

## INFO

Capacities up to 300 kg available on request.

## Spring balancers model YBF

Capacity 0.5 - 200 kg

## Spring balancers with extended rope length model YBF-L

Capacity 1.5 - 130 kg

Spring balancers are used to relieve the operator from the weight of hand-tools. By using a tapered rope drum the weight of the attached load is compensated, loads up to 200 kg can be moved effortlessly in vertical axis.

### Features

- Spring balancers model YBF are designed in accordance with DIN 15112.
- The housing is manufactured from high-tensile aluminium pressure die casting for maximum resistance to impact.
- Manual drum lock for an easy exchange of rope or for changing the attached load.
- The special spring-assembly inside the balancer guarantees a consistent counterbalance throughout the complete working range.
- Easy exchange of wire rope. A small slot in the body facilitates the removal and re-installation of the rope without any need to disassemble the unit.
- Spring assemblies as separate units in a closed steel housing for improved handling during assembly and disassembly. Reduced risk of injuries.
- Rope guide made of wear-resistant nylon for reduced wear of rope and body. Lifetime of the spring balancer is increased. The rope guide can be removed and installed on site without disassembling the rope.
- Load indicator allows easy reading of the capacity set.
- Upper and lower suspension eyes are provided for the attachment of secondary safety chains. Providing additional safety and preventing the spring balancer and load from falling accidentally.

### Applications

Spot-welding guns, riveting-machines, slaughterhouse equipment, multiple nut-runners etc.

**Load indicator**

for models  
YBF-09 up to YBF-70  
YBF-22L up to YBF-70L  
YBA-15 up to YBA-70  
YBA-22L up to YBA-70L

**Rope guide**

for models  
YBF-09 up to YBF-200  
YBF-09L up to YBF-130L  
YBA-15 up to YBA-70

**Spring assembly**

as separate unit in a closed steel housing.  
All models with capacities more than 5 kg.

Spring balancers  
with safety feature in case of  
rope breakage  
model YBA

Capacity 9 - 70 kg

Spring balancers  
with safety feature in case of  
rope breakage and  
with extended rope length  
model YBA-L

Capacity 9 - 70 kg

YBA series spring balancers have the same technical features as the YBF series, but are equipped with an additional safety feature in case of rope breakage. This mechanism automatically locks the rope in case of accidental dislodging of the suspended weight, breakage of the bottom hook or the rope.

Whipping of the rope and potential injuries to the operator or other personnel in the area is avoided.

This series is used primarily in areas in which higher safety standards are applied or adverse conditions are common (flying sparks etc.) which might cause damages to the rope.

This series is available with standard and extended rope length.

**Suspension eye**  
according DIN 15112 spring balancers must be equipped with additional suspension eyes for the attachment of secondary safety chains.

**Easy exchange of wire rope**  
without any need to disassemble the unit.  
Model YBF-09 up to YBF-100  
Model YBA-15 up to YBA-70

**Manual drum-lock**  
for an easy exchange of the rope. All s with capacity more than 5 kg.
