- Superior Moisturizing

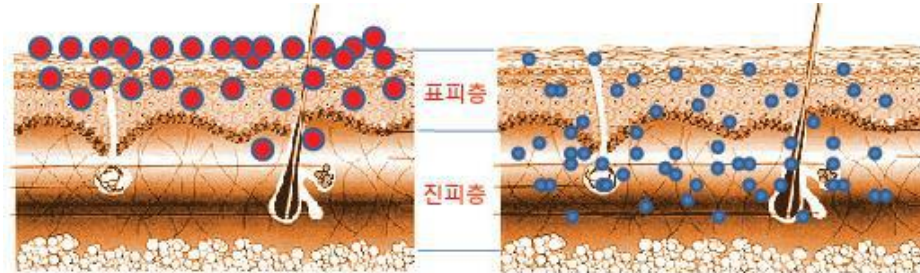

Anti-Wrinkle Certified By KFDA

Biotoc Regen Cream

CONCEPT

- BIOTOC is the bio solution which integrate modern technology into herbal ingredients by applying DSC (Derma System Cell) technology - Dermafirm's specialized technology.
- The process is similar to micro organism decomposition, therefore it minimize irritation and each nutrition delivered to skin efficiently.

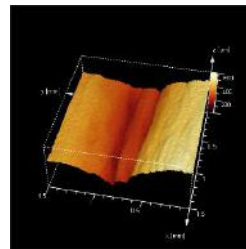

- It is the product for anti-aging and brightening which helps a tired and elasticity lost skin to look bright and healthy.

Elasticity and Nutrition

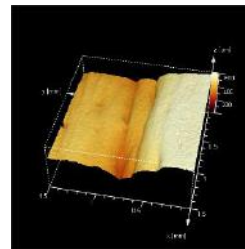

- Biotoc products contain many high-functioning active ingredients for Elasticity and Nutrition such as EGF, IGF, 5 Peptides, Cultivated Lotus Stem Cell extract, 17 Amino acids, MultiEx BSASM Plus, Snail Mucus Extract , etc.

5 Peptides

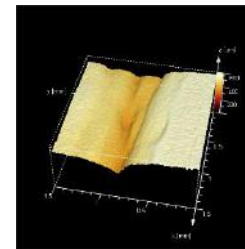

- Acetyl Hexapeptide-8 (known as Botox Peptide)
- Palmitoyl Pentapeptide-4 (known as a Regenerating Peptide)
- Copper Tripeptide-1 (enhances skin barrier)
- Palmitoyl Hexapeptide-12 (Moisturizing Peptide)
- Tripeptide-29 (Collagen Peptide)

0 days

10 days

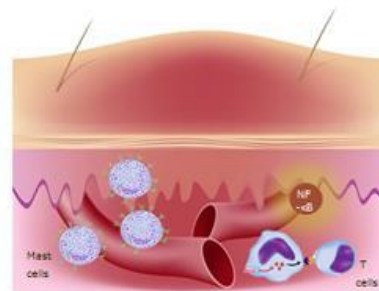

30 days

Remarkable effect of Acetyl Hexapeptide-8, known as Botox Peptide

- In the form of fine molecules, it absorbs more easily than other ingredients and induces direct effects.
- Improves skin elasticity and makes tired skin more healthy and vivid.

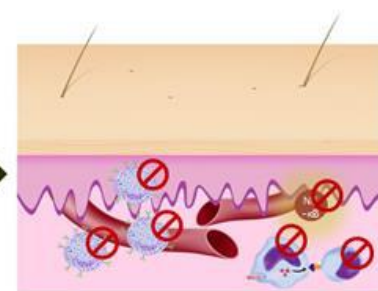

MultiEx BSASM Plus

- Regulation of immune response
- Patented extraction skill

Abnormal activation of the immune system

→ Atopic dermatitis

Action of BSASM

→ Reduces troubled skin

Ingredients and Effects

BIOTOC CARE

Total Anti-aging Approach

Moisturizing and Whitening

It is Biotoc's own DSC technology that maximizes the Anti-Aging effect by formulating the selected ingredients for moisturizing and whitening such as Natural HG, Clerilys W.(French new ingredient), Phycosaccharide, Panax Ginseng Root Extract, Lactobacillus (Rice Ferment Filtrate, Soybean Ferment Extract), Saccharomyces, etc.

Clerilys w.

- Hibiscus Sabdariffa Flower Extract

- Morus Alba Bark Extract

- Cucumis Sativa(Cucumber) Seed Extract

Inhibits melanin production

Brightens skin tone

A safe alternative material to hydroquinone

Reduces skin pigmentation and blotch

Natural HG

- Imperata Cylindrica Root Ferment Extract

- Soybean Ferment Extract

- Viscum Album (Mistletoe) Ferment Extract

Patented fermentation extraction skill → Outstanding moisturizing and soothing function

