

To help combat the spread of Covid-19, this two person forklift working platform allows two people to work in close proximity to each other whilst adhering to social distancing measures

With a protective dividing plastic screen (removable) that shields the operators from the risk of catching Coronavirus via droplets in the air when working together along with hand cleaning work stations and individual gated entry points, this Covid-19 compliant forklift safety platform is the ideal solution for working safely whilst maintaining social distancing

Model Ref	Max SWL (kg)	Length (mm)	Width (mm)	Height (mm)	Weight (Kg)
<b>WP-COVID</b>	500	1226	1506	1916	197

## Features & Benefits

- Manufactured to comply with Covid-19 social distancing guidelines
- Protective dividing plastic screen (removable) that shields the operators from the risk of catching Coronavirus via droplets in the air
- Hand-cleaning stations fitted to each compartment, where hand sanitizer, gloves, wipes etc can be stored
- Self-closing, automatic locking safety side gates for individual access into platform whilst providing a protective barrier when operating at height
- Full length fork pockets to provide complete platform stability
- Harness anchorage points and in-board handholds points for operator safety
- Perforated back mesh ensures there is a barrier between the platform user and the hazardous areas of the lift truck
- Anti slip floor tread with drain holes to avoid accumulation of water and risk of slipping
- Kick rail to all sides prohibits items left on the floor from falling out at height (i.e. work tools)
