**

We offer 15+ different Northtech Planer machines. Choose between single or double surface planer.

Northtech Double Surface Planer NT 610EL Heavy Duty

Since 1964, Precisions had built powerful and reliable sawmill equipment, over 70 different pieces of equipment engineered for sawmills, logging, and wood waste recycling; Precision Husky can get it done no matter the circumstances.

### PRECISION EQUIPMENT

#### **STANDARD & HIGH VOLUME CHIP SCREEN**

Each chip screens are made from heavy-duty steel with assured long-life performance. Many options and configurations are available.

Standard Chip Screen

#### **STATIONARY CHIPPERS**

Choose between waste wood chippers or round wood chippers. Each offers a canted side spout design with a position of the knives causing smooth slicing actions. You'll find the right one for your business with numerous custom configurations.

Round Wood Chipper

#### **KWIK CHIP UNITS**

The Precision KWIK-CHIP Unit includes your choice of chipper, screen, blowpipe, cyclone, and blowers; all mounted on a compact frame to provide you with all of your sawmill chipping needs. Components can be positioned to fit your existing space.

TurboSawmill makes the world's premier Automated Swing-blade sawmill. Their products offer simplicity at its finest, utilizing a unique open side frame and patented automation with an alternative single beam approach, bringing together the best of all designs.

## TURBOSAWMILL EQUIPMENT

### **AUTOMATED WARRIOR**

The revolutionary swing blade sawmill makes the process of milling logs into timber a joy. The operator controls the feed rate through a lever at the end of the beam, allowing 100% speed control while the saw cuts. An incredibly versatile, easy to use portable sawmill. We've brought the swing blade technology into the 21st century! Options for max board size and engines.

### **MANUAL WARRIOR**

TurboSawmill Manual sawmills offer a truly portable option with swing-blade.

The Honda engine takes only a few minutes to remove from the carriage.

The sawmill then can be carried into the forest and setup over the log as it lays. Choose options for include max board size and engine.

### **WARRIOR SLABBER**

We've re-configured this design to offer significant advantages over other manufacturer options. Easy to setup and easy to push through the log, thanks to the faster running chain speed and angled bar!

Length is not a problem either! We can extend this unit as long as you wish.

## WHO WE ARE

We have sales people in your region with knowledgeable answers to your sawmill needs, with combined experience of over 200 years.

## WHAT SETS US APART

Help customers have the best equipment and cutting tools in order to meet their goals, increase yield, and produce the highest quality lumber products in the most-cost efficient manner.