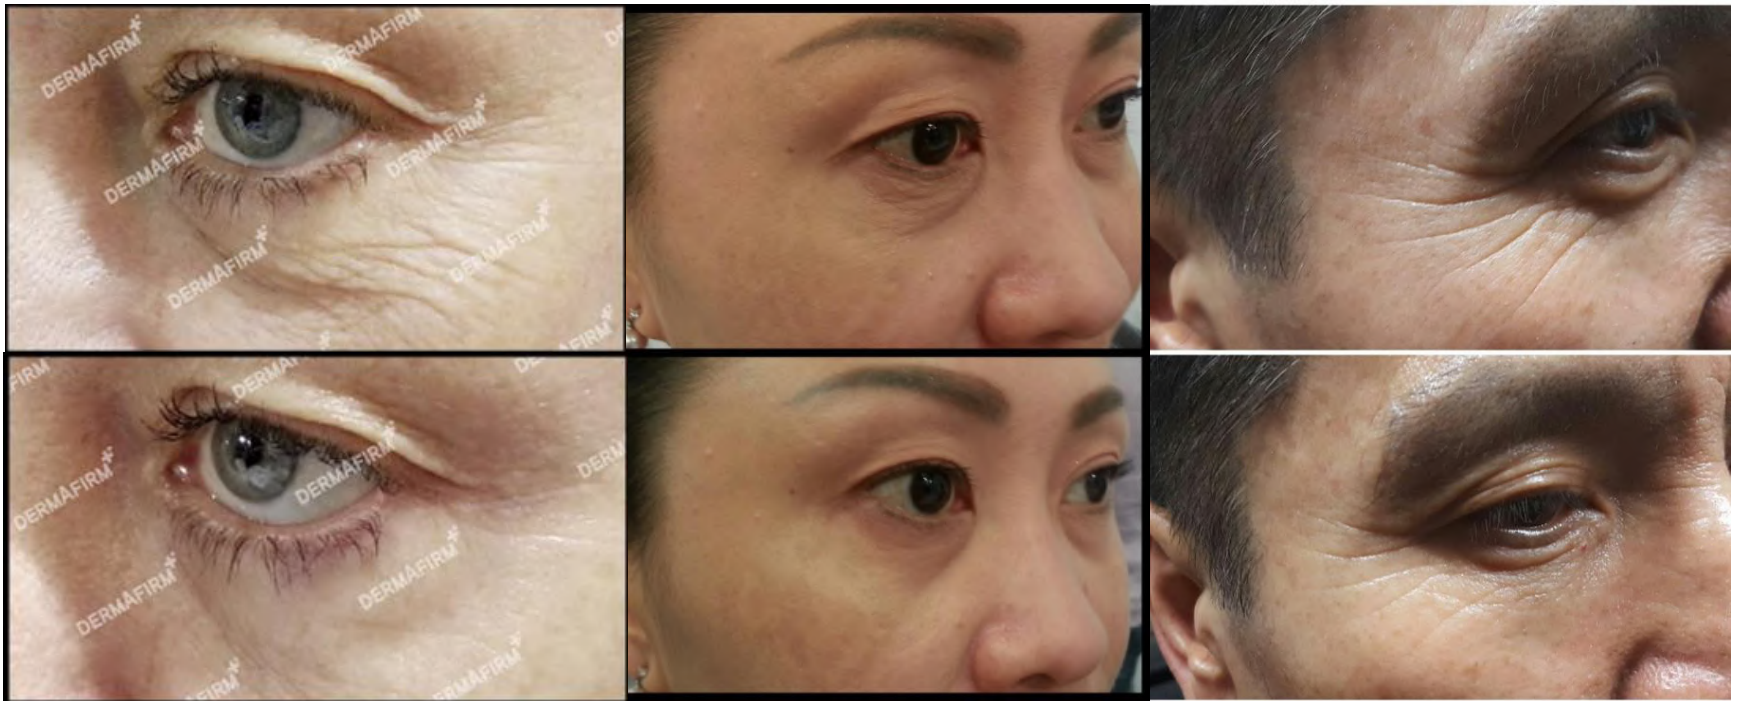

Low molecular weight by fermentation process → Superior skin penetration

BIOTOC REGEN CREAM

Plenty of Excellent Qualities.

BIOTOC CARE

Total Anti-aging Approach

Oriental natural herbal medicine ingredients
+
High-technology of Dermafirm Laboratory , the hospital brand

How To Use BIOTOC

BIOTOC CARE

Total Anti-aging Approach

- After toning or at the toner step, drop the appropriate amount of BIOTOC Regen Ampoule on your face (apply first on deep lines) and let it absorb by tapping lightly. For the best results, repeat it three times per applying.

- Apply an appropriate amount of BIOTOC Regen Peel to pores and wrinkles especially around the lips and under the eyes. Then massage roundly with your fingertips pressure for 2 or 3 minutes, and press firmly with fingers. Apply BIOTOC Serum and Cream thickly after using BIOTOC Regen Peel. It is effective to use mask pack together. For the best results, apply BIOTOC Regen Peel twice a week and BIOTOC Regen Ampoule, Serum, and Cream every morning and evening.

BIOTOC Regen Ampoule

BIOTOC Regen Peel

- After fully absorbed BIOTOC Regen Ampoule, apply BIOTOC Regen Serum as needed to keep regeneration during treatment. This phenomenal formula is absorbed deeply into the dermal layer where maximum benefits will be achieved.

- At the end of the basic care, apply to the entire face and neck and let it absorb by tapping lightly. Avoid the eyes.
